- ⁵ If the applied area is piano, Piano Class is replaced with two hours of music electives. The Piano Proficiency Examination may be taken in lieu of two semesters of Piano Class. Students must pass the complete Piano Proficiency Examination before receiving credit for the final semester of the piano requirement. Students must be enrolled continuously in the class until their piano requirement has been completed.
- ⁶ Senior recital for all performance degrees is a public recital.
- ⁷ Students may substitute 1 hour of elective providing they pass the Jazz Piano Proficiency.
- ⁸ Music electives in any Bachelor of Music degree should be chosen from courses in Music History, Music Theory/Composition, Music Education, Music Literature, Music Pedagogy, Music Therapy, Jazz, a secondary applied area, or a non-required ensemble. Courses beyond the degree requirement in the student's major applied area or in the

required major ensemble(s) are not appropriate. MUH courses will not be accepted as music electives. School of Music students may count up to two one-hour Physical Education courses toward the general elective requirement.

⁹ Students must complete a 1-credit hour module in Term 1 and a 1-credit hour module in Term 2 the same semester that they are registered for MUS 241 Musicianship 3.

¹⁰ Students must complete a 1-credit hour module in Term 1 and a 1-credit hour module in Term 2 the same semester that they are registered for MUS 242 Musicianship 4.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Music, Jazz Studies (BA)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts with Emphasis in Jazz Studies

Unit: Music (<http://www.louisville.edu/music/>)
Academic Plan Code(s): MUSIBA_JAZ

Program Information

The Bachelor of Arts in Music with Emphasis in Jazz Studies degree is aimed at introducing students to elements of jazz within the context of a liberal arts program. The outcome of the degree is to prepare students to develop skills in performing and improvising music in a variety of jazz styles on primary and secondary instruments, and to have an understanding of a variety of performance techniques in jazz, and an appreciation of the jazz tradition through the study of and performance with jazz masters.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361 ; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 , with grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional General Education/Cardinal Core courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies (including jazz performance, music education and music therapy with tracks in jazz studies, and the BA in jazz studies), music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the *Undergraduate Student Handbook*.

Code	Title	Hours
Culminating Undergraduate Experience (Graduation requirement)		
Requirement fulfilled by completing:		
MUS 496	BA Capstone Project	

¹ Students are required to take MUH 214 and MUH 205.

² MUH courses will not be accepted as music electives or cardinal core courses with the exception of ANTH 205/MUH 205 and PAS 214/MUH 214.

³ Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 for 0 credit concurrently with MUS 141. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142, must enroll in MUS 92 for the spring semester. Credits for MUS 92 do not count toward the degree.

⁴ Students also have the option of completing an Analysis course: MUS 349 Jazz Analysis for BA Jazz Studies.

⁵ Jazz students take 6 1-hour courses of Jazz Major Ensemble plus 2 1-hour courses of non-Jazz Major Ensemble.

⁶ The Piano Proficiency Examination is required for applied piano majors.

⁷ If the applied area is piano, Piano Class is replaced with 2 hours of music electives. The Piano Proficiency Examination may be taken in lieu of two semesters of Piano Class.

⁸ Students may substitute 1 hour of elective providing they pass the Jazz Piano Proficiency.

⁹ Music electives in any Bachelor of Music degree should be chosen from courses in Music History, Music Theory/Composition, Music Education, Music Literature, Music Pedagogy, Music Therapy, Jazz, a secondary applied area, or a non-required ensemble. Courses beyond the degree requirement in the student's major applied area or in the required major ensemble(s) are not appropriate.

For the Bachelor of Arts degree, in addition to the electives listed for the Bachelor of Music, applied music courses beyond the required four semesters are acceptable as music electives. MUH courses will not be accepted as music electives. School of Music students may count up to two one-hour Physical Education courses toward the general elective requirement.

¹⁰ Non-music electives which include 18 hours in one area of concentration. At least 9 hours in the area of concentration, and a total of 12 of the 31 hours, must be at the 300-level or above. The student may choose to pursue a second major or take a minor in a non-music area. School of Music students may count up to two one-hour Physical Education courses toward the general elective requirement.

¹¹ Students must complete a 1-credit hour module in Term 1 and a 1-credit hour module in Term 2 the same semester that they are registered for MUS 241 Musicianship 3.

Music Organ Performance (BM)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Music with Emphasis in Organ Performance

Unit: Music (<http://www.louisville.edu/music/>)
Academic Plan Code(s): MUSIBM_ORG

Program Information

The Bachelor of Music in Performance degree is appropriate for students who wish to prepare for a career in music performance and related fields. Among the particular career emphases for which the BM in Performance is an appropriate preparation are professional performer, university teacher, private music studio teacher, or pre-professional preparation for music teacher certification study. Since it is unlikely that graduates of the program will have developed all the requisite skills to enter the professional ranks of performers or university teachers, most graduates will continue to develop their skills through further study.

The 560-seat Margaret Comstock Concert Hall at UofL houses three Steinway and a Bösendorfer “Imperial” concert grand pianos as well as a 64-rank Steiner-Reck organ, the largest of its kind in the Midwest. Also available to students are a number of practice organs.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional General Education/Cardinal Core courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies (including jazz performance, music education and music therapy with tracks in jazz studies, and the BA in jazz studies), music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status

and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the *Undergraduate Student Handbook*.

- Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142, must enroll in MUS 92 for the spring semester. Credits for MUS 92 do not count toward the degree.
- Solely dependent on the ensemble audition.
- Senior recital for all performance degrees is a public recital.
- Music electives in any Bachelor of Music degree should be chosen from courses in Music History, Music Theory/Composition, Music Education, Music Literature, Music Pedagogy, Music Therapy, Jazz, a secondary applied area, or a non-required ensemble. Courses beyond the degree requirement in the student's major applied area or in the required major ensemble(s) are not appropriate. MUH courses will not be accepted as music electives. School of Music students may count up to two one-hour Physical Education courses toward the general elective requirement.
- Students must complete a 1-credit hour module in Term 1 and a 1-credit hour module in Term 2 the same semester that they are registered for MUS 241 Musicianship 3.
- Students must complete a 1-credit hour module in Term 1 and a 1-credit hour module in Term 2 the same semester that they are registered for MUS 242 Musicianship 4.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Music Theory (BM)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Music with Emphasis in Music Theory

Unit: Music (<http://www.louisville.edu/music/>)
Academic Plan Code(s): MUSIBM_MUT

Program Information

The Bachelor of Music in Theory degree is designed for students interested in understanding and eventually teaching music theory. Many of the graduates of this degree will pursue graduate studies in music theory. In addition to those goals common to all professional baccalaureate degrees in music, students in music theory develop an advanced capability for music analysis, including sophisticated communication skills about analysis and the ability to analyze a musical work from multiple perspectives. Students also develop a sophisticated knowledge of the relationship between music theory and music composition, including the ability to compose music with acoustic and digital sources, and with a degree of technical mastery of music notation, arranging, and computer notation. Theory majors use the tools of music analysis and theoretical research, including keyboard, knowledge of foreign languages, and bibliographic tools. Research techniques and effective written and oral communication skills must be demonstrated by the development and presentation of a senior paper.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Musicianship IV or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional General Education/Cardinal Core courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies (including jazz performance, music education and music therapy with tracks in jazz studies, and the BA in jazz studies), music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music

therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the *Undergraduate Student Handbook*.

Code	Title	Hours
Culminating Undergraduate Experience (Graduation requirement)		
Requirement fulfilled by completing:		
MUS 498	Thesis Guidance - CUE (https://catalog.louisville.edu/undergraduate/general-education-requirements/)	

- ¹ Students are required to take MUH 214 African-American Music - AH (<https://catalog.louisville.edu/undergraduate/general-education-requirements/>), D1 (<https://catalog.louisville.edu/undergraduate/general-education-requirements/>) and MUH 205 Music in World Cultures - SB (<https://catalog.louisville.edu/undergraduate/general-education-requirements/>), D2 (<https://catalog.louisville.edu/undergraduate/general-education-requirements/>).
- ² MUH courses will not be accepted as music electives or cardinal core courses with the exception of ANTH 205/MUH 205 and PAS 214/MUH 214.
- ³ Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141 Theory I. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142 Theory II, must enroll in MUS 92 Musicianship I for the spring semester. Credits for MUS 92 do not count toward the degree.
- ⁴ Strings take section 01, others solely dependent on the ensemble audition.
- ⁵ If applied principal is piano, Piano Class is replaced with 3 hours of electives. For students with a piano background, three semesters of MUS 121-MUS 221 (Secondary Piano) may be substituted.
- ⁶ Students will take the Piano Proficiency Examination at the end of MUS 231. Any student not completing the Piano Proficiency Examination will be required to take MUS 232 until the proficiency exam requirement is complete. Students must be enrolled continuously in Piano Class until their requirement has been completed. Those who pass the Piano Proficiency Examination before the end of the third semester of Piano Class may replace the requirement with electives or with secondary piano if faculty load permits. Entering students who have a background in piano may register for MUS 297 Piano Proficiency for one semester with approval of the Keyboard Area.
- ⁷ Theory majors are strongly advised to take a second semester of German.
- ⁸ Music electives in any Bachelor of Music degree should be chosen from courses in Music History, Music Theory/Composition, Music Education, Music Literature, Music Pedagogy, Music Therapy, Jazz, a secondary applied area, or a non-required ensemble. Courses beyond the degree requirement in the student's major applied area or in the required major ensemble(s) are not appropriate. MUH courses will not be accepted as music electives. School of Music students may count up to two one-hour Physical Education courses toward the general elective requirement.
- ⁹ Students must complete a 1-credit hour module in Term 1 and a 1-credit hour module in Term 2 the same semester that they are registered for MUS 241 Musicianship 3.

- ¹⁰ Students must complete a 1-credit hour module in Term 1 and a 1-credit hour module in Term 2 the same semester that they are registered for MUS 242 Musicianship 4.

Music Therapy (BM)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Music with Emphasis in Music Therapy

Unit: Music (<http://www.louisville.edu/music/>)

Academic Plan Code(s): See Track Requirements tab

Program Information

The music therapy program is designed for students who want to provide therapeutic services to people using music. Students must be strong musicians and find satisfaction in using music to help with non-music areas and skills, rather than as a goal in itself. Students' music skills will expand during their music therapy course work from performing on their principal instrument to also including functional piano, guitar, and voice skills, using other accompanying instruments such as the Q-chord and autoharp, and developing skill in using percussion instruments. The music therapy program requires good intellectual skills as music therapists are required to use analytical skills in determining clinical goals and writing skills in documentation.

Music therapy majors may work with any age group and with people with a variety of disabilities. As a member of a therapeutic team or private practitioner, the music therapist participates in the analysis of individual problems and the establishment of treatment goals before planning

and carrying out music-related treatment. Music therapists may also do administration in various health-related settings and, with advanced degrees, may become university faculty.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Students in this unit are admitted directly into their degree program.

Degree Requirements

The Music Therapy curriculum meets the competency requirements of the American Music Therapy Association (AMTA). Students must complete a minimum of 1200 hours of clinical training which includes at least 180 hours in pre-internship experiences and at least 900 hours in internship experiences. Students completing the Music Therapy curriculum are eligible to take the examination to become a Board Certified Music Therapist, offered by the Certification Board for Music Therapists.

A person who already has a bachelor's degree from an accredited institution and who wishes to become a music therapist may take the courses not already taken that are required for music therapy certification, known as "equivalency" courses since they provide the equivalent of an undergraduate degree. The music therapy equivalency program leads to eligibility to apply to become a Board Certified Music Therapist but does not lead to a degree. Specific course requirements, based on the student's transcript and experiences, are determined in conjunction with the Director of Music Therapy.

Students must demonstrate experience and competence in the use of percussion instruments and in the use of computers and music as appropriate for music therapists.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Musicianship IV or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional General Education/Cardinal Core courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies (including jazz performance, music education and music therapy with tracks in jazz studies, and the BA in jazz studies), music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the *Undergraduate Student Handbook*.

¹ Students are required to take MUH 214 African-American Music - AH (<https://catalog.louisville.edu/undergraduate/general-education-requirements/>), D1 (<https://catalog.louisville.edu/undergraduate/general-education-requirements/>) and MUH 205 Music in World Cultures - SB (<https://catalog.louisville.edu/undergraduate/general-education-requirements/>), D2 (<https://catalog.louisville.edu/undergraduate/general-education-requirements/>). In addition, Music Therapy majors should consider COMM 115 Interpersonal Skills - OC (<https://catalog.louisville.edu/undergraduate/general-education-requirements/>) to satisfy the Oral Communication content.

- ² MUH courses will not be accepted as music electives or cardinal core courses with the exception of ANTH 205/MUH 205 and PAS 214/MUH 214.
- ³ Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141 Theory I. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142 Theory II, must enroll in MUS 92 Musicianship I for the spring semester. Credits for MUS 92 do not count toward the degree.
- ⁴ Strings take Section 01, others solely dependent on the ensemble audition. Jazz Studies track students take six 1-hour courses of Jazz Ensemble plus two 1-hour courses of other Major Ensemble.
- ⁵ If the Applied Principal is piano, Piano Class is replaced with 3 hours of electives.
- ⁶ Students will take the Piano Proficiency Examination at the end of MUS 231. Any student not completing the Piano Proficiency Examination will be required to take MUS 232 until the proficiency exam requirement is complete. Students must be enrolled continuously in Piano Class until their requirement has been completed. Those who pass the Piano Proficiency Examination before the end of the third semester of Piano Class may replace the requirement with electives or with secondary piano if faculty load permits. Entering students who have a background in piano may register for MUS 297 Piano Proficiency for one semester with approval of the Keyboard Area.
- ⁷ The internship is done after all other music therapy course work has been completed. The American Music Therapy Association requires that a student receive a grade of C- or better in all music therapy courses in order to be eligible for the internship. It must be completed within 24 months of completion of music therapy course work. However, the School of Music will not accept work below a C (not a C-minus) in a major subject.
- ⁸ Music Therapy students will require a C (not C-minus) grade in order to pass Supportive Area courses.
- ⁹ Music Therapy degree students may substitute Voice study at the functional level, MUS 133, for MUS 227 Voice Class at the discretion of the voice faculty.
- ¹⁰ MUS 123 Diction is required for all applied voice students.
- ¹¹ Students must complete a 1-credit hour module in Term 1 and a 1-credit hour module in Term 2 the same semester that they are registered for MUS 241 Musicianship III
- ¹² Students must complete a 1-credit hour module in Term 1 and a 1-credit hour module in Term 2 the same semester that they are registered for MUS 242 Musicianship 4.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in

another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

The Bachelor of Music Therapy (BM) program prepares students to meet the requirements for certification and/or licensure. If you plan to pursue professional licensure or certification you should first determine your state's criteria for examination and licensure to see how/if our program meets those requirements prior to enrollment. We recommend that you also contact your state's licensing board directly to verify that the requirements have not changed recently and to answer any questions especially those regarding additional requirements beyond the degree.

More information about certification or licensure is available at the following website: <https://louisville.edu/oapa/licensure-information> (<https://louisville.edu/oapa/licensure-information/>) (you may search by school or by the name of the program then click on 'View Details' to display the information).

For programs with an online option, more information about certification or licensure is available here: <https://louisville.edu/online/About-Us?tab=disclosure> (<https://louisville.edu/online/About-Us/?tab=disclosure>).

Music Vocal Performance (BM)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Music with Emphasis in Vocal Performance

Unit: Music (<http://www.louisville.edu/music/>)

Academic Plan Code(s): MUSIBM_VOC

Program Information

The Bachelor of Music in Vocal Performance degree is appropriate for students who wish to prepare for a career in music performance and related fields. Among the particular career emphases for which the BM in Vocal Performance is an appropriate preparation are professional performer, university teacher, private music studio teacher, or pre-professional preparation for music teacher certification study.

Most graduates will continue to develop their skills through further study. Students who have completed the BM in Vocal Performance at UofL typically do very well in gaining admission to strong graduate programs nationwide.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Musicianship IV or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361 ; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance , with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional General Education/Cardinal Core courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies (including jazz performance, music education and music therapy with tracks in jazz studies, and the BA in jazz studies), music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status

and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the *Undergraduate Student Handbook*.

Neuroscience (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Neuroscience

Unit: College of Arts and Sciences (<http://www.louisville.edu/a-s/>)
 Department: Psychological and Brain Sciences (<http://louisville.edu/psychology/>); Anatomical Sciences and Neurobiology (<https://louisville.edu/medicine/departments/anatomy/>)
 Academic Plan Code(s): NEURBS

Program Information

The Bachelor of Science in Neuroscience (BS in Neuroscience) is an interdisciplinary degree with a STEM+Health focus. The program trains students to critically assess and analyze ideas and concepts from the diverse disciplines that contribute to the field of neuroscience. Students achieve an in-depth understanding of nervous system function, from the molecular level to the cognitive sciences, and become familiar with the techniques used to measure nervous system function from the cellular level to the whole brain.

Graduates of this program are poised for careers in a wide variety of areas, including neuroscience and health-related fields, the social sciences, and the biological sciences. This program also prepares students for advanced-degree study in graduate school and professional degree programs.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Accelerated BS Neuroscience/MS Experimental Psychology

Neuroscience majors who are considering pursuing a master's degree (MS) in Experimental Psychology can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the accelerated BS Neuroscience/MS Experimental Psychology take three graduate courses (9 credit hours) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students must apply to the program by December 1 of their junior year. Applicants must have completed PSYC 201, PSYC 301, PSYC 302, and PSYC 491 prior to application. Applicants must have a minimum overall GPA of 3.0 and maintain a GPA of greater than 2.5 during their enrollment in the BS/MS program.

Admission Requirements

Requirements for admission to the BS in Neuroscience:

- 1. Complete PSYC 201 or (equivalent) and PSYC 305, earning a grade of C or higher.
- 2. Complete Statistics Requirement (PSYC 301 or BIOL 350), earning a grade of C or higher. Completion of MATH 180 or MATH 205 is required for the degree. For admission to the major, students must have completed the necessary math coursework, or have a math placement score, to satisfy the prerequisites to enroll in MATH 180 or MATH 205.
- 3. Have an overall cumulative GPA of at least 2.5 (no grades of C-minus or lower in core or supporting coursework may be counted toward requirements for the major).
- 4. Have completed at least 30 hours of degree-applicable credit.

The Change Major Request form can be found under the Academic Progress tile on ULink.

At least 50 of the total minimum hours required must be at the 300 level or above.

Students who wish to double major in the BS in Neuroscience and the BS in Psychology degrees must complete 18 credit hours toward the Psychology (PSYC) degree that do not count towards meeting the Neuroscience (NS) degree requirements. These 18 credits must include the following courses: PSYC 306, PSYC 307 and PSYC 308. If these courses are taken as electives for the NS degree, additional PSYC courses must be taken in their place. Students must also complete one PSYC CUE course and one NS CUE course. For elective courses that can count toward either degree, the student must specify whether each course will count for NS or for PSYC.

Nursing (RN-BSN Online Program) (BSN)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Nursing
Unit: Nursing (<http://www.louisville.edu/nursing/>)
Academic Plan Code(s): NUR_BSNUDO

This program is for students who are already licensed Registered Nurses.

Program Information

This program is completed entirely online (<http://louisville.edu/online/programs/bachelors/rn-to-bachelor-of-science-in-nursing/>). The RN-BSN requires a Community Health Leadership Practicum (NURS 476) that includes 84 clinical hours, which can be completed in your local community unless restrictions apply. Please note that the Board of Nursing in certain states may restrict access to practicums. These restrictions may change without notice, thus it is important to notify your advisor in advance of any relocation while completing the online RN-BSN program. For a list of states with practicum restrictions, please review the FAQ on the Online Learning site (<https://louisville.edu/online/programs/bachelors/rn-to-bachelor-of-science-in-nursing/rn-to-bachelor-of-science-in-nursing/#faq>), specifically the answer to the "Are there any clinicals for the RN-BSN?" question.

This fully online program provides the flexibility working nurses need to balance working full-time with furthering your nursing education. Develop your expertise in nursing leadership, meet growing employer expectations, and expand your ability to work with diverse global populations in a variety of settings—without any campus requirement or set class times. Eight-week classes and a flexible curriculum path helps nurses maintain a successful work-life-education balance.

RN-BSN students must present official transcripts of coursework completed from all universities and schools attended.

Prospective students interested in a first-degree BSN program should refer to the Pre-Licensure Nursing (p. 465) program. Individuals with a bachelor's degree in another discipline, who are interested in pursuing a nursing degree, may pursue the traditional bachelor of science in nursing degree program or an accelerated second degree option.

Degree Summary

Code	Title	Hours
	General Education Requirements (https://catalog.louisville.edu/undergraduate/general-education-requirements/) ¹	31
Ten (10) hours of General Education requirements may be satisfied through coursework required by the degree program.		

College/School Requirements (pre-professional courses) ¹	30
RN-BSN Core Courses ¹	31
Nursing Portfolio	30
Minimum Total Hours	120

¹ Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

Specific coursework information can be found on the Degree Requirements tab.

Admission Requirements

The RN-BSN 100% online program is offered by the University of Louisville's School of Nursing for registered nurses who have an associate degree in nursing (ADN) or a nursing diploma.

Students may be admitted directly into the RN-BSN program if the admissions requirements are met. Students may be admitted for any term. Most of the curriculum is offered in eight-week terms.

To apply to the program, applicants must:

- Submit a University of Louisville undergraduate admissions application.
- Submit all official college transcripts to the Office of Admissions.

Admissions Requirements:

- Minimum cumulative college grade point average of 2.0 on 4.0 scale in all college work
- Unrestricted Registered Nurse license or eligibility to take the NCLEX
- Certified criminal background check required before clinical course. Details on the School of Nursing website

For more information on program requirements and how to apply, please visit the online programs website (<http://louisville.edu/online/programs/bachelors/rn-to-bachelor-of-science-in-nursing/apply/>).

RN-BSN Concurrent Enrollment Program

Students enrolled in the Associate Degree in Nursing (ADN) program at any Kentucky Community and Technical College (KCTC) or Ivy Tech institution are eligible to apply for the RN-BSN Concurrent Enrollment Program (CEP). KCTC and Ivy Tech students working toward their ADN can earn their RN to Bachelor of Science in Nursing in less time by taking RN-BSN courses at the University of Louisville (UofL), while they are still enrolled at their home KCTCS or Ivy Tech school. Students admitted into the CEP program will attend UofL as a non-degree seeking (continuing studies) student while completing their ADN. Once the ADN degree is conferred, CEP students will be admitted as degree seeking students in the RN-BSN program.

CEP Admission Criteria, by ADN Institution:

KCTCS CEP Admission Criteria

- Current enrollment in good standing at KCTCS School
- Successful completion of first ADN semester at KCTCS School

- No prior failures in a nursing course
- 2.0 cumulative GPA

Ivy Tech CEP Admission Criteria

- Minimum grade of a B in the first Ivy Tech Nursing Course
- Cumulative GPA of 2.3 - 4.0 on a 4.0 scale GPA. Students with a 2.2 - 2.29 cumulative GPA will be considered on an individual basis.

Program Information

The Traditional Bachelor of Science in Nursing program is a four-year program that consists of lower division and upper division course work that prepares students for a career in professional nursing by providing a dynamic course of study that is both theoretical and practical. As citizens of a larger community, our focus is to address the complex health care needs of diverse and dynamic populations through nursing education, research, scholarship and service. Our graduates are prepared to demonstrate excellence in nursing science, practice, and leadership in a variety of settings for the benefit of clients across the lifespan and to meet the evolving health care needs of society. Our BSN program also provides the necessary foundation for master's and doctoral degrees in nursing.

Students will use innovative Patient Simulation Centers and conduct clinical in acute care and community-based settings.

By including a core of knowledge in the humanities and the behavioral, physical, and biological sciences, as well as theory and practice of professional nursing, graduates of the BSN program will be prepared to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

² NURS 101 is only required for new students with less than 24 earned college credits.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements New Students and Transfer Students

Students are admitted directly into the Lower Division of the Nursing Program.

Please refer to the catalog pages containing the admissions details for the School of Nursing (p. 32).

Current Students

Students who have completed a minimum of 12 credit hours at the University of Louisville with a minimum college grade point average of 2.8 may apply to the School of Nursing. They must complete an online change of major form that can be found in ULink. Students admitted through this process must be advised before registering for courses in their first semester in the nursing program.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Professional Licensure Information

The Bachelor of Science in Nursing programs (Louisville or Owensboro) are broken into distinct academic plan codes for lower and upper division requirements. Incoming students complete the lower division preparatory coursework requirements and then apply for competitive admission to the Nursing upper division program. Completion of the lower division program does not guarantee admission to the upper division program.

The lower division program does not prepare students for licensure as a nurse. The upper division program is considered a licensure program designed to meet educational requirements for licensure as a nurse. Upon acceptance, enrollment in the upper division program's academic plan code is considered the first term of enrollment in the licensure program under the Program Participation Agreement for Title IV federal

financial aid eligible programs of the Higher Education Act (CFR § 668.14 (b)(32)).

Graduates from the UofL School of Nursing are prepared to apply for RN licensure upon graduation; however, educational preparation does not guarantee professional licensure. If you have questions regarding Kentucky RN licensure, please contact the Kentucky Board of Nursing (kbn.ky.gov/Pages/lpn-rn.aspx) (<https://kbn.ky.gov/Pages/lpn-rn.aspx>). For RN licensure questions in other states, please contact the respective state board of nursing (ncsbn.org/contact-bon.htm) (<https://ncsbn.org/contact-bon.htm>)).

More information about certification or licensure is available at the following website: <https://louisville.edu/oapa/licensure-information/> (<https://louisville.edu/oapa/licensure-information/>) (you may search by school or by the name of the program then click on 'View Details' to display the information).

Nursing, Accelerated Program (BSN)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Nursing, Accelerated Program

Unit: Nursing (<http://www.louisville.edu/nursing/>)

Academic Plan Code(s): NURABSN, NURABSNUD, NURABSNOB, NURABSNUDW

Program Information

The Accelerated Second Degree Bachelor of Science in Nursing program is a hybrid accelerated program that prepares students with a bachelor's degree in any area outside of nursing to become entry-level professional nurses. This program has two locations: Louisville, Kentucky and Owensboro, Kentucky. Hybrid programs are a combination of online and in person instruction. Course lectures will be offered online. Clinical and lab experiences will be completed in person at the location in which you are admitted.

This program consists of four semesters of program major requirements after the successful completion of all the professional/prerequisite course work. Our BSN program also provides the necessary content to prepare for masters and doctoral degrees in nursing. Graduates of the BSN program will be prepared to take the National Council Examination for Registered Nurses (NCLEX-RN).

Students will use innovative Patient Simulation Centers and conduct clinical in acute care and community-based settings.

Specific coursework information can be found on the Degree Requirements tab. Note: Students that complete the Accelerated BSN program will complete 8 hours of graduate level coursework during their program. Following graduation, students may apply to the UofL MSN program and are eligible to apply these 8 graduate credit hours towards their MSN core requirements.

Departmental Admission Requirements

Admission to Lower Division Accelerated Bachelor of Science in Nursing (Professional/Prerequisite Coursework)

- Students wanting to complete prerequisite coursework at the university apply to the lower division portion of the program by submitting an application for admission to the Office of Undergraduate Admissions (<https://louisville.edu/admissions/>) along with college transcripts from all previously attended colleges.
- To be admitted the School of Nursing to complete professional/prerequisite coursework, Accelerated Bachelor of Science in Nursing applicants must have a minimum college cumulative grade point average of 2.4.

Students may be admitted directly to the School of Nursing to complete professional/prerequisite coursework if the minimum admission standards and university deadlines are met. All prerequisite coursework must be completed prior to starting the Program/Major portion of the program. A minimum grade of C is required in all prerequisite science coursework.

Science courses must have been completed within the last 10 years. Students must submit an exemption request to the School of Nursing, Office of Student Services for review for acceptance of sciences taken prior to the last 10 years. Consideration will only be given to those with experience in the science in which exception is being requested. Transfer credit for science courses taken prior to the last 10 years will be evaluated on an individual basis. There can be no outstanding incomplete grades prior to beginning upper division nursing coursework.

Admission to the Lower Division does not guarantee admission to the Program/Major portion of the program.

Admission to the Accelerated Bachelor of Science Nursing Degree Program/Major

Admission to the Accelerated BSN Program is selective. To be considered for admission, applicants must:

- have earned a bachelor's degree in another field from a regionally accredited school
- successfully complete all prerequisite requirements prior to beginning the Accelerated BSN coursework
- have earned a *recommended* minimum cumulative undergraduate grade point average of 2.8. The cumulative grade point average for admission consideration to the Program/Major of nursing is calculated based on all course work completed at accredited post-secondary institutions. Transfer credit and transfer GPA is determined by the Office of Transfer Articulation in the Office of Undergraduate Admissions.
- have earned a *recommended* program grade point average of 3.0. The program grade point average is based on required prerequisites as determined by the nursing faculty

Admissions are contingent on successful completion of the prerequisite coursework. Accepted students will receive a letter of agreement stating

the anticipated start date, the conditions for accepting the space, and consequences of failing to meet admission conditions.

Admissions Process for Program Major

Submit all admissions materials to NursingCAS (<https://nursingcas2022.liaisoncas.com/applicant-ux/#/login>)

- Official transcripts representing all college coursework.
- Applicants who have attended a college or university outside the United States are required to submit an evaluation of their transcript through World Education Services (<https://www.wes.org/>) (WES) or Educational Credential Evaluators (<https://www.ece.org/>) (ECE).
- Within the Nursing CAS application applicant must be prepared to answer questions regarding your short- and long-term nursing goals, leadership experience, community engagement, and healthcare experience/exposure. For details and guidance regarding the questions visit the School of Nursing (<https://louisville.edu/nursing/academics/bsn/accelerated/admissions/>) webpage.
- Students for whom English is not their primary language must show English Proficiency (<https://louisville.edu/graduate/futurestudents/application-directions/>)
- Submit a certified criminal background check. Details on the School of Nursing website.

NOTE: An unsatisfactory background check may prevent a student from being admitted into the program and/or licensed as a registered nurse. Questions regarding licensing should be addressed with the Kentucky Board of Nursing.

A holistic review process is used when considering applications for admissions. The holistic review considers multiple criteria for admissions, such as: the applicant's professional career goals, academic capabilities, and grade point averages.

General Education Requirements

The Accelerated Second Degree Bachelor of Science in Nursing requires the completion of the Professional Curriculum/Prerequisite courses in addition to the Program/Major Requirements. Professional/Prerequisite Curriculum classes may be transferred in from the student's previously earned degree if the course(s) are determined equivalent to the courses listed below. General Education requirements are met by the satisfactory completion of a bachelor's degree from a regionally accredited university prior to admissions into the program.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.

- a. To run a Degree Audit report, click on "View my Degree Audit."
- b. To create a What-if report, click on "Create a What-if Advisement Report."
- c. To run a Flight Planner report, click on "Use My Flight Planner."

Professional Licensure Information

The Bachelor of Science in Nursing programs (Louisville or Owensboro) are broken into distinct academic plan codes for lower and upper division requirements. Incoming students complete the lower division preparatory coursework requirements and then apply for competitive admission to the Nursing upper division program. Completion of the lower division program does not guarantee admission to the upper division program.

The lower division program does not prepare students for licensure as a nurse. The upper division program is considered a licensure program designed to meet educational requirements for licensure as a nurse. Upon acceptance, enrollment in the upper division program's academic plan code is considered the first term of enrollment in the licensure program under the Program Participation Agreement for Title IV federal financial aid eligible programs of the Higher Education Act (CFR § 668.14 (b)(32)).

Graduates from the UofL School of Nursing are prepared to apply for RN licensure upon graduation; however, educational preparation does not guarantee professional licensure. If you have questions regarding Kentucky RN licensure, please contact the Kentucky Board of Nursing (kbn.ky.gov/Pages/lpn-rn.aspx) (<https://kbn.ky.gov/Pages/lpn-rn.aspx>). For RN licensure questions in other states, please contact the respective state board of nursing (ncsbn.org/contact-bon.htm) (<https://ncsbn.org/contact-bon.htm>).

More information about certification or licensure is available at the following website: <https://louisville.edu/oapa/licensure-information> (<https://louisville.edu/oapa/licensure-information/>) (you may search by school or by the name of the program then click on 'View Details' to display the information).

Organizational Leadership and Learning (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Organizational Leadership and Learning

Unit: College of Education and Human Development (<http://louisville.edu/education/>)
Department: Educational Leadership, Evaluation and Organizational Development (<http://louisville.edu/education/departments/eleod/>)
Academic Plan Code(s): See Track Requirements tab.

Program Information

Beginning Fall 2024, this program can only be completed entirely online (<http://louisville.edu/online/programs/bachelors/bachelor-of-science-in-organizational-leadership-and-learning/>). The Competency-Based Education Flex option is closed to admission.

The Bachelor of Science in Organizational Leadership and Learning (OLL), formerly Workforce Leadership, is designed for working professionals who have extensive and documented work experience. It is a great option for adults seeking an extra edge in today's job market. If you are ready to finish your degree, we can help do it while you enhance your skills in leading people and organizations or plan for a new career.

This program offers academic flexibility; all program/major courses required for completion are routinely offered in accelerated format (e.g., during 3-week or 8-week terms). However, some options for general education (Cardinal Core) courses and/or Culminating Undergraduate Experience (CUE) courses may not be available in an accelerated format.

This program offers academic flexibility; all major specific courses required for completion are routinely offered online. Subject to demand, in-person courses are also offered, and are held outside of regular business hours (e.g., after 5pm on weekdays).

UofL also offers a BS in Organizational Leadership and Learning in Healthcare Leadership (p. 473) program.

Bachelor of Science in Organizational Leadership and Learning, track in Healthcare Leadership

Unit: College of Education and Human Development (<http://louisville.edu/education/>)

Department: Educational Leadership, Evaluation and Organizational Development (<http://louisville.edu/education/departments/eleod/>)
Academic Plan Code(s): WFL_BS_HLO

Program Information

Beginning Fall 2024, this program can only be completed entirely online (<http://louisville.edu/online/programs/bachelors/bachelor-of-science-in-organizational-leadership-and-learning/>). The Competency-Based Education Flex option is closed to admission.

This program offers academic flexibility; all program/major courses required for completion are routinely offered in accelerated format (e.g. 8-week terms). However, some options for general education (Cardinal Core) or Supplemental Math or College Reading courses may not be available in an accelerated format.

The Bachelor of Science in Organizational Leadership and Learning with a focus on Healthcare Leadership allows healthcare professionals to capitalize on existing knowledge and experience, and earn a bachelor's degree that can further enhance your skills in leadership, organizational change, workplace development and performance and attain higher-level positions in your organization.

UofL's Healthcare Leadership program is the first of its kind in the state and region, with a curriculum based on the National Center for Healthcare Leadership's (NCHL.org) competency model, which is one of the leading industry standard models for healthcare executive competencies development.

This program is essential for individuals who have acquired experience in the healthcare field, but are missing the proper credentials for promotions within their organization, increased pay, or management and leadership roles.

Specific coursework information can be found on the Degree Requirements tab.

The program is offered in a Term Option. Students enroll in half-term courses and complete each course within a predetermined time frame. This option allows students to follow a more structured and traditional university schedule while taking advantage of accelerated sessions. Two half-term sessions will be available in Fall and Spring and one session will be available in the Summer.

Students may start the program at the beginning of the Fall and Spring terms, at the beginning of the second half of the Fall or Spring terms, or in the summer semester. This allows students to start the program several times per year, and enroll in half-term session courses. All coursework must be completed within the half-term period. Tuition and fees in Term Option enrollments may be refunded in accordance with normal university policies.

Departmental Admission Requirements

Applicants to the BS in Organizational Leadership and Learning with a track in Healthcare Leadership must have a 2.25 cumulative GPA in college level courses and at least 2,000 hours (approximately one year) of healthcare experience across a wide variety of organizational settings.

Additionally, applicants are recommended to have at least 24 hours of transferable credit.

Applicants who have a cumulative GPA below 2.25 or less than 2,000 hours of healthcare experience, may be considered for conditional admission.

Bachelor of Arts in Pan-African Studies
Unit: College of Arts and Sciences (<http://www.louisville.edu/a-s/>)
Department: Pan-African Studies (<http://louisville.edu/panafricanstudies/>)
Academic Plan Code(s): PAS_BA

Program Information

The Department of Pan-African Studies (PAS) has developed a Bachelor of Arts and a Bachelor of Science degree. This provides an opportunity for structured undergraduate study in the multi-disciplinary field of Pan-African Studies. Students also have the choice of earning a minor in Pan-African Studies as well.

PAS majors have career options quite similar to those of students with baccalaureate degrees in the humanities and social sciences and a PAS minor often enhances the employability of students who major in other fields.

Increasingly, PAS majors are also finding career opportunities specific to the discipline itself. Such opportunities are most common in social, cultural and educational agencies/organizations, and in business and international affairs initiatives that concern people of color. Other PAS graduates choose to pursue graduate degrees.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Pan-African Studies (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Pan-African Studies

Unit: College of Arts and Sciences (<http://www.louisville.edu/a-s/>)
Department: Pan-African Studies (<http://louisville.edu/panafricanstudies/>)

Academic Plan Code(s): PAS_BS

Program Information

The Department of Pan-African Studies (PAS) has developed a Bachelor of Arts and a Bachelor of Science degree. This provides an opportunity for structured undergraduate study in the multi-disciplinary field of Pan-African Studies. Students also have the choice of earning a minor in Pan-African Studies as well.

PAS majors have career options quite similar to those of students with baccalaureate degrees in the humanities and social sciences and a PAS minor often enhances the employability of students who major in other fields.

Increasingly, PAS majors are also finding career opportunities specific to the discipline itself. Such opportunities are most common in social, cultural and educational agencies/organizations, and in business and international affairs initiatives that concern people of color. Other PAS graduates choose to pursue graduate degrees.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Philosophy (BA)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Philosophy

Unit: College of Arts and Sciences (<http://www.louisville.edu/a-s/>)
Department: Philosophy (<http://louisville.edu/philosophy/>)
Academic Plan Code(s): See Track Requirements tab.

Program Information

Philosophy enables students at all levels to think deeply and critically about some of the most fundamental questions of human life. The department's courses engage with the works of great thinkers in the traditions of Europe, the Americas, Africa, and Asia. With a particular strength in interdisciplinary study, Philosophy at the University of Louisville is a keystone that unifies a broad undergraduate education and prepares graduates for a changing world ahead. Philosophy also houses the minor in Philosophy, Politics, and Economics (PPE) and the Ethics Certificate, as well as the graduate MA in Applied Philosophy and graduate certificates in Health Care Ethics and Diversity Literacy. The Department's faculty has achieved exceptional research productivity and prides itself on outstandingly high student evaluations.

Completion of the Philosophy degree prepares students with skills of careful reading, clear analytic and persuasive writing, and amicable disagreement.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA Philosophy/MA in Applied Philosophy

The Philosophy Department offers an accelerated degree program for the BA in Philosophy and MA in Applied Philosophy. Students can apply up to 9 hours of credit taken toward the BA (provided the relevant 600-level course requirements are completed) towards the MA degree. The BA/MA will be available to students in any track within the Philosophy BA.

Students must apply no later than the end of their junior year for admission to the accelerated program. A minimum overall GPA and major grade point average of 3.35 will be required for admission to and retention in the program. Students must complete the Graduate School application.

Departmental Admission Requirements

There are no specific admission requirements for this degree plan.

The Change Major Request form can be found under the Academic Progress tile on ULink.

¹ Students who fulfill other requirements with 500-level PHIL courses may be able to complete General electives 8 and/or 9 as an open elective at any level.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

- 1. Log into your ULink account.
- 2. Click on the Academic Progress tile.
- 3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and

placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Physics (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Physics

Unit: College of Arts and Sciences (AS) (<https://louisville.edu/artsandsciences/home/>)

Department: Physics and Astronomy (<https://louisville.edu/physics/>)

Academic Plan Code(s): See Track Requirements tab.

Program Information

The Bachelor of Science (BS) degree is intended as preparation for entry into graduate programs in Physics and other scientific or engineering fields. It also provides suitable training for entering the workforce in a technical position.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Degree Summary

Code	Title	Hours
	General Education Requirements (https://catalog.louisville.edu/undergraduate/general-education-requirements/) ¹	31
	College/School Requirements	13-15
	Program/Major Requirements ¹	44-45

Supporting Courses	30-33
Track Requirements	9-10
Minimum Total Hours	121

¹ Twelve credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BS/MS (Master of Science) in Physics

Physics majors who are considering pursuing a master's degree (MS) in Physics can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the Accelerated BS/MS take three graduate courses (9 credit hours) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students must apply for admission to the program in the first semester of the senior year (i.e., after completing 90 hours). Applicants must have completed at least 21 credit hours in Physics before applying to the program with at least a 3.0 GPA in Physics courses and a 3.35 university GPA. Students must also maintain a 3.0 GPA after they are admitted to the BS/MS program.

Departmental Admission Requirements

There are no specific admission requirements for this degree plan.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Accelerated BS/MS (Master of Science) in Physics Program

Applicants apply for admission to the five-year accelerated program in the first semester of the senior year and must meet the following criteria:

- The applicant will have completed at least 21 credit hours in Physics before applying to the program.
- The applicant will have maintained at least a 3.0 GPA in Physics courses and a 3.35 GPA overall.

All applicants must submit an application along with GRE General test score consistent with MS in Physics program (<https://catalog.louisville.edu/graduate/programs-study/master-science-physics/>) guidelines.

General Education Requirements

Code	Title	Hours
	General Education Requirements (https://catalog.louisville.edu/undergraduate/general-education-requirements/) ¹	31

The following courses are required by the program and should be taken to fulfill the respective General Education Requirement:

CHEM 201	General Chemistry I - S (https://catalog.louisville.edu/undergraduate/general-education-requirements/)
----------	---

PHYS 298	Introductory Mechanics, Heat and Sound - S (https://catalog.louisville.edu/undergraduate/general-education-requirements/)

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Political Science (BA)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Political Science

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
Department: Political Science (<http://louisville.edu/politicalscience/>)
Academic Plan Code(s): See Track Requirements tab.

Program Information

This program can be completed in a traditional classroom format or entirely online (<https://louisville.edu/online/programs/bachelors/online-bachelor-of-arts-in-political-science/>).

Bachelor of Arts in Political Science program at UofL cultivates an understanding of policy, politics and governments in the United States and around the globe. We offer a wide range of courses including campaigns and elections, the Presidency and Congress, social movements and civil rights, terrorism and war, constitutional law, environmental policy, religious politics, urban politics and poverty, and international politics. The department is a particularly inviting environment for students, with small class sizes, our own building, a computer lab, and options to specialize via several tracks in our major.

Political Science majors at the University of Louisville have been extremely successful in earning prestigious scholarships and fellowships. The roster of recent successes includes numerous Fulbright Award winners and multiple Truman Scholars. Since 2010, three of our students have won the annual Mary Churchill Humphrey scholarship, often described as UofL's Rhodes Scholarship because it supports graduate study in Great Britain. Many of our majors go on to have successful careers in government, international affairs, nongovernmental organizations, business, academia, and media.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

- ¹ Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree.
- ² Political Science offers three BA options (two tracks and one non-track). For all three options, including the non-track, please refer to the Track Requirements tab.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA-BS/MA in Political Science

Political Science majors who are considering pursuing a master's degree (MA) in Political Science can speed up the process by applying some of their undergraduate credit hours toward a master's degree.

Students accepted into the Accelerated BA-BS/MA take 9-12 credit hours (depending on the graduate option selected) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students must apply for admission to the program in the first semester of the senior year (i.e., after completing 90 hours). Applicants must meet the general requirements for admission to the Graduate School and must submit an application to the Department of Political Science. Applicants should have an undergraduate major or minor in social science or have sufficient alternative preparation in the social sciences.

Departmental Admission Requirements

There are no specific admission requirements for this degree plan.

The Change Major Request form can be found under the Academic Progress tile on ULink.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Political Science with a 3+3 Track to Law (BA)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Political Science with a 3+3 Track to Law
Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
Department: Political Science (<http://louisville.edu/politicalscience/>)
Academic Plan Code(s): POLS BA 3+3

Program Information

The College of Arts & Sciences and the Louis D. Brandeis School of Law have joined forces to create 3+3 Accelerated Law programs that allow eligible students in the College of Arts & Sciences to begin law school in their senior year of undergraduate study. Students substitute undergraduate major and elective requirements with the first 30 hours of law school, earning an undergraduate degree after their first year of law school and a Juris Doctor (JD) degree two years later. Students must have completed three years (6 semesters, fall & spring) of undergraduate course work post high school graduation, including transfer credit, prior to enrollment at Brandeis.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Degree Summary

Code	Title	Hours
General Education Requirements (https://catalog.louisville.edu/undergraduate/general-education-requirements/) ¹		31
College/School Requirements		22
Program/Major Requirements ¹		59
Law School Courses		30
Minimum Total Hours		142

Departmental Admission Requirements

There are no specific admission requirements for this degree plan.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Admission to Law School

Admission to the 3+3 track does not guarantee admission to the law school. Students seeking admission to law school must complete a law school application and satisfy all of Brandeis' admissions requirements, including its median GPA and LSAT expectations.

The law school requires that students seeking admission through the 3+3 program have completed three years of undergraduate course work, including transfer credit and credit earned in summer. It is recommended that students planning to pursue this track have a minimum cumulative GPA of 3.5.

For more information on Brandeis and its admissions requirements, please contact the Brandeis School of Law Office of Admissions (<http://louisville.edu/law/admissions/>). The office can also arrange for you to visit the law school and to sit in on a class.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Political Science (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Political Science

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
Department: Political Science (<http://louisville.edu/politicalscience/>)
Academic Plan Code(s): POLSBS_LP

Program Information

Bachelor of Science in Political Science program at UofL cultivates an understanding of policy, politics and governments in the United States and around the globe. We offer a wide range of courses including campaigns and elections, the Presidency and Congress, social movements and civil rights, terrorism and war, constitutional law, environmental policy, religious politics, urban politics and poverty, and international politics. The department is a particularly inviting environment for students, with small class sizes, our own building, a computer lab, and options to specialize via several tracks in our major.

Political Science majors at the University of Louisville have been extremely successful in earning prestigious scholarships and fellowships.

The roster of recent successes includes numerous Fulbright Award winners and multiple Truman Scholars. Since 2010, three of our students have won the annual Mary Churchill Humphrey scholarship, often described as UofL's Rhodes Scholarship because it supports graduate study in Great Britain. Many of our majors go on to have successful careers in government, international affairs, nongovernmental organizations, business, academia, and media.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Accelerated BA-BS/MA in Political Science

Political Science majors who are considering pursuing a master's degree (MA) in Political Science can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the Accelerated BA-BS/MA take 9-12 credit hours (depending on the graduate option selected) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students must apply for admission to the program in the first semester of the senior year (i.e., after completing 90 hours). Applicants must meet the general requirements for admission to the Graduate School and must submit an application to the Department of Political Science. Applicants should have an undergraduate major or minor in social science or have sufficient alternative preparation in the social sciences.

Departmental Admission Requirements

There are no specific admission requirements for this degree plan.

The Change Major Request Form can be found under the Academic Progress tile on ULink.

Psychology (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Psychology

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
Department: Psychological and Brain Sciences (<http://louisville.edu/psychology/>)
Academic Plan Code(s): PSYCBS, PSYCBS_0

Program Information

The Bachelor of Science in Psychology prepares students for most bachelor's-level careers as well as graduate school in psychology, training in health or science fields (including medical school), and careers in other professional domains. Students develop the critical thinking and communication skills necessary to gather, interpret, and present data. Psychology students can become intelligent consumers of information and active investigators of the fields of cognition, behavior, and brain science and understand how each facet of psychology impacts everyday decision-making. Students can also choose to complete some of the required course work for a pre-med curriculum by taking supporting classes in natural sciences.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

¹ Students earning the BS in Psychology will satisfy at least 10 hours of General Education Requirements by courses defined by the program. Students who take MATH 205 and also apply it to satisfy the Quantitative Reasoning requirement will satisfy 14 hours. In either case, students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

² Four (4) courses from any other social science or natural science department, or from Communicative Disorders (CMDs). Social science courses must be at the 300+ level and natural science courses must be at the 200+ level.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BS Psychology/MS Experimental Psychology

Psychology majors who are considering pursuing a master's degree (MS) in Experimental Psychology can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the accelerated BS/MS take three graduate courses (9 credit hours) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students must apply to the program by December 1 of their Junior year. Applicants must have completed PSYC 201, PSYC 301, PSYC 302*, and PSYC 491 prior to application. Applicants must have a minimum overall GPA of 3.0 and a 'C' grade or better in courses required for their BS. Students must maintain a GPA of greater than 2.5 during their enrollment in the BS/MS program. Students must enter the BS/MS program with no more than 24 hours remaining to complete their BS degree, and they must enter the program with 9 hours of elective credit remaining in their BS degree.

* Students may be currently enrolled in PSYC 302 when applying to the BS/MS program.

Departmental Admission Requirements

Admission to the major in Psychology requires:²

1. Completion of PSYC 201 with a minimum grade of C;¹
2. Completion of General Education QR course with a minimum grade of C;^{1,2}
3. Completion of PSYC 301 with a minimum grade of C;¹
4. Completion of PSYC 302 with a minimum grade of C;¹
5. Completion of 30 hours of degree-applicable credit with a minimum grade point average of 2.0; and
6. A minimum grade point average of 2.0 in Psychology.

The Change Major Request form can be found under the Academic Progress tile on ULink.

¹ Grades of C- are not accepted.
² PSYC 205 does not count towards credit hours required for the Psychology major.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner

and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Public Health (BA)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Public Health

Unit: Public Health and Information Sciences (<http://louisville.edu/sphis/>)

Academic Plan Code: PH_ _BA, PH_ _BA_SHE

Program Information

The School of Public Health and Information Sciences (SPHIS) offers two undergraduate degree options: Bachelor of Science in Public Health for students focused on public health practice and Bachelor of Arts in Public Health for liberal studies.

A degree in public health provides students with the skills they need to improve the health of populations and communities, as well as alleviate suffering caused by disease, injuries and health disparities. Public Health majors learn how to inquire, challenge and explore options that promote the health and well-being of the community.

A BA in Public Health prepares students for positions in specific sectors of public health, health services, and public policy, with career opportunities in health education, health care administration, health research, environmental health, and more. Examples of job settings could include colleges and universities, federal and state health agencies, and community and international organizations. Both degrees prepare students for advanced degrees in public health, law, and clinical health professions (i.e., PA, PT, Nursing, Pharmacy, Medicine, and Dentistry).

Degree Summary

Code	Title	Hours

	College/School Requirements ¹	6-8
	Program/Major Requirements ¹	44
	Supporting Courses	37-39
	Minimum Total Hours	120

¹ Some credit hours from the General Education Requirements may be satisfied by courses defined by the school, in which case additional

electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Students are admitted to the School of Public Health and Information Sciences on either a degree seeking or non-degree seeking basis. High school visitors, visiting students from other institutions, auditors, post baccalaureate students, and continuing studies students are considered non-degree seeking. All other students are considered degree seeking. Applicants will be notified by the University's Office of Admissions of their status and of the conditions of their enrollment at the time they are accepted. Students planning to earn degrees from the School of Public Health and Information Sciences must be degree-seeking in order for the credits they have earned to apply toward their degrees. Students remain in a degree-seeking status until they graduate, transfer to another college or university, or are suspended/dismissed.

All newly admitted students are required to meet with SPHIS Undergraduate Advising prior to enrolling in classes. Admission is granted to students meeting the following requirements:

Entering First-Year Students and Transfer Students with Fewer than 24 Credit Hours

- Good Standing

1. Must meet minimum university admissions requirements
2. One of the following:
 - a. Graduation from accredited high school
 - b. Successful completion of General Education Development (GED) tests
3. High school GPA of 2.5 or higher
4. ACT/SAT score of 20/1030 or higher (optional)
5. College GPA of 2.0 (if applicable)

- Conditional Admission

Students who meet University minimum academic standards may be conditionally admitted (see **Undergraduate Catalog, Admission to the University of Louisville** (<https://catalog.louisville.edu/undergraduate/admission/>)).

Transfer student with 24 credit hours or more

- Good Standing

Must meet minimum university admissions requirements, including a 2.0 Cumulative college GPA (includes UofL GPA).

- Conditional Admission

Petition approved by Public Health Appeals Committee.

Accelerated BA-MPH in Public Health Admissions Process

Pre-Enrollment

Undergraduates who will have earned a minimum of 75 credit hours and an undergraduate cumulative GPA of 3.25 may pursue the accelerated degree program option. Eligible students who complete the following by February 1st of the student's sixth undergraduate semester can receive

permission to enroll in MPH graduate level courses from the director of the MPH program:

- Submit an online program-petition (<http://louisville.edu/sphis/current-students/accelerated-mph-program-petition-form/>)
- Submit resume
- Submit a letter of recommendation, preferably from a UofL faculty member, that speaks to their academic abilities, to the SPHIS Academic Coordinator at ugsphis@louisville.edu (ugsphis@louisville.edu?subject=Accelerated%20LOR).

Pre-Admission & Concentration Declaration

Students granted permission to enroll in graduate-level courses will need to declare a concentration for the Master of Public Health graduate degree by November 15 of the student's seventh undergraduate semester. The concentration options for an accelerated student are Epidemiology, Health Promotion and Behavioral Sciences, and Health Policy. Students applying to the epidemiology concentration will be required to have a strong quantitative background. ACT score, math placement score, and MATH 111 or higher course will be considered. A representative from the desired concentration will schedule an interview with the student to determine provisional admission and approval of concentration declaration for the students accelerated program.

Provisional Admission

Once approved to declare a concentration, the student is now provisionally admitted to the MPH accelerated program and must complete the following steps no later than the final year of their undergraduate studies to formally apply to the MPH program:

- Submit a complete UofL Graduate School Application (<https://louisville.edu/graduate/futurestudents/apply-materials/application/>) no later than March 1st and apply for the Summer term unless the student is pursuing the Health Promotion & Behavioral Sciences concentration, in which case that student should apply for the Fall term.
 - Accelerated MPH students DO NOT submit a SOPHAS Application
- Submit two letters of recommendation written within the last twelve months (at least one must be a SPHIS faculty member).
- Overall GPA for the undergraduate degree (including the core courses) must be a minimum of 3.0, and students must have made a grade of B or better in each of the following MPH core courses:
 - PHST 500 Introduction to Biostatistics for Health Sciences I
 - PHPB 501 Introduction to Public Health Behavior
 - PHEP 501 Introduction to Epidemiology
 - PHMS 501 Introduction to Public Health Practice and Administration
 - PHST 501 Introduction to Biostatistics for Health Sciences II (if applicable to concentration)
- One-page personal statement written by the applicant that is a clear, substantive description of their goals in public health.
- Resume/CV
- There is no GRE requirement.

Upon receipt of MPH admissions materials students will remain provisionally admitted to the MPH program until successful completion of their undergraduate degree. Following the receipt of their undergraduate degree, their admission status will be updated accordingly.

Accelerated BA-MPH for non-Public Health majors Admissions Process

Pre-Enrollment

Undergraduates who will have earned a minimum of 75 credit hours and an undergraduate cumulative GPA of 3.25 may pursue the accelerated degree program option. Students must also have completed Cardinal Core math and English requirements before submission of online program petition. Eligible students who complete the following by February 1st of the student's sixth undergraduate semester can receive permission to enroll in MPH graduate level courses from the director of the MPH program:

- Submit an online program-petition (<http://louisville.edu/sphis/current-students/accelerated-mph-program-petition-form/>)
- Submit resume
- Submit a letter of recommendation, preferably from a UofL faculty member, that speaks to their academic abilities, to the SPHIS Academic Coordinator at ugsphis@louisville.edu (ugsphis@louisville.edu?subject=Accelerated%20LOR).
- Submit a letter from their academic advisor supporting this option and include their academic plan and how the MPH courses fit into the plan and they will stay on track to graduate: ugsphis@louisville.edu (ugsphis@louisville.edu?subject=Accelerated%20LOR)
- Students may be interviewed by the MPH program director following the submission of their petition and notified of petition acceptance no later than the end of the student's sixth semester.

Academic Advising

- Upon notification of petition acceptance, the undergraduate advisor will work directly with the student's academic advisor and student to review MPH core course sequencing and the scheduling to verify degree completion.
- General accelerated students will also be assigned a public health academic advisor for the undergraduate accelerated MPH portion of their degree.

Pre-Admission & Concentration Declaration

Students granted permission to enroll in graduate-level courses will need to declare a concentration for the Master of Public Health graduate degree by November 15 of the student's seventh undergraduate semester. The concentration options for an accelerated student are Epidemiology, Health Policy, and Health Promotion and Behavioral Sciences. Students applying to the epidemiology concentration will be required to have a strong quantitative background. ACT score, math placement score, and MATH 111 or higher course will be considered. A representative from the desired concentration will schedule an interview with the student to determine provisional admission and approval of concentration declaration for the students accelerated program.

Provisional Admission

Once approved to declare a concentration, the student is now provisionally admitted to the MPH accelerated program and must complete the following steps no later than the final year of their undergraduate studies to formally apply to the MPH program:

- Submit a complete UofL Graduate School Application (<https://louisville.edu/graduate/futurestudents/apply-materials/application/>) no later than March 1st and apply for the Summer term

unless the student is pursuing the Health Promotion & Behavioral Sciences concentration, in which case that student should apply for the Fall term.

- **Accelerated MPH students DO NOT submit a SOPHAS Application**
- Pay the Graduate School Application fee
- Submit two letters of recommendation written within the last 12 months (at least one must be a SPHIS faculty member)
- Include a one-page personal statement with clear, substantive description of goals in public health.
- Resume/CV
- Maintain a minimum graduate program GPA of 3.0
- Receive a grade of "B" or higher in the following MPH core courses:
 - PHST 500 Introduction to Biostatistics for Health Sciences I
 - PHPB 501 Introduction to Public Health Behavior
 - PHEP 501 Introduction to Epidemiology
 - PHMS 501 Introduction to Public Health Practice and Administration
 - PHST 501 Introduction to Biostatistics for Health Sciences II (if applicable to concentration)
- There is **NO GRE** requirement.

Upon receipt of MPH admissions materials students may be provisionally admitted to the MPH program based on receipt of their undergraduate degree. Following the receipt of their undergraduate degree, their admission status will be updated accordingly.

Accelerated BA-MPH in Public Health

Academic Plan Code(s):

- Concentration in Epidemiology: PHBAMPHEPA
- Concentration in Health Policy: PHBAMPHPA
- Concentration in Health Promotion and Behavioral Sciences: PHBAMPHHKA

The accelerated degree program allows a student to complete the Bachelor of Arts in Public Health (BA) and the Master of Public

Health (MPH) over a five year period. The first four years consist of undergraduate studies, including up to 15 credit hours of public health graduate level courses taken during the senior year, culminating in the award of the Bachelors of Arts in Public Health degree.

The fifth year, including the summer following graduation with a bachelor's degree, consists of graduate coursework in public health, leading to completion of the Master of Public Health (MPH) degree. The Master of Public Health (MPH) degree program is designed to provide students with training in foundational MPH competencies as well as a specific area of concentration. MPH concentrations currently available for the accelerated program are:

- Epidemiology
- Health Policy
- Health Promotion and Behavior

MPH graduates are prepared for positions in the public health work force, health-related industries, academic organizations, or for further professional or academic education.

The accelerated curriculum allows students to take a maximum of 15 credit hours of the Master of Public Health course work during their undergraduate studies. The 15 graduate credits will count towards the completion of both the BA and MPH degrees and will substitute for required undergraduate courses as follows:

Fall Curriculum, all concentrations:

- Undergraduate course: PHST 301 (<https://catalog.louisville.edu/search/?P=PHST%20301>) Quantitative Methods in Public Health
MPH replacement course: PHST 500 (<https://catalog.louisville.edu/search/?P=PHST%20500>) Introduction to Biostatistics for Health Sciences I
- Undergraduate course: PHPB 300 (<https://catalog.louisville.edu/search/?P=PHPB%20300>) Social and Behavioral Foundations of Public Health
MPH replacement course: PHPB 501 (<https://catalog.louisville.edu/search/?P=PHPB%20501>) Introduction to Public Health Behavior
- Undergraduate course: PHEP 341 (<https://catalog.louisville.edu/search/?P=PHEP%20341>) Epidemiological Concepts and Methods for Public Health
MPH replacement course: PHEP 501 (<https://catalog.louisville.edu/search/?P=PHEP%20501>) Introduction to Epidemiology
- Undergraduate course: PHMS 301 (<https://catalog.louisville.edu/search/?P=PHMS%20301>) Introduction to the U.S. Healthcare Delivery Systems
MPH replacement course: PHMS 501 (<https://catalog.louisville.edu/search/?P=PHMS%20501>) Introduction to Public Health Practice and Administration

Spring Curriculum Based on Concentration:

- Undergraduate course: 300+ level General Elective (3.0 credit hours)
MPH replacement course: PHST 501 (<https://catalog.louisville.edu/search/?P=PHST%20501>) Introduction to Biostatistics for Health Sciences II

¹ MPH core course

² Students admitted to the following Accelerated BA-MPH concentrations should enroll in PHST 501 (<https://catalog.louisville.edu/search/?P=PHST%20501>) Introduction to Biostatistics for Health Sciences II during their Year 4, Spring semester:

- Epidemiology
- Health Policy

Accelerated BA-MPH in Public Health

Academic Plan Code(s):

- Concentration in Epidemiology: PHBAMPHEPA
- Concentration in Health Policy: PHBAMPHHPA
- Concentration in Health Promotion and Behavioral Sciences: PHBAMPHKA

The accelerated degree program allows a student to complete the Bachelor of Arts in Public Health (BA) and the Master of Public Health (MPH) over a five year period. The first four years consist of

undergraduate studies, including up to 15 credit hours of public health graduate level courses taken during the senior year, culminating in the award of the Bachelors of Arts in Public Health degree.

The fifth year, including the summer following graduation with a bachelor's degree, consists of graduate coursework in public health, leading to completion of the Master of Public Health (MPH) degree. The Master of Public Health (MPH) degree program is designed to provide students with training in foundational MPH competencies as well as a specific area of concentration. MPH concentrations currently available for the accelerated program are:

- Epidemiology
- Health Policy
- Health Promotion and Behavior

MPH graduates are prepared for positions in the public health work force, health-related industries, academic organizations, or for further professional or academic education.

The accelerated curriculum allows students to take a maximum of 15 credit hours of the Master of Public Health course work during their undergraduate studies. The 15 graduate credits will count towards the completion of both the BA and MPH degrees and will substitute for required undergraduate courses as follows:

Fall Curriculum, all concentrations:

- Undergraduate course: PHST 301 Quantitative Methods in Public Health
MPH replacement course: PHST 500 Introduction to Biostatistics for Health Sciences I
- Undergraduate course: PHPB 300 Social and Behavioral Foundations of Public Health
MPH replacement course: PHPB 501 Introduction to Public Health Behavior
- Undergraduate course: PHEP 341 Epidemiological Concepts and Methods for Public Health
MPH replacement course: PHEP 501 Introduction to Epidemiology
- Undergraduate course: PHMS 301 Introduction to the U.S. Healthcare Delivery Systems
MPH replacement course: PHMS 501 Introduction to Public Health Practice and Administration

Spring Curriculum Based on Concentration:

- Undergraduate course: 300+ level General Elective (3.0 credit hours)
MPH replacement course: PHST 501 Introduction to Biostatistics for Health Sciences II

For more information on the accelerated program click here (<http://louisville.edu/sphis/current-students/accelerated-mph-program/>).

Accelerated BA-MPH for non-Public Health majors

Academic Plan Code(s):

- Concentration in Epidemiology: PHMPHEPA

Public Health (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Public Health

Unit: Public Health and Information Sciences (<http://louisville.edu/sphis/>)

Academic Plan Code(s): PH_ _BS, PH_ _BS_PRE, PH_ _BS_ SHE

Program Information

The School of Public Health and Information Sciences (SPHIS) offers two undergraduate degree options: Bachelor of Science in Public Health for students focused on public health practice and Bachelor of Arts in Public Health for liberal studies.

A degree in public health provides students with the skills they need to improve the health of populations and communities, as well as alleviate suffering caused by disease, injuries and health disparities. Public Health majors learn how to inquire, challenge and explore options that promote the health and well-being of the community.

A BS in Public Health prepares students for positions in specific sectors of public health, health services, and public policy, with career opportunities in health education, health care administration, health research, environmental health, and more. Examples of job settings could include colleges and universities, federal and state health agencies, and community and international organizations. Both degrees prepare students for advanced degrees in public health, law, and clinical health professions (i.e., PA, PT, Nursing, Pharmacy, Medicine, and Dentistry).

Degree Summary

¹ Some credit hours from the General Education Requirements may be satisfied by courses defined by the school, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Students are admitted to the School of Public Health and Information Sciences on either a degree seeking or non-degree seeking basis. High school visitors, visiting students from other institutions, auditors, post baccalaureate students, and continuing studies students are considered non-degree seeking. All other students are considered degree seeking. Applicants will be notified by the University's Office of Admissions of their status and of the conditions of their enrollment at the time they are accepted. Students planning to earn degrees from the School of Public Health and Information Sciences must be degree-seeking in order for the credits they have earned to apply toward their degrees. Students remain

in a degree-seeking status until they graduate, transfer to another college or university, or are suspended/dismissed.

All newly admitted students are required to meet with SPHIS Undergraduate Advising prior to enrolling in classes. Admission is granted to students meeting the following requirements:

Entering First-Year Students and Transfer students with fewer than 24 credit hours

- Good Standing

1. Must meet minimum university admissions requirements
2. One of the following:
 - a. Graduation from accredited high school
 - b. Successful completion of General Education Development (GED) tests
3. High school GPA of 2.5 or higher
4. ACT/SAT score of 20/1030 or higher (optional)
5. College GPA of 2.0 (if applicable)

- Conditional Admission

Students who meet University minimum academic standards may be conditionally admitted (see **Undergraduate Catalog, Admission to the University of Louisville** (<https://catalog.louisville.edu/undergraduate/admission/>)).

Transfer student with 24 credit hours or more

- Good Standing

Must meet minimum university admissions requirements, including a 2.0 Cumulative college GPA (includes UofL GPA).

- Conditional Admission

Petition approved by Public Health Appeals Committee.

Accelerated BS-MPH in Public Health Admissions Process

Pre-Enrollment

Undergraduates who will have earned a minimum of 75 credit hours and an undergraduate cumulative GPA of 3.25 may pursue the accelerated degree program option. Eligible students who complete the following by February 1st of the student's sixth undergraduate semester can receive permission to enroll in MPH graduate level courses from the director of the MPH program:

- Submit an online program-petition (<http://louisville.edu/sphis/current-students/accelerated-mph-program-petition-form/>)
- Submit resume
- Submit a letter of recommendation, preferably from a UofL faculty member, that speaks to their academic abilities, to the SPHIS Academic Coordinator at ugsphis@louisville.edu (ugsphis@louisville.edu?subject=Accelerated%20LOR).

Pre-Admission & Concentration Declaration

Students granted permission to enroll in graduate-level courses will need to declare a concentration for the Master of Public Health graduate degree by November 15 of the student's seventh undergraduate semester.

The concentration options for an accelerated student are Epidemiology, Health Promotion and Behavioral Sciences, and Health Policy. Students applying to the epidemiology concentration will be required to have a strong quantitative background. ACT score, math placement score, and MATH 111 or higher course will be considered. A representative from the desired concentration will schedule an interview with the student to determine provisional admission and approval of concentration declaration for the students accelerated program.

Provisional Admission

Once approved to declare a concentration, the student is now provisionally admitted to the MPH accelerated program and must complete the following steps no later than the final year of their undergraduate studies to formally apply to the MPH program:

- Submit a complete UofL Graduate School Application (<https://louisville.edu/graduate/futurestudents/apply-materials/application/>) no later than March 1st and apply for the Summer term unless the student is pursuing the Health Promotion & Behavioral Sciences concentration, in which case that student should apply for the Fall term.
 - Accelerated MPH students DO NOT submit a SOPHAS Application
- Submit two letters of recommendation written within the last twelve months (at least one must be a SPHIS faculty member).
- Overall GPA for the undergraduate degree (including the core courses) must be a minimum of 3.0, and students must have made a grade of B or better in each of the following MPH core courses:
 - PHST 500 Introduction to Biostatistics for Health Sciences I
 - PHPB 501 Introduction to Public Health Behavior
 - PHEP 501 Introduction to Epidemiology
 - PHMS 501 Introduction to Public Health Practice and Administration
 - PHST 501 Introduction to Biostatistics for Health Sciences II (if applicable to concentration)
- One-page personal statement written by the applicant that is a clear, substantive description of their goals in public health.
- Resume/CV
- There is no GRE requirement.

Upon receipt of MPH admissions materials students will remain provisionally admitted to the MPH program until successful completion of their undergraduate degree. Following the receipt of their undergraduate degree, their admission status will be updated accordingly.

Accelerated BS-MPH for non-Public Health majors Admissions Process

Pre-Enrollment

Undergraduates who will have earned a minimum of 75 credit hours and an undergraduate cumulative GPA of 3.25 may pursue the accelerated degree program option. Students must also have completed Cardinal Core math and English requirements before submission of online program petition. Eligible students who complete the following by February 1st of the student's sixth undergraduate semester can receive permission to enroll in MPH graduate level courses from the director of the MPH program:

- Submit an online program-petition (<http://louisville.edu/sphis/current-students/accelerated-mph-program-petition-form/>)
- Submit resume
- Submit a letter of recommendation, preferably from a UofL faculty member, that speaks to their academic abilities, to the SPHIS Academic Coordinator at ugsphis@louisville.edu (ugsphis@louisville.edu?subject=Accelerated%20LOR).
- Submit a letter from their academic advisor supporting this option and include their academic plan and how the MPH courses fit into the plan and they will stay on track to graduate: ugsphis@louisville.edu (ugsphis@louisville.edu?subject=Accelerated%20LOR).
- Students may be interviewed by the MPH program director following the submission of their petition and notified of petition acceptance no later than the end of the student's sixth semester.

Academic Advising

- Upon notification of petition acceptance, the undergraduate advisor will work directly with the student's academic advisor and student to review MPH core course sequencing and the scheduling to verify degree completion.
- General accelerated students will also be assigned a public health academic advisor for the undergraduate accelerated MPH portion of their degree.

Pre-Admission & Concentration Declaration

Students granted permission to enroll in graduate-level courses will need to declare a concentration for the Master of Public Health graduate degree by November 15 of the student's seventh undergraduate semester. The concentration options for an accelerated student are Epidemiology, Health Policy, and Health Promotion and Behavioral Sciences. Students applying to the epidemiology concentration will be required to have a strong quantitative background. ACT score, math placement score, and MATH 111 or higher course will be considered. A representative from the desired concentration will schedule an interview with the student to determine provisional admission and approval of concentration declaration for the students accelerated program.

Provisional Admission

Once approved to declare a concentration, the student is now provisionally admitted to the MPH accelerated program and must complete the following steps no later than the final year of their undergraduate studies to formally apply to the MPH program:

- Submit a complete UofL Graduate School Application no later than March 1st and apply for the Summer term unless the student is an HP & BS concentration in which that student would apply for the Fall term louisville.edu/graduate/futurestudents/apply-materials/application (<https://louisville.edu/graduate/futurestudents/apply-materials/application/>)
 - **Accelerated MPH students DO NOT submit a SOPHAS Application**
 - Pay the Graduate School Application fee
 - Submit two letters of recommendation written within the last 12 months (at least one must be a SPHIS faculty member)
 - Include a one-page personal statement with clear, substantive description of goals in public health.
 - Resume/CV
- Maintain a minimum graduate program GPA of 3.0
- Receive a grade of "B" or higher in the following MPH core courses:

- PHST 500 Introduction to Biostatistics for Health Sciences I
- PHPB 501 Introduction to Public Health Behavior
- PHEP 501 Introduction to Epidemiology
- PHMS 501 Introduction to Public Health Practice and Administration
- PHST 501 Introduction to Biostatistics for Health Sciences II (if applicable to concentration)
- There is **NO GRE** requirement.

Upon receipt of MPH admissions materials students may be provisionally admitted to the MPH program based on receipt of their undergraduate degree. Following the receipt of their undergraduate degree, their admission status will be updated accordingly.

Accelerated BS-MPH in Public Health

Academic Plan Codes:

- Concentration in Epidemiology: PHBSMPHEPA
- Concentration in Health Policy: PHBSMPHHPA
- Concentration in Health Promotion and Behavioral Sciences: PHBSMPHHKA

The accelerated degree program allows a student to complete the Bachelor of Science in Public Health (BS) and the Master of Public Health (MPH) over a five year period. The first four years consist of undergraduate studies, including up to 15 credit hours of public health graduate level courses taken during the senior year, culminating in the award of the Bachelors of Science in Public Health degree.

The fifth year, including the summer following graduation with a bachelor's degree, consists of graduate coursework in public health, leading to completion of the Master of Public Health (MPH) degree. The Master of Public Health (MPH) degree program is designed to provide students with training in foundational MPH competencies as well as a specific area of concentration. MPH concentrations currently available for the accelerated program are:

- Epidemiology
- Health Policy
- Health Promotion and Behavior

MPH graduates are prepared for positions in the public health work force, health-related industries, academic organizations, or for further professional or academic education.

The accelerated curriculum allows students to take a maximum of 15 credit hours of the Master of Public Health course work during their undergraduate studies. The 15 graduate credits will count towards the completion of both the BS and MPH degrees and will substitute for required undergraduate courses as follows:

Fall Curriculum, all concentrations:

- Undergraduate course: PHST 301 (<https://catalog.louisville.edu/search/?P=PHST%20301>) Quantitative Methods in Public Health
MPH replacement course: PHST 500 (<https://catalog.louisville.edu/search/?P=PHST%20500>) Introduction to Biostatistics for Health Sciences I
- Undergraduate course: PHPB 300 (<https://catalog.louisville.edu/search/?P=PHPB%20300>) Social and Behavioral Foundations of Public Health
MPH replacement course: PHPB 501 (<https://catalog.louisville.edu/search/?P=PHPB%20501>) Introduction to Public Health Behavior
- Undergraduate course: PHEP 341 (<https://catalog.louisville.edu/search/?P=PHEP%20341>) Epidemiological Concepts and Methods for Public Health
MPH replacement course: PHEP 501 (<https://catalog.louisville.edu/search/?P=PHEP%20501>) Introduction to Epidemiology

graduate level courses taken during the senior year, culminating in the award of the Bachelors of Science in Public Health degree.

The fifth year, including the summer following graduation with a bachelor's degree, consists of graduate coursework in public health, leading to completion of the Master of Public Health (MPH) degree. The Master of Public Health (MPH) degree program is designed to provide students with training in foundational MPH competencies as well as a specific area of concentration. MPH concentrations currently available for the accelerated program are:

- Epidemiology
- Health Policy
- Health Promotion and Behavior

MPH graduates are prepared for positions in the public health work force, health-related industries, academic organizations, or for further professional or academic education.

The accelerated curriculum allows students to take a maximum of 15 credit hours of the Master of Public Health course work during their undergraduate studies. The 15 graduate credits will count towards the completion of both the BS and MPH degrees and will substitute for required undergraduate courses as follows:

Fall Curriculum, all concentrations:

- Undergraduate course: PHST 301 Quantitative Methods in Public Health
MPH replacement course: PHST 500 Introduction to Biostatistics for Health Sciences I
- Undergraduate course: PHPB 300 Social and Behavioral Foundations of Public Health
MPH replacement course: PHPB 501 Introduction to Public Health Behavior
- Undergraduate course: PHEP 341 Epidemiological Concepts and Methods for Public Health
MPH replacement course: PHEP 501 Introduction to Epidemiology
- Undergraduate course: PHMS 301 Introduction to the U.S. Healthcare Delivery Systems
MPH replacement course: PHMS 501 Introduction to Public Health Practice and Administration

Spring Curriculum Based on Concentration:

- Undergraduate course: 300+ level General Elective (3.0 credit hours)
MPH replacement course: PHST 501 Introduction to Biostatistics for Health Sciences II

Social Work (BSW)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Social Work

Unit: Kent School of Social Work (KE) (<http://louisville.edu/kent/>)

Academic Plan Code(s): SW_ _BSW, SW_ _BSWO, SW_ _BSWADO

Program Information

This program can be completed in a traditional classroom format or entirely online (<https://louisville.edu/online/programs/bachelors/bachelor-of-social-work/>).

The Bachelor of Social Work (BSW) Program at the Kent School of Social Work and Family Science is a full-time, campus-based and online program that prepares students for entry level professional social work practice. The Program also provides the foundation for graduate study in social work. Students may qualify for entry as Advanced Level students in graduate social work programs. The program is accredited by the Council on Social Work Education (CSWE).

The mission of the Kent School of Social Work & Family Science BSW program is to prepare students for generalist social work practice with diverse, vulnerable and marginalized individuals, families, groups, organizations, and communities. We take an anti-oppressive stance in educating students to intervene at the micro, mezzo and macro levels through the application of critical thinking and the incorporation of available evidence to inform practice that responds to complex social problems. The program contributes to the mission of the University as a great place to learn, by providing engaged service and outreach that improves the quality of life for local and global communities. The educational part of our mission is accomplished through theoretically and empirically driven approach to pedagogy in our on campus and on-line instruction and transformative learning experiences.

BSW Program Goals:

- Prepare graduates for generalist social work practice with vulnerable and marginalized individuals, families, groups, organizations, and communities through the acquisition and demonstration of social work practice behaviors consistent with CSWE educational standards and policies and the NASW Code of Ethics.
- Prepare graduates to understand bio-psycho-social, spiritual, and cultural functioning and apply it to all client systems.
- Prepare graduates to promote social and economic justice through their practice with diverse client systems.
- Prepare graduates who continue to develop professionally throughout their careers to meet new challenges and opportunities.

- ¹ Six (6) hours of Diversity (D1/D2) coursework is required. If these competency areas are not covered as part of the program requirements and/or general elective coursework, 6 additional hours will be needed to fulfill the University of Louisville competency-area requirements.
- ² Or equivalent as approved/decided by the unit
- ³ Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.
- ⁴ Students must have a minimum total of 60 credit hours to complete the Lower Division requirements.
- ⁵ Two of the five Upper Division Social Work Elective courses must be from Social Work (minimum 300 level). Please contact the BSW Advising Team should you have questions.
- ⁶ Practicum is the Culminating Undergraduate Experience (CUE) for BSW students. As such, it is intentionally designed to provide students with an opportunity demonstrate mastery of the core competencies that they learn throughout the Program. Before beginning Practicum, students are expected to successfully complete all 300-level BSW Core requirements.

Track Requirements

Students completing the BSW in Social Work may pursue the standard BSW track or a specialized track in Alcohol and Drug Counseling. Once accepted into the BSW Upper Division Alcohol and Drug Counseling Track, the following courses will be completed:

1. BSW 361 Intro Special Issues in Alcohol and Drug Counseling (mandatory)
2. BSW 362 Introduction to Substance Use and Substance Use Disorders (mandatory)
3. BSW 415 Intro Mental Health (mandatory)
4. BSW 460 Intro Motivation and Change (mandatory)

Practicum: Students are required to complete their practicum in a substance abuse setting. This placement will be within a setting where a substantial portion of the focus is identification, intervention, or case management of clients who are alcohol and or drug dependent. Wherever possible, students in practicum settings will receive supervision by a CADC with two years' experience.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

- 1. Log into your ULink account.
- 2. Click on the Academic Progress tile.
- 3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

The Bachelor of Social Work (SW BSW) program prepares students to meet the requirements for certification and/or licensure. If you plan to pursue professional licensure or certification you should first determine your state's criteria for examination and licensure to see how/if our program meets those requirements prior to enrollment. We recommend that you also contact your state's licensing board directly to verify that the requirements have not changed recently and to answer any questions especially those regarding additional requirements beyond the degree.

More information about certification or licensure is available at the following website: <https://louisville.edu/oapa/licensure-information> (<https://louisville.edu/oapa/licensure-information/>) (you may search by school or by the name of the program then click on 'View Details' to display the information).

For programs with an online option, more information about certification or licensure is available here: <https://louisville.edu/online/About-US?tab=disclosures> (<https://louisville.edu/online/About-US/?tab=disclosures>).

Sociology (BA)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Sociology

Unit: College of Arts and Sciences (AS) (<https://louisville.edu/artsandsciences/>)
Department: Sociology (<http://louisville.edu/sociology/>)
Academic Plan Code(s): SOC_BA, SOC_BA_O, SOC_BA_CUL, SOC_BA_CUO, SOC_BA_DIN, SOC_BA_DIO

Program Information

This program can be completed in a traditional classroom format or entirely online (<https://louisville.edu/online/programs/bachelors/bachelor-of-arts-in-sociology/>).

Students in the Bachelor of Arts (BA) in Sociology program learn to take an analytical, evidence-driven approach to social issues, as well as gain the interpersonal communication skills necessary to craft persuasive narratives grounded in critical thought. Sociology students focus on diversity and inequality and use their analytical insight into social structures for effective formulation and implementation of democratic social policy.

Those interested in sociology are intrigued by the challenging social issues pervading our world, how society influences and is influenced by them, and how to effectuate change. BA in Sociology students learn how to address these issues through scientific research and application, and, as our world continuously evolves, sociology students are well prepared to offer insight into these changes and how best to accommodate them.

Given the breadth, adaptability, and utility of sociology, employment opportunities are plentiful in social service agencies; federal, state, and local governments; non-profit organizations; and private enterprises

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

¹ Completion of the intermediate level of a single foreign language² In addition to courses counted toward General Education; 6 hours must be at 300 level or above³ May be incorporated into other degree requirements⁴ May be used to satisfy a General Education: Cardinal Core requirement.⁵ SOC 303 and SOC 320 must be completed with a grade of C or better.⁶ The list of approved CUE courses appears above. At least one of the 400-level courses taken to satisfy track requirements must be a designated CUE course.⁷ Students may be allowed to substitute a statistics course for SOC 301 and/or a methods course for SOC 303 but must gain the permission from the Department of Sociology Undergraduate Advisor prior to doing so and must take a 300+ level sociology elective in lieu of the required sociology course. Students must also earn a C or better in the statistics and/or methods course from the other department for it to count it toward sociology degree requirements.

Track Requirements

Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Sociology (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Sociology

Unit: College of Arts and Sciences (AS) (<https://louisville.edu/artsandsciences/>)

Department: Sociology (<http://louisville.edu/sociology/>)

Academic Plan Code(s): SOC_BS, SOC_BS_O, SOC_BS_HMW, SOC_BS_HMO

Program Information

This program can be completed in a traditional classroom format or entirely online (<https://louisville.edu/online/programs/bachelors/bachelor-of-arts-in-sociology/>).

Sociology students learn how to address these issues through scientific research and application, and, as our world continuously evolves. Sociology majors are well prepared to offer insight into these changes and how best to accommodate them. Sociology majors are offered a rich environment within which to develop skills in critical thinking, analytic problem-solving, and communication that are required by employers and/or that prepare them for a range of graduate programs.

Given the training in research methods, statistics, and topical areas, employment opportunities for sociology majors are plentiful in

social service agencies; federal, state, and local governments; nonprofit organizations; and private enterprises. The emerging global economic order and the increased complexity of corporate cultures promise to open even more opportunities for our graduates. Some sociology majors help companies develop global marketing strategies, and others work to enhance the culture and organization of corporations.

Sociology students pursue careers in a variety of fields: business, child welfare, computer industry, criminal justice, education (teaching, evaluation research, consultation, research), gerontology, health care, international relations, law, law enforcement, leisure/recreation/sport, military/military intelligence, social work, and urban planning or management, and more.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

	College/School Requirements	13-15
	Program/Major Requirements	18
	Track Requirements ²	60
Minimum Total Hours		122-124

¹ Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

² Sociology offers two BS options, one track and one non-track. For both options, please refer to the Track Requirements tab.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA-BS/MA in Sociology

The Department of Sociology offers an accelerated master's degree program, which is designed to allow motivated undergraduates the opportunity to earn graduate credit hours in sociology during their senior year. As undergraduates, accelerated students may earn between 6-9 credit hours (taking 2-3 graduate level courses), which are applied toward both the undergraduate degree as well as the graduate degree, allowing students to begin the graduate program in sociology with credits already applied toward their MA degree.

The graduate courses taken during the student's senior year will depend on the courses the student has remaining to complete his/her undergraduate degree in sociology. The undergraduate advisor works individually with accelerated students regarding their course schedules.

NOTE: Students in the accelerated program in sociology may only apply their graduate credits earned as an undergraduate toward the graduate degree in sociology at UofL.

To be admitted to the program, a student must have: an undergraduate GPA of 3.35 or better at the time of application (see Admissions tab for more information).

Departmental Admission Requirements

Admission to the BS in Sociology requires:

1. Completion of SOC 301 with a grade of C or better
2. Minimum cumulative grade point average of 2.0
3. Minimum cumulative grade point average of 2.0 in Sociology, if any courses have been taken.

The Change Major Request form can be found under the Academic Progress tile on ULink.

³ SOC 450 may only satisfy this requirement if the topic is related to health, medicine, and well-being. Other electives may be substituted with approval from the undergraduate advisor.

4 PHIL 323 is an example of an appropriate ethics course. Other possible courses that may be used to satisfy this requirement should be discussed with the undergraduate advisor.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and

placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

- 1. Log into your ULink account.
- 2. Click on the Academic Progress tile.
- 3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Spanish (BA)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Spanish

Unit: College of Arts and Sciences (AS) (<https://louisville.edu/artsandsciences/home/>)
Department: Classical and Modern Languages (<https://louisville.edu/languages/>)
Academic Plan Code(s): SPANBA

Program Information

The Spanish program offers two options for students wishing to complete the Spanish major.

The Spanish as a Second Language (SL) sequence serves students whose primary experience with Spanish has been in the classroom. Students may place into SPAN 201 or higher through the online placement exam (<https://louisville.edu/languages/>).

The Spanish as a Heritage Language (HL) sequence offers courses for individuals who grew up in Spanish-speaking environments and are able to communicate, to some extent, in more than one language. Some students are immigrants who have recently arrived in the United States and have had extensive schooling in their native countries. Others are first-, second-, or third-generation bilinguals whose abilities in the heritage language vary widely. Placement into Heritage Learner courses is done through departmental evaluation (<http://louisville.edu/modernlanguages/placement-exam/spanish-heritage-learners/>).

Both the Second Language (L2) and Heritage Language options offer 300-level courses that are designed to meet the language needs of both groups and to prepare them for the 400- and 500-level courses that are required for both tracks.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Sport Administration (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Sport Administration (SPADBS)

Unit: College of Education and Human Development (<http://www.louisville.edu/edu/>)
Department: Health & Sport Sciences (<http://louisville.edu/education/departments/hss/>) (HSS)
Academic Plan Code(s): SPADBS, SPADBS_O

Program Information

This program can be completed in a traditional classroom format or entirely online (<http://louisville.edu/online/programs/bachelors/bachelor-of-science-in-sport-administration/>).

Sport Administration (SPAD) is the business side of sport.

Sport managers work with all of the business aspects surrounding sport organizations and sporting events such as leadership, organizational behavior, marketing, finance, law, facility management, fundraising, event management, multimedia, sponsorships, and promotion.

The University of Louisville offers a Bachelor of Science in Sport Administration. The undergraduate program is designed to prepare students to enter careers in the sport industry. The SPAD program has a diverse student population representing a variety of geographical, cultural, educational, and professional backgrounds. Our students gain valuable experience working, interning, and volunteering on many significant service-learning projects for local and community agencies. We utilize many guest lecturers from sport business organizations each semester to speak with our students about how to excel as a business professional in the sport industry.

Sustainability (BA)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Sustainability

Unit: College of Arts and Sciences (<http://www.louisville.edu/a-s/>)
Program Website: Sustainability (<https://louisville.edu/upa/programs/bachelors-of-sustainability/>)
Academic Plan Code(s): See Track Requirements tab.

Program Information

The Bachelor of Arts in Sustainability is designed to train students to research, identify, implement, and monitor sustainable practices, processes, systems, and framework in human habitats. Graduates will be equipped to contribute to sustainability service and research that benefits the local, national, and global communities.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact department.

Minimum Total Hours		121

¹ Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Sustainability majors who are considering pursuing a master's degree (MA) in Interdisciplinary Studies with a concentration in Sustainability can speed up the process by applying some of their undergraduate credit toward a master's degree. Students accepted into the Accelerated BA/MA program take three graduate courses (9 credit hours) as an undergraduate that apply toward both the bachelor's degree and eventual master's degree.

Special Requirements for Accelerated Master's Degree Program Admission

1. An undergraduate GPA of 3.0 or better
2. Completion of URBS 131, 231, 232, 303, 331 with a minimum GPA of 3.0

Core courses should include URBS 631, SUST 602, and research methods.

The fifth year consists of graduate coursework leading to completion of the Master of Arts in Interdisciplinary Studies: Concentration in Sustainability. The accelerated curriculum allows students to apply 9 credit hours of graduate core course work taken during their undergraduate studies towards the completion of both the BA and Master's degrees.

Advising to ensure the requirements are met without extraneous credit hours is imperative and strongly recommended for timely degree completion and financial considerations for the accelerated degrees. Please be sure to consult with advisors and the director of the master's program.

Accelerated BA Sustainability/Master of Urban Planning (MUP)

Sustainability majors who are considering pursuing a master's degree in Urban Planning (MUP) can speed up the process by apply some of their undergraduate credit toward a master's degree. Students can apply 12 credit hours of graduate coursework taken during their undergraduate studies towards the completion of both the BA and MUP degrees.

Students should apply to this program in their junior year but are recommended to speak to the director of the BA in Sustainability, the director of the MUP, and A&S advising earlier. Students must have an undergraduate GPA of 3.0 to be admitted to the accelerated program.

For more information, please see the admissions tab and the track requirements tab.

Departmental Admission Requirements

Admission to the BA in Sustainability requires a minimum cumulative grade point average of 2.0.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Admission and Application to the Accelerated Sustainability BA/Master of Urban Planning (MUP)

Students who are interested in either of the accelerated program will fill out an application with the Director of Undergraduate Studies (DUGS) at any time. The application will be held until the student has completed at least 60 credit hours but less than 90 credit hours (usually in their 6th

semester). At this point they will be formally "admitted" to the accelerated program. The student must have a GPA of 3.00 to be admitted to the accelerated program.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

Theatre Arts (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Theatre Arts
Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
Department: Theatre Arts (<http://www.louisville.edu/a-s/ta/>)
Program Website (<http://louisville.edu/theatrearts/undergraduates/>)
Academic Plan Code(s): TA_ _BS

Program Information

As part of the College of Arts and Sciences, the Theatre Arts is committed to a liberal arts education and professional training for our undergraduate students. The ancient art of theatre is most fully understood and exists at its deepest form of expression through the creation of performances shared with an audience. Doing so demands a deep array of knowledge and skill combined with a professional attitude and work ethic that can serve students throughout their lives in whatever profession they pursue.

All Theatre Arts Undergraduate Majors are required to fulfill course requirements for the College of Arts and Sciences, General Education and Programmatic/Supporting Courses.

Theatre Arts Requirements are split into four core areas: Academics, Performance, Design and Technology, and Performance/Production. In addition, Theatre Arts undergraduate majors utilize 18 hours of department electives to specialize in one of five areas including African American Theatre, Performance, Design and Technology, Dramaturgy and Playwriting, and General Studies. All majors participate in the Culminating Undergraduate Experience in their final year.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Urban Studies (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Urban Studies

Unit: College of Arts and Sciences (<http://www.louisville.edu/a-s/>)

Department: Urban and Public Affairs

Academic Plan Code(s): US_ _BS

Program Information

The Bachelor of Science in Urban Studies is designed to educate, train, and prepare students for future careers in municipal and metropolitan# related occupations, through the identification, interpretation, and analysis of historic and contemporary issues facing urban areas. Graduates will carry out research and service work benefitting local or regional communities.

Urban studies graduates often find careers as public administrators, policy analysts, community development specialists, or planning technicians. The program also provides students a strong foundation for future graduate training in affiliated disciplines, including urban planning, public administration, geography, or sociology.

The BS in Urban Studies is housed within the Department of Urban and Public Affairs in partnership with the Department of Geography and Environmental Sciences and the Department of Sociology.

The Department offers Bachelor of Science degrees in four different tracks:

- **Urban Administration:** designed for students with interests in management, human resources, budgeting, and governance.
- **Urban Geography:** designed for students with interests in place dynamics, human-spatial interactions, and GIS.
- **Urban Planning:** designed for students with interests in land development and related topics, such as housing, design, and real estate.
- **Urban Sociology:** designed for students with interests in human and group interactions within an urban or metropolitan context.

Accelerated BS/MUP in Urban Studies and Urban Planning

Urban Studies majors who are considering pursuing a master’s degree (MUP) in Urban Planning can speed up the process by applying some of their undergraduate credit hours toward a master’s degree. Students accepted in the Accelerated BS/MUP take four graduate courses (12 credit hours) as an undergraduate that apply toward both the bachelor’s degree and the eventual master’s degree.

Interested students should apply for admission to the accelerated program by filling out an application with the Director of Undergraduate Studies. The application will be held until the student has completed at least 60 credit hours but less than 90 credit hours (usually in their 6th semester). Advising to ensure the requirements are met without extraneous credit hours is imperative and strongly recommend for timely degree completion and financial considerations for the accelerated degree. Please be sure to consult with undergraduate advisors and the director of the MUP program. Applicants must meet the general requirements for admission to the Graduate School and must have an undergraduate GPA of 3.0 or better and completion of URBS 201, URBS 202, URBS 301, and URBS 302 with a minimum GPA of 3.0.

Admission Requirements to the Urban Studies BS

Students will be selected through the standard University of Louisville College of Arts and Sciences admissions process.

The Change Major Request form can be found under the Academic Progress tile on ULink.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

- 1. Log into your ULink account.
- 2. Click on the Academic Progress tile.
- 3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Women's, Gender and Sexuality Studies (BA)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Women's, Gender and Sexuality Studies

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
Department: Women's, Gender and Sexuality Studies (<http://www.louisville.edu/a-s/ws/>)
Academic Plan Code(s): WGSTBA, WGSTBA_O

Program Information

This program can be completed in a traditional classroom format or entirely online (<https://louisville.edu/online/programs/bachelors/bachelor-of-arts-in-womens-and-gender-studies/>).

Women's, Gender and Sexuality Studies is an interdisciplinary major that draws its questions and approaches from the humanities, social sciences, natural sciences, and arts. It helps students to develop theoretical, empirical, and methodological perspectives for studying gender as a crucial category for understanding the world. We offer flexible scheduling for our majors: we have three core courses, offered regularly; for the remainder of their requirements, students have flexibility in selecting the classes that will be most helpful to them in their chosen career path. Our students have the opportunity to engage in service learning opportunities outside the university, giving them useful career

experience. Students in our program also find it easy to double major, if they so desire.

WGST majors learn to:

- 1. Apply gender analytics at the micro and macro level for research and practices of social advancement;
- 2. Examine complex social problems using gender–informed analysis, research and design;
- 3. Select appropriate methodologies from the humanities and social sciences for analyzing data and texts;
- 4. Provide appropriate theoretical interpretation based on discipline-related concepts;
- 5. Draw conclusions based on the analyses of texts and qualitative and quantitative information;
- 6. Demonstrate effective written and oral communications tailored to specific audiences and contexts to increase the understanding and utilization of research findings;
- 7. Identify how social, cultural and scientific knowledges are produced by institutions such as academic disciplines, media, arts, and politics;
- 8. Understand how gender intersects with other social structures such as race, class, sexuality, disability in the U.S. and globally;
- 9. Draw from multiple fields of study to evaluate and generate information and experiences related to gender, race, class, sexuality, disability, etc.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA-BS/MA in Women's, Gender and Sexuality Studies

Women's, Gender and Sexuality Studies majors who are considering pursuing a master's degree in Women's, Gender and Sexuality Studies can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the Accelerated BA-BS/MA take four graduate courses (12 credit hours) as

an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students must apply to the program during their Junior year (i.e., when they have accumulated 60-90 hours of credit). Students must complete an application for admission to the Women's, Gender and Sexuality Studies Department's Master of Arts program (including transcripts, two letters of recommendation, a statement of purpose, and a writing sample). Applicants must have a minimum overall grade point average and major grade point average of 3.35 and must meet all other requirements for admission to the Women's, Gender and Sexuality Studies Department's Master of Arts program.

Students must retain a 3.35 GPA in Women's, Gender and Sexuality Studies during their senior year to remain in the program.

Departmental Admission Requirements

Admission to the BA in Women's, Gender and Sexuality Studies requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Accelerated BA-BS/MA in Women's, Gender and Sexuality Studies

Interested students should apply for entry into the accelerated program no later than the end of their Junior year.

To be considered for admission to the Accelerated Master of Arts in Women's, Gender and Sexuality Studies program, students must:

- Complete an application for admission to the Women's, Gender and Sexuality Studies Department's Master of Arts program (including transcripts, two letters of recommendation, a statement of purpose, and a writing sample) no later than the end of their junior year.
- Have a minimum overall grade point average (GPA) of 3.35, a Women's, Gender and Sexuality Studies GPA of 3.35, and meet all other requirements for admission to the Women's, Gender and Sexuality Studies Department's Master of Arts program.

Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Women's, Gender and Sexuality Studies with a 3+3 Track to Law (BA)

Bachelor of Arts in Women's, Gender and Sexuality Studies with a 3+3 Track to Law

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)

Department: Women's, Gender and Sexuality Studies (<http://www.louisville.edu/a-s/ws/>)

Academic Plan Code(s): WGSTBA_3+3

Program Information

The College of Arts & Sciences and the Louis D. Brandeis School of Law have joined forces to create 3+3 Accelerated Law programs that allows eligible students in the College of Arts & Sciences to begin law school in their senior year of undergraduate study. Students substitute undergraduate major requirements with the first 30 hours of law school, earning an undergraduate degree after their first year of law school and a Juris Doctor (JD) degree two years later. Students must have completed three years (6 semesters) of undergraduate course work, including transfer credit and credit earned in summers, prior to enrollment at Brandeis.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Degree Summary

Code	Title	Hours
	General Education Requirements (https://catalog.louisville.edu/undergraduate/general-education-requirements/) ¹	31
	College/School Requirements	22
	Program/Major Requirements ¹	39
	Law School Courses	30
Minimum Total Hours		122

¹ Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Admission to the BA in Women's, Gender and Sexuality Studies 3+3 track in law requires a minimum cumulative grade point average of 3.5 and a minimum grade point average of 3.5 on courses in the major. A 3.5 GPA is recommended by the School of Law (see below). Only 30 hours of Distance Education (DE) are allowed.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Admission to Law School

Admission to the 3+3 track does not guarantee admission to the law school. Students seeking admission to law school must complete a law school application and satisfy all of Brandeis' admissions requirements, including its median GPA and LSAT expectations.

The law school requires that students seeking admission through the 3+3 program have completed three years of undergraduate course work, including transfer credit and credit earned in summer. It is recommended that students planning to pursue this track have a minimum cumulative GPA of 3.5.

For more information on Brandeis and its admissions requirements, please contact the Brandeis School of Law Office of Admissions (<https://louisville.edu/law/>). A visit to the law school and an opportunity to observe a class can be arranged.

Women's, Gender and Sexuality Studies (BS)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Women's, Gender and Sexuality Studies

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)

Department: Women's, Gender and Sexuality Studies (<http://www.louisville.edu/a-s/ws/>)

Academic Plan Code(s): WGSTBS

Program Information

Women's, Gender and Sexuality studies is an interdisciplinary major that draws its questions and approaches from the humanities, social sciences, natural sciences, and arts. It helps students to develop theoretical, empirical, and methodological perspectives for studying gender as a crucial category for understanding the world. We offer extremely flexible scheduling for our majors: we have three core courses, offered regularly. For the remainder of their requirements, students have flexibility in selecting the classes that will be most helpful to them in their chosen career path. Our students have the opportunity to engage in

service learning opportunities outside the university, giving them useful career experience. Students in our program also find it easy to double major, if they so desire.

WGST Majors learn to:

1. Apply gender analytics at the micro and macro level for research and practices of social advancement;
2. Examine complex social problems using gender-informed analysis, research and design;
3. Select appropriate methodologies from the humanities and social sciences for analyzing data and texts;
4. Provide appropriate theoretical interpretation based on discipline-related concepts;
5. Draw conclusions based on the analyses of texts and qualitative and quantitative information;
6. Demonstrate effective written and oral communications tailored to specific audiences and contexts to increase the understanding and utilization of research findings;
7. Identify how social, cultural and scientific knowledges are produced by institutions such as academic disciplines, media, arts, and politics;
8. Understand how gender intersects with other social structures such as race, class, sexuality, disability in the U.S. and globally;
9. Draw from multiple fields of study to evaluate and generate information and experiences related to gender, race, class, sexuality, disability, etc.

Completion of this degree requires work to be submitted for the department's Student Learning Outcomes Measurement. For details, contact the department.

Accelerated BA-BS/MA in Women's, Gender and Sexuality Studies

Women's, Gender and Sexuality Studies majors who are considering pursuing a master's degree in Women's, Gender and Sexuality Studies can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the Accelerated BA-BS/MA take four graduate courses (12 credit hours) as

an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students must apply to the program during their Junior year (i.e., when they have accumulated 60-90 hours of credit). Students must complete an application for admission to the Women's, Gender and Sexuality Studies Department's Master of Arts program (including transcripts, two letters of recommendation, a statement of purpose, and a writing sample). Applicants must have a minimum overall grade point average and major grade point average of 3.35 and must meet all other requirements for admission to the Women's, Gender and Sexuality Studies Department's Master of Arts program.

Students must retain a 3.35 GPA in Women's, Gender and Sexuality Studies during their senior year to remain in the program.

Departmental Admission Requirements

Admission to the BS in Women's, Gender and Sexuality Studies requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Accelerated BA-BS/MA in Women's, Gender and Sexuality Studies

Interested students should apply for entry into the accelerated program no later than the end of their Junior year.

To be considered for admission to the Accelerated Master of Arts in Women's, Women's and Gender and Sexuality Studies program, students must:

- Complete an application for admission to the Women's, Women's and Gender and Sexuality Studies Department's Master of Arts program (including GRE scores, transcripts, two letters of recommendation, a statement of purpose, and a writing sample) no later than the end of their junior year.
- Have a minimum overall grade point average (GPA) of 3.35; a Women's, Gender Women's and Sexuality Gender Studies GPA of 3.35; and meet all other requirements for admission to the Women's, Gender Women's and Sexuality Gender Studies Department's Master of Arts program.

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

1. Log into your ULink account.
2. Click on the Academic Progress tile.
3. Select the appropriate report.
 - a. To run a Degree Audit report, click on "View my Degree Audit."
 - b. To create a What-if report, click on "Create a What-if Advisement Report."
 - c. To run a Flight Planner report, click on "Use My Flight Planner."

Accounting (Minor)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Minor In Accounting

Unit: College of Business (<https://business.louisville.edu/>)
Academic Plan Code(s): ACCTMIN

Students graduating with any degree are frequently required to make financial decisions for their department or areas of influence regardless of their undergraduate major. These decisions, for example consist of creating budgets and submitting proposals that require allocation of resources, cash, or other assets. An Accounting Minor will give students the skill and confidence to review budgets, ask the right business questions and make more informed business decisions in any field of their chosen endeavor.

The minor is open to all students at the University of Louisville. To be admitted, a student must have a B- or above in ACCT 201 and ACCT 202. Students must also maintain a cumulative 2.5 GPA in accounting classes to be awarded the minor.

Program Requirements

Code	Title	Hours
Program Prerequisites (6 credit hours):		
ACCT 201	Principles of Financial Accounting	
ACCT 202	Principles of Managerial Accounting

Minor in Archaeology

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
Department: Anthropology (<https://louisville.edu/anthropology/>)

Archaeology examines the nature of societies of the past through recovery and study of their material remains. The minor in Archaeology gives students the opportunity to expand their knowledge of archaeology to complement their major studies in a wide range of disciplines. The curriculum is designed to give students a background in anthropological archaeology including introductory courses in the subdisciplines. The sets of elective courses provide flexible pathways to completing the minor. These courses range from surveys of regional archaeology to methods and practice courses that provide hands-on experience in the study of archaeological materials.

Minor in Business Administration

Unit: College of Business (<http://business.louisville.edu/>)
Academic Plan Code(s): BA_ _MINOR

The College of Business offers a minor in Business Administration for students in other colleges and schools at the University of Louisville. College of Business majors are not eligible for enrollment in the Business Administration minor. Enrollment is limited in the business minor because of the large demand for courses by business majors.

To be admitted to the minor in Business Administration and be permitted to pursue the program core coursework, a student must have completed the following:

- Fifty-one (51) or more semester hours with a cumulative grade point average of 2.5 or higher;
- ECON 201 and ECON 202; and
- The business program prerequisite coursework with a GPA of 2.5.

Upon completion of the admission requirements and formal application, the student is admitted into the Business Administration minor program based on the student's academic performance and the space available. An appointment may be made during the semester that the program prerequisites are being completed to begin the application process.

Minor in Disability Studies

Unit: College of Arts and Sciences (<https://louisville.edu/artsandsciences/home/>) (AS)
Department: Liberal Studies (<https://louisville.edu/liberalstudies/>)
Academic Plan Code(s): DISAMINOR

The minor in Disability Studies, housed within the Liberal Studies Program of the College of Arts & Sciences, seeks to provide students with a rich understanding of disability as a social, cultural, and political phenomenon. Utilizing the expertise of the Department of Special Education, Early Childhood & Prevention Science (College of Education and Human Development) and the departments of Philosophy, Sociology, and Classical and Modern Languages, the program introduces students to the diverse world of disability and accessibility. It delves into disability's intersections with education, society, language, culture, and ethics, promoting an inclusive view of human experiences.

The main learning objectives include fostering critical thinking about the societal constructs of disability, understanding the lived experiences of individuals with disabilities, and promoting advocacy for accessibility and inclusion. Students will acquire skills in critical analysis, interdisciplinary research, and effective communication. They will also gain knowledge about the historical and contemporary challenges faced by individuals with disabilities, the philosophical underpinnings of disability rights, and the social aspects of disability discourse. Moreover, students will have the opportunity to increase their cultural knowledge and understanding of the Deaf community and to be introduced to the field of special education.

Minimum Total Hours 18

At least three (3) semester hours of the requirements for a minor must be successfully completed while enrolled in the University of Louisville.

Industrial Engineering (Minor)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Minor in Industrial Engineering

Unit: Speed School of Engineering (<https://engineering.louisville.edu/>) (SS)
Department: Industrial Engineering (<https://engineering.louisville.edu/academics/areasofstudy/industrialengineering/>)
Academic Plan Code: IE_MIN

Program Requirements

The Minor in Industrial Engineering program is meant to supplement another Bachelor's degree program. Industrial Engineering (often referred to as "System Engineers") are Systems thinkers and problem solvers. The majority of roles utilizing Industrial Engineering skills require training in one or more of the following areas: (1) statistical analysis, (2) experimental design and data analytics, (3) process improvement, (4) process innovation, (5) simulation and optimization of systems, and (6) product/system life-cycle planning.

For admission to the Minor in Industrial Engineering, students need to be in good standing of their program.

Note: Students must meet all of the prerequisites for any given courses of the minor curriculum at the time of course registration.

At least three (3) semester hours of the requirements for a minor must be successfully completed while enrolled in the University of Louisville.

Interdisciplinary Computational Sciences (Minor)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Minor in Interdisciplinary Computational Sciences

Unit: College of Arts and Sciences (AS) (<https://louisville.edu/artsandsciences/home/>)
Department: Physics and Astronomy (<https://louisville.edu/physics/>)
Academic Plan Code(s): PHYSMINICS

The minor in Interdisciplinary Computational Sciences (ICS) focuses on computational techniques in physics, chemistry, and materials sciences.

Program Requirements

To earn a minor, students must take 18 credit hours.

Japanese (Minor)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Minor in Japanese

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)

Department: Classical and Modern Languages (<https://louisville.edu/modernlanguages/>)

Academic Plan Code(s): JAPNMIN

The Japanese minor introduces students to the foundations of the Japanese language and Japanese culture, as well as consideration of Japan within historical and global contexts. The Japanese language courses build language skills and help develop communication skills in listening, speaking, reading, and writing. Learning Japanese provides an excellent opportunity to not only add to a student's language abilities but to also deepen insight into a culture different from their own. Completing a minor in Japanese combined with a student's major could allow students the opportunity to go on to a variety of jobs such as working within Japanese companies or teaching abroad, and for further study in graduate programs. This minor would give students an academic and professional edge, as well as making them attractive prospects for Japanese companies.

Multicultural Marketing (Minor)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Minor in Multicultural Marketing

Unit: College of Business (<https://business.louisville.edu/>)
Department: Marketing (<https://business.louisville.edu/academics-programs/undergraduate-programs/marketing/>)
Academic Plan Code(s): MKT_MINMCM

Both global and U.S. markets are increasingly diverse. In the U.S. alone, the minority population (or “emerging majority”) makes up 38% of the population and is expected to exceed 50% by mid-century, a status already attained in California, Hawaii, New Mexico and Texas. Buying power is following suit. Despite this evolution of the marketplace, marketing practices remain largely hegemonized – translating general market plans (predominantly targeting white populations) to minority audiences without nuanced insight into cultural differences. This program will help change that thinking and embrace a multicultural view of marketing.

Admission Requirements

For business majors, enrollment in the College of Business is required.

For non-business majors, students must have completed 51 or more semester hours with a cumulative GPA of 2.5 or higher.

Students must complete the program prerequisites and earn a GPA of 2.5 or higher in those prerequisites in order to pursue the Marketing Core.

A formal application to the minor is required upon completion of the program prerequisites.

Social Justice and Health Equity (Minor)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Minor in Social Justice and Health Equity

Unit: School of Public Health & Information Sciences (<http://louisville.edu/sphis/>)

Academic Plan Code(s): SJHEMINOR

The intersection of social justice and health equity in public health has never been clearer, and the current US and world contexts have given rise to unprecedented career interest in public health as well as public health approaches to other complex social issues. A minor in Social Justice and Health Equity will enhance students' preparation for jobs across multiple sectors, with competencies applicable to a wide range of social justice and health equity issues. Graduating students that can apply a social justice and health equity lens to an array of complex issues in their communities hold potential to make meaningful strides toward equity.

The Social Justice and Health Equity minor can be pursued as a specialization within the BA/BS Public Health majors, or as adjunct to preparation for other health fields such as medicine or nursing, or for a basic or social science, such as biology, social work, or sociology. Current UofL students will be required to apply to the minor and maintain a minimum of a 2.0 GPA. The minor in Social Justice and Health Equity requires the completion of a minimum of 18 credit hours.

Minor in Applied Statistics and Data Science
Unit: School of Public Health & Information Sciences (<http://louisville.edu/sphis/>)
Academic Plan Code(s): ASDSMINOR

New admissions to this minor have been suspended until further notice, effective summer 2024.

A demonstrated working knowledge in statistical and data science methods has become a vital component for students in many disciplines such as business, journalism, natural and social sciences, political science, psychology, and public health. As evidenced by nationwide employment statistics, employment prospects, and rates, both demand and compensation for individuals with strong quantitative sciences backgrounds are much higher than graduates with minimal exposure to these areas.

The Applied Statistics and Data Science minor exposes students to several commonly applied statistical methods and data science techniques bolstering and complementing a wide variety of undergraduate majors by enhancing their career opportunities. Students in this program will be trained in data management, analysis, reasoning, and decision making using various types of data.

Program Requirements

The program consists of three required courses and three elective courses, where one of the electives must be a Statistical Computing course (see table below). One of the required courses, PHST 301, may be substituted by an approved equivalent course from another unit.

Admission to the program requires the completion of PHST 200 or MATH 109 or higher with a minimum grade of B-. Eligible students should have at least 30 credit hours with a minimum overall grade point average of 2.0. The program will be open to any undergraduate with these prerequisites. A laptop capable of running

basic statistical software is a requirement for coursework in this program.

Climate, Equity, and Opportunity in the Workplace (CERT)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Certificate in Climate, Equity, and Opportunity in the Workplace

Unit: College of Education and Human Development (<https://louisville.edu/education/>)
Department: Educational Leadership, Evaluation and Organizational Development (<http://louisville.edu/education/departments/eleod/>)
Academic Plan Code(s): CEOWCUG, CEOWCUGO

Program Information

This program can be completed entirely online (<https://louisville.edu/online/programs/certificate-programs/certificate-in-climate-equity-and-opportunity-in-the-workplace/>).

The Certificate in Climate, Equity, and Opportunity in the Workplace will prepare leaders working in a multitude of fields (e.g., military, corporate, non-profit, healthcare, government, private sector, etc.) to implement best practices and strategies around diverse hiring, inclusive workplace environments, effectively engaging with marginalized communities through meaningful organizational partnerships, and equitable treatment among all employees in the workplace.

With ever-growing workplace changes (e.g., policies, hiring), the workplace is challenged to address matters of injustice, fairness, equality & equity, prejudice, discrimination, and cultural acceptance. The proposed certificate will allow students to study and explore the existing problems associated with the aforementioned areas. Students will explore policy, complete organizational analysis, and engage with marginalized communities through assignments to form a solid knowledge base towards practical application.

Admission Requirements

Undergraduate students who are currently enrolled at UofL must submit a request to declare the certificate (<https://louisville.edu/advising/students/change-major/>) to enter the program. First time freshmen, transfer, and post-baccalaureate applicants must meet the regular admission standards (<https://catalog.louisville.edu/undergraduate/admission/college-education-human-development/>) of

the College of Education and Human Development. This undergraduate certificate program may be completed as a stand-alone credential; however, it will not be eligible for federal financial aid. Students enrolled in degree programs and pursuing this certificate may be eligible for federal financial aid.

Certificate in Ethics

Unit: College of Arts and Sciences (<http://louisville.edu/artsandsciences/intro/>) (AS)

Department: Philosophy (<http://louisville.edu/philosophy/>)

Academic Plan Code(s): ETHICUG

Program Information

Many professions from tech to health care realize that ethics cannot be taken for granted but must be designed into organizations. From avoiding lawsuits and whistleblower complaints, to complying with the

law, to maintaining quality organizational relations and relationships with clients, ethics is essential for firms and agencies in the 21st century. The certificate in ethics prepares graduates for ethical leadership roles in whatever field they enter. The program will train students in modes of ethical reasoning and in how to apply their ethical reasoning skills in the workplace and in daily life. The certificate provides graduates with a credential indicating their preparation for ethics compliance and other modes of demonstrating ethical practice in the professions. The program is also of benefit to students with personal and/or intellectual interests in the study of ethics and moral reasoning.

Undergraduate students who are currently enrolled at UofL must be in good standing to enter the certificate in ethics program. First time freshmen, transfer, and postbaccalaureate applicants must meet the regular admission standards (<https://catalog.louisville.edu/undergraduate/admission/college-arts-sciences/>) of the College of Arts and Sciences. This undergraduate certificate program may be completed as a stand-alone credential; however, it will not be eligible for federal financial aid. Students enrolled in degree programs and pursuing this certificate may be eligible for federal financial aid.

Students are required to maintain at least a 3.0 GPA in the certificate, with no more than one grade of C in classes counted towards the certificate.

Franchise Management (CERT)

Certificate in Franchise Management

Unit: College of Business (<https://business.louisville.edu/>)
Department: Management (<https://business.louisville.edu/academics-programs/undergraduate-programs/management/>)
Academic Plan Code(s): FM CUGO

The Franchise Management Certificate curriculum is designed to prepare students to work in franchising, whether that involves becoming a franchisee, working for a franchisee, working for a franchisor, or working in the industry in an ancillary role such as for a service provider who assists the industry. This curriculum provides a strong overview and understanding of the franchise model and how it can be leveraged to lead a successful business in this growing field. This will provide a special certificate designation that can be used on resumes to emphasize this additional expertise.

The content has been adapted from the Graduate Certificate in Franchising to a 400-level curriculum with case studies and guest speakers in the courses (leveraging the Podcast format). The certificate requires completion of four courses and provides students with the option to select an experiential practicum for the final course in the program. A partnership with the International Franchise Association (IFA) ensures the curriculum remains up#to#date and aligned with “real world” industry needs. This undergraduate certificate be an added credential for those earning an undergraduate degree, allowing a stacked credential

with employer interest. The franchise industry is growing with year-end projections (by the IFA) of 792,000 outlets and employment of 8.5 million.

Departmental Admission Requirements

To be admitted to the Certificate in Franchise Management, students must have completed 60 credits of coursework from an accredited post-secondary institution with a minimum cumulative GPA of 2.7 (on a 4.0 scale) or equivalent.

Program Requirements

The Franchise Management Certificate curriculum is designed to prepare students to work in franchising, whether that involves becoming a franchisee, working for a franchisee, working for a franchisor, or working in the industry in an ancillary role such as for a service provider who assists the industry. Geospatial Technologies, Applied (CGT)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Certificate in Applied Geospatial Technologies

Unit: College of Arts and Sciences (<http://louisville.edu/artsandsciences/>) (AS)
Department: Geographic and Environmental Sciences (<http://louisville.edu/geogeo/undergraduate/>)
Academic Plan Code(s): AGSTCGT, AGSTCGTO

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/certificate-programs/applied-geospatial-technologies/?utm_source=uofl-catalog).

This certificate program offers an additional layer of certification to undergraduate students seeking gainful employment in the growing field of geospatial technologies. The certificate will provide an introduction to the concepts and methods of map construction and visualization, including scale, location, projection, design, symbolism, and compilation. It will provide an introduction to geographic information systems and hands-on experience using ArcGIS software, management of relational databases, and the manipulation and graphical output of digital geospatial data. Upon completion of the program, students will be fully versed in the following key areas:

- Use and application of geographic information systems programs to solve complex geospatial problems
- Use, application, and interpretation of remotely sensed data and imagery
- Use of computer programming and scripting to create custom geospatial applications
- Database storage, retrieval, and statistical analysis
- Custom digital map presentation (paper, electronic, web)

The certificate requires the completion of 12 credit hours, of which 6 are required and 6 are elective hours. See the Certificate Requirements tab for details.

Students enrolled in stand-alone certificate programs are not eligible for federal financial aid. UofL students must be enrolled in a degree granting program in conjunction with the certificate program to receive federal aid.

Admission Requirements

Students seeking the certificate must apply in, and be approved by, the Department of Geographic and Environmental Sciences. Admission to the certificate program is open to any undergraduate student with a cumulative GPA of 3.0 or higher.

Undergraduate students who are currently enrolled at UofL must be in good standing to enter certificate in Applied Geospatial Technologies program. First time freshmen, transfer, and postbaccalaureate applicants must meet the regular admission standards (<https://catalog.louisville.edu/undergraduate/admission/college-arts-sciences/>) of the College of Arts and Sciences. Courses will be approved on a case-by-case basis but must demonstrate substantive use of geospatial technologies such as GIS and/or remote sensing as an integral part of the curriculum.

Students must complete required courses for the certificate with a GPA of 2.75 or above.

Non-UofL students must meet the same requirements at an accredited institution.

Healthcare Leadership (CERT)

This program was approved for students entering the university in the Summer 2024–Spring 2025 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Certificate in Healthcare Leadership

Unit: College of Education and Human Development (<https://louisville.edu/education/>)
Department: Educational Leadership, Evaluation and Organizational Development (<http://louisville.edu/education/departments/eleod/>)
Academic Plan Code(s): HCLSCUGO

Beginning Fall 2024, this program can only be completed entirely online (<http://louisville.edu/online/programs/certificate-programs/online-healthcare-leadership-certificate/>). The Competency-Based Education Flex option is closed to admission.

This program offers academic flexibility; all program/major courses required for completion are routinely offered in accelerated format (e.g., during 8-week terms).

The purpose of the certificate program is to prepare adult learners who are working in healthcare, public health, private health insurance, health-care billing and payment, and other health-related businesses. This program is ideal for individuals who have acquired experience in the healthcare field and desire another credential for promotions within their organization, increased pay, or management and leadership roles.

This certificate will also prepare students interested in the Work Ready Kentucky Scholarship (WRKS) Program from the Kentucky Higher Education Assistance Authority to pursue careers in organizational training.

The certificate requires 12 credit hours of coursework. See Certificate Requirements tab for more information.

The program is offered in in a term option. Students enroll in half-semester courses and complete each course within a predetermined time frame. This allows students to follow a more structured and traditional university schedule while taking advantage of accelerated sessions. Two half-term sessions will be available in Fall and Spring and one session will be available in the Summer.

Students may start the program at the beginning of the Fall and Spring terms, at the beginning of the second half of the Fall or Spring terms, or in the summer semester. This allows students to start the program

several times per year, and enroll in half-semester session courses. All coursework in the must be completed within the half-semester session period. Tuition and fees in Term Option enrollments may be refunded in accordance with normal university policies.

Undergraduate students who are currently enrolled at UofL must submit a request to declare the certificate (<https://louisville.edu/advising/students/change-major/>) to enter the program. First time freshmen, transfer, and post-baccalaureate applicants must meet the regular admission standards (<https://catalog.louisville.edu/undergraduate/admission/college-education-human-development/>) of the College of Education and Human Development. This undergraduate certificate program may be completed as a stand-alone credential; however, it will not be eligible for federal financial aid. Students enrolled in degree programs and pursuing this certificate may be eligible for federal financial aid.

Students must have prior college experience (typically about 24 credits), a cumulative GPA of 2.25, and a minimum of one year's workplace experience. Applicants who do not meet these minimum requirements may be considered for conditional admission.

Students must complete an undergraduate application and provide official transcripts for all college credits earned at an accredited institution.

Certificate in LGBTQ Health Studies

Unit: College of Arts and Sciences (<http://louisville.edu/artsandsciences/intro/>) (AS)
Department: Women's, Gender & Sexuality Studies (<http://louisville.edu/wgs/>)
Academic Plan Code(s): LGBT CET

Program Information

The expansion of health care in the United States and increased awareness of LGBTQ populations have created a need for anyone working in the field of health care (as a practitioner, an administrator, an insurer, or a non-profit) to understand the specific health care needs of LGBTQ persons and common biases against them. This undergraduate certificate program provides students with knowledge about the unique healthcare needs of LGBTQ populations and the past and ongoing discrimination they face in society and the healthcare field.

The certificate requires 15 credit hours of coursework. Nine (9) hours are required, core coursework and six (6) are elective coursework. The required courses are taught by Women's, Gender, and Sexuality Studies (WGST) faculty and Philosophy (PHIL) faculty. Elective courses are taught by faculty in Communication, Philosophy, Sociology, and Women's, Gender and Sexuality Studies.

Admission Requirements

Undergraduate students who are currently enrolled at UofL must be in good standing to enter the LGBTQ Health Studies certificate program. First time freshmen, transfer, and postbaccalaureate applicants must meet the regular admission standards (<https://catalog.louisville.edu/undergraduate/admission/college-arts-sciences/>) of the College of Arts and Sciences. This undergraduate certificate program may be completed as a stand-alone credential; however, it will not be eligible for federal financial aid. Students enrolled in degree programs and pursuing this certificate may be eligible for federal financial aid.

Certificate in Peace, Justice and Conflict Transformation
Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
Academic Plan Code(s): PSCRPCP

Program Information

The undergraduate certificate in Peace, Justice & Conflict Transformation is housed in the College of Arts and Sciences but also encompasses other colleges. It is intended for students who wish to retain their planned major and minor, yet enrich their undergraduate education in a coherent manner that enhances their lives as global citizens and better prepares them for prospective employers or graduate school.

The Peace Studies program offers a 12-hour undergraduate certificate. In addition to three required PEAC courses (325, 350, 550), students choose electives from approximately 150 courses offered by the following units:

- Anthropology
- Art
- Chinese Studies
- Communication
- Comparative Humanities
- Criminal Justice
- English
- Geography and Geosciences
- History
- Latin American and Latino Studies
- Pan-African Studies
- Philosophy
- Psychological and Brain Sciences
- Political Science
- Social Change
- Social Work
- Sociology
- Sport Administration
- Sustainability

- Theatre Arts
- Women's and Gender Studies

The certificate culminates with PEAC 550, “Service Learning in Peacebuilding,” with an approved local, national, or international organization located off campus. PEAC 325 “Peace, Justice & Conflict Transformation Fundamentals” and PEAC 350 “Basic Mediation and Conflict Transformation” are prerequisites for PEAC 550 that may be taken in any order.

Admission Requirements

Undergraduate students who are currently enrolled at UofL must be in good standing to enter the PJCT certificate program. First time freshmen, transfer, and postbaccalaureate applicants must meet the regular admission standards (<https://catalog.louisville.edu/undergraduate/admission/college-arts-sciences/>) of the College of Arts and Sciences. This undergraduate certificate program may be completed as a stand-alone credential; however, it will not be eligible for federal financial aid. Students enrolled in degree programs and pursuing this certificate may be eligible for federal financial aid.

The certificate can be awarded upon graduation concurrent with a degree. To add the certificate in Peace, Justice & Conflict Transformation to your transcript you should visit the Advising website for an application for certificate in PJCT (<http://louisville.edu/artsandsciences/advising/apply/PJCT-certificate/>).

See also: How to Apply to Graduate from A&S with a PJCT Certificate (<https://louisville.edu/peace/academic-programs/files/How-to-apply-for-PJCT-certificate.pdf>)

You must also apply to graduate (<https://louisville.edu/artsandsciences/advising/appts/final-degree-check/>) with the certificate on Ulink at the beginning of the semester in which you intend to graduate with your major. You must fill out two graduation applications since this certificate is non-degree seeking. When you are ready to graduate - the link to graduate with the certificate should appear just under the link to graduate with your major.

Graduate Programs and Professional Study

The Graduate School

The Graduate School administers graduate degree programs in arts & sciences, business, dentistry, education, engineering, interdisciplinary studies, medical sciences, music, nursing, public health and social work. There are over 35 doctoral programs, more than 75 master's-level programs, and over 20 graduate certificate programs, along with Rank I programs for certified teachers.

For more information on the Graduate School, please call (502) 852-6495 or, for a complete listing of programs, refer to the Graduate Catalog (<https://catalog.louisville.edu/graduate/>).

Professional Schools

The University of Louisville includes three schools that offer professional degrees: the School of Dentistry, the Louis D. Brandeis School of Law, and the School of Medicine.

For information on pre-professional curriculum and admissions requirements of the professional schools, students should contact the Arts & Sciences Advising Center.

The School of Dentistry

In addition to an undergraduate Bachelor of Science in Dental Hygiene, the School of Dentistry offers graduate and professional degree programs. They are the Doctor of Dental Medicine (DMD), Master of Science in Oral Biology (MS), and Master of Science in Dentistry (MSD) combined with an advanced specialty certificate in endodontics, orthodontics, pediatric dentistry, periodontics, and prosthodontics.

At the time of application, DMD applicants must have completed a minimum of 60 undergraduate credit hours and a minimum of 90 undergraduate credit hours at the time of matriculation. Of these hours, 38 credit must be of biomedical science course work, including courses in biology (16), general chemistry I and II with labs (8), organic chemistry I and II with labs (8), biochemistry (3) and physics (3), along with recommended coursework in microbiology, anatomy, physiology, histology and immunology.

The master's degree in oral biology program includes graduate level courses provided by graduate faculty within the School of Dentistry. This program is directed toward a general understanding of the biology of dental science. Students obtain detailed knowledge and necessary skills required to perform biologic research. For more information, see the UofL Graduate Catalog.

The School of Dentistry offers a program of study leading to the master of science degree in dentistry for postgraduate students/residents enrolled in the advanced specialty certificate programs in endodontics, orthodontics, pediatric dentistry, periodontics, and prosthodontics.

To apply, please contact the appropriate program director of each program at louisville.edu/dentistry or contact the Office of Postgraduate Education, School of Dentistry, (502) 852-5081.

The bachelor of science in dental hygiene program is a four year program with a lower and upper division. Students complete the lower division requirements on the Belknap Campus and then apply for competitive admission to the dental hygiene upper division which is housed in the School of Dentistry on the Health Sciences Center Campus.

More detailed information about admission requirements and application procedures may be obtained at the School of Dentistry website (<https://louisville.edu/dentistry/>) or by contacting the Office of Student Affairs, School of Dentistry, (502) 852-5081.

The Louis D. Brandeis School of Law

Degree Programs

The Brandeis School of Law offers a Juris Doctor (JD) degree. The program accommodates both full-time and part-time study. Full-time students complete the JD program in three years; part time students complete in four or five years.

The School of Law also offers eight dual degree programs. These include:

- JD/Master of Arts in Healthcare Ethics
- JD/Master of Arts in Humanities
- JD/Master of Arts in Political Science
- JD/Master of Business Administration
- JD/Master of Public Administration
- JD/Master of Science in Social Work
- JD/Master of Urban Planning

Admission Requirements

To qualify for admission, candidates must earn a baccalaureate degree from an accredited institution prior to enrollment. There is no required undergraduate major and there are no pre-requisite courses. Students are encouraged to pick a major that suits their interests and to challenge themselves academically within that major. Students should choose courses that emphasize critical thinking, analysis, writing, and communication skills. These skills are necessary for the study of law. Except as noted below, all candidates must take the Law School Admission Test (LSAT) to qualify for admission.

More detailed information about admission requirements and application procedures can be obtained at louisville.edu/law/admissions/ (<https://louisville.edu/law/admissions/>), by contacting the Law School Office of Admissions at (502) 852-6391 or lawadmissions@louisville.edu.

3+3 Accelerated Law Program

The law school offers a 3+3 Accelerated Law Program for students pursuing certain undergraduate majors at the University of Louisville. Students studying Communication, Criminal Justice, History, or Women's and Gender Studies (through the College of Arts and Sciences) and Economics BA/BS (through the College of Business) may apply to begin law school during their senior year of undergraduate study. More information is available on the Accelerated Programs Page (p. 671) under 3+3 Accelerated Programs in the undergraduate catalog.

Interested students are encouraged to reach out to undergraduate advisors in one of the eligible majors for more information and to contact the Office of Admissions at the Brandeis School of Law at lawadmissions@louisville.edu.

The School of Medicine

Applicants to the first-year class of the University of Louisville School of Medicine are considered individually and are selected based on merit without consideration of race, religion, sex, age, or national origin. The Admissions Committee evaluates an applicant's acceptability based on the premedical record, scores on the Medical College Admission Test (MCAT (<https://students-residents.aamc.org/applying-medical-school/taking-mcat-exam/>)), recommendations from Premedical Advisory Committees, established technical standards for admissions and the applicant's personality and motivation as evaluated by interviews with members of the committee. Complete four-year college preparation is encouraged. Early decision program is encouraged for stellar applicants. Inquiries concerning admission should be addressed to:

Office of Admissions

Abell Administration Ctr., Rm. 413
323 East Chestnut St.
Louisville, Kentucky 40202
(502) 852-5193 or medadm@louisville.edu

Programs of medical education that award the degree of doctor of medicine in the United States and Canada are accredited by the Liaison Committee on Medical Education (LCME). This agency is sponsored by the Association of American Medical Colleges and the American Medical Association. The University of Louisville School of Medicine is a member of the Association of American Medical Colleges and is accredited by LCME.

Application Process: The University of Louisville School of Medicine participates in the American Medical College Application Service (AMCAS). Application materials are available by May at the AMCAS website (<https://students-residents.aamc.org/applying-medical-school/applying-medical-school-process/applying-medical-school-amcas/>).

Upon receipt of the application from AMCAS, the University of Louisville School of Medicine Office of Admissions will email additional application materials to qualified applicants. Completed secondary applications are due in the Office of Admissions by December 1. A processing fee is charged and is not refundable, nor can it be credited toward tuition if the applicant is accepted. The fee may be waived, however, if the applicant has received a fee waiver from AMCAS. More information about the application process can be obtained at: louisville.edu/medicine/admissions/ (<http://louisville.edu/medicine/admissions/>).

Residence status: Although applications from nonresidents are accepted, residents of Kentucky are given preference for admission. This policy is consistent with the mission of the University of Louisville as a state

university. Residency must be established prior to making application. Applications from international students, including those with "Deferred Action for Childhood Arrivals" status (DACA), are accepted. Consistent with the mission of the University of Louisville as a state university, those with significant academic, personal or family ties to Kentucky are given preference. International applicants are considered under the following circumstances:

- The applicant has a pending application for permanent residency status in the United States **and** A) is either married to a U.S. citizen who has an established residence in Kentucky and intends to remain in Kentucky, or B) has numerous members of his or her immediate family who have established residence in Kentucky indefinitely; or
- The applicant is married to the beneficiary of an approved I-140 Petition for Immigrant Worker ("I-140 spouse") and the applicant and the applicant's I-140 spouse are eligible for permanent residency except for delays stemming from backlogs in visa priority dates, and the applicant and the applicant's spouse are presently in an immigration status that is renewable until they obtain permanent residency **and** A) the applicant's I-140 spouse has an established residence in Kentucky and intends to remain in Kentucky, or B) the applicant has numerous members of his or her immediate family who have established residence in Kentucky indefinitely; or
- The applicant has been granted DACA status **and** A) is either married to a U.S. citizen who has an established residence in Kentucky and intends to remain in Kentucky, or B) has numerous members of his or her immediate family who have established residence in Kentucky indefinitely.

All decisions as to whether consideration circumstances exist in a particular application for admission shall be made by the Admissions Dean or the Dean's designee.

International students, including those with a pending application for permanent residency or with DACA status, are not eligible for most federal benefits. Therefore, if these international students are offered admission, they must submit documentation of sufficient funds to cover the cost of completing a medical degree (see estimates (<http://louisville.edu/medicine/financialaid/cost-of-attendance/>)).

The process of selecting medical school applicants involves a variety of considerations including academic, non-academic, and personal characteristics. Admission to medical school requires a strong foundation in the natural sciences (biology, chemistry, mathematics, and physics), highly developed communication skills, and a solid background in the social sciences and humanities. Specific majors are not recommended, but the undergraduate major area of study should be a careful and considered decision. All applicants to medical school must take the Medical College Admission Test. Information about the MCAT and how to apply to medical school are available at AMCAS (<https://students-residents.aamc.org/applying-medical-school/applying-medical-school-process/applying-medical-school-amcas/>). Students considering making application to the University of Louisville School of Medicine should consult the school's website (<http://louisville.edu/medicine/admissions/>) for information about their program, in addition to contacting the College of Arts & Sciences Advising Center, (502) 852-5502, to meet with a pre-health advisor.

Pre-Optometry

Students who are planning to apply to schools of optometry can fulfill the pre-optometry course requirements at the University of Louisville. The only optometry school in the state of Kentucky is Kentucky College of Optometry at the University of Pikeville (<https://www.upike.edu/KYCO/>).

Various contract spaces made available by the Kentucky Council on Postsecondary Education (<http://cpe.ky.gov/acm/apply-cs.html>). Since schools of optometry vary somewhat in their course requirements for admission, students interested in making application should select schools to which they have an interest in applying so that they can schedule courses to meet requirements for those schools. In general, students planning to make application to schools of optometry will need a minimum of three years of college coursework including a heavy concentration in the natural sciences (biology, chemistry, mathematics, and physics) as well as courses in social sciences and humanities. Many schools of optometry give preference to students who have completed a bachelor's degree; all schools require applicants to take the Optometry Admission Test.

Students considering making application to optometry school should contact the College of Arts and Sciences Pre-Health Professions Advisors (<http://louisville.edu/artsandsciences/advising/student-services/pre-health/>) for more information. Open advising sessions are scheduled during the academic year.

Pre-Pharmacy

Students who are interested in making application to a school of pharmacy can complete prerequisite course requirements at the University of Louisville. Although requirements for admission to pharmacy schools are similar, they do vary. Students should select schools to which they are interested in applying and schedule courses to meet those requirements. The University of Kentucky College of Pharmacy and Sullivan University are the only schools in Kentucky to offer a pharmacy degree. The degree program involves a four-year professional curriculum leading to the Doctor of Pharmacy degree. Pre-Pharmacy students at the University of Louisville should consult the pharmacy school's website for the undergraduate courses required for admission to this program. Admission to pharmacy schools is competitive.

Students will need two to three years of college coursework with a heavy concentration in the natural sciences in order to meet minimum prerequisites.

All applicants must take the Pharmacy College Admission Test. Students considering making application to pharmacy school should contact the College of Arts and Sciences Pre-Health Professions Advisors (<http://louisville.edu/artsandsciences/advising/student-services/pre-health/>) for more information. Open advising sessions are scheduled during the academic year.

Pre-Veterinary Medicine

Students planning to apply to schools of veterinary medicine can fulfill pre-veterinary course requirements at the University of Louisville. Since schools may vary somewhat in their requirements, students interested in making application should select schools to which they have an interest in applying so they can schedule courses to meet requirements for those schools.

There is not a school of veterinary medicine in Kentucky. However, Kentucky does have contracts with the following schools in Alabama to reserve spaces for students who are legal residents of Kentucky: Auburn University College of Veterinary Medicine (34 spaces; [vetmed.auburn.edu](http://www.vetmed.auburn.edu/)) and Tuskegee University School of Veterinary Medicine (2 spaces; tuskegee.edu/cvm) (<https://www.tuskegee.edu/cvm/>). Admission is competitive with selection made by the respective schools.

Students admitted to either the Auburn or Tuskegee program will be charged in-state tuition, with Kentucky making a payment for each enrolling student for up to four years. This is outlined by the Council on Post-Secondary Education and can be found here: cpe.ky.gov/acm/apply-cs.html (<http://cpe.ky.gov/acm/apply-cs.html>)

Students interested in making application to schools of veterinary medicine should contact the College of Arts and Sciences Pre-Health Professions Advisors (<http://louisville.edu/artsandsciences/advising/student-services/pre-health/>) for more information. Open advising sessions are scheduled during the academic year.

ACCT 402. CPA Prep: Financial Accounting and Reporting (FAR) 3 Units**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** Accounting Major or Minor Students.**Fee:** An additional \$30.00 is charged for this course.

Description: Financial Accounting and Reporting (FAR) is one of three core CPA Exam sections required of all CPA candidates. FAR focuses on the financial statements for both for-profit companies as well as not-for-profit organizations. That includes topics like SEC reporting and earnings per share; financial ratios and performance metrics, both calculating them and interpreting what they mean; deep dives into balance sheet accounts like cash, receivables, investments, payables, and equity; and a wide range of financial transactions like revenue recognition, accounting changes, and fair value measurement. Data and technology concepts: verifying the completeness and accuracy of source data used to prepare financial statements; using various sources of information to prepare supporting schedules for account balances.

ACCT 403. CPA Prep: Auditing and Attestation (AUD) 3 Units**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** Accounting Major or Minor Students.**Fee:** An additional \$30.00 is charged for this course.

Description: Auditing and Attestation (AUD) is one of three core CPA Exam sections required of all CPA candidates. AUD starts with the ABCs of auditing: the AICPA code of professional conduct and other ethical requirements. This section also covers the COSO framework, internal controls, and assessing risk and materiality. AUD follows the entire audit process, including pre-engagement activities and planning the audit; audit procedures, gathering appropriate evidence, and sampling; and forming audit opinions and preparing reports. Data and technology concepts: understanding how data is structured and flows through underlying systems; analyzing the outputs of data analytic tools to assist in risk assessment or audit procedures.

For class offerings in a specific semester, refer to the Schedule of Classes (https://csprd.louisville.edu/psp/ps_class/EMPLOYEE/PSFT_CS/c/COMMUNITY_ACCESS.CLASS_SEARCH./x/?state=62dab551a0d600a5e8237359c50704e59007&duo_code=sjUx20STj21bIWVEuQ3Z1YRjHmfxpqoV).

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings

may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (<https://louisville.edu/bursar/tuitionfee/university-fees/>).

ASNB 491. Undergraduate Neuroscience Research**1-3 Units****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** PSYC 201, or permission of instructor.**Description:** This is the basic course for granting course credit to undergraduates participating in laboratory research. Students engage in laboratory research activities for 3 hours per week per credit hour (e.g., students enrolled in 3 credits complete 9 hours of laboratory research activities per week).For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**ASNB 492. Undergraduate Neuroscience Research - CUE****3 Units****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** PSYC 301 and PSYC 355; declared Neuroscience major.**Description:** This course is a variation of ASNB 491, one that grants CUE credit. In addition to 9 hours per week of research activity, the student must read 10 research articles over the course of the semester, meet with their mentor regularly, and create and present their findings at a departments seminar or research symposium.**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**ASNB 495. Honors Neuroscience Research****3 Units****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** Acceptance to the Neuroscience Honors Program (University Honors students can also enroll) and consent of instructor (i.e., consent of the faculty research mentor).**Description:** This course involves the designing of experiments and collection of data in support of the honors thesis. This research course is the first in a series of two intended to yield a thesis for Honors in Neuroscience. The major focus in the first semester is to write a formal thesis proposal, have it approved, and begin data collection.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ASNB 496. Honors Neuroscience Thesis - CUE, WR 3 Units**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** ASNB 491 or ASNB 495; admission to Neuroscience Honors Program (University Honors students can also enroll) and consent of instructor (i.**Description:** e., consent of the faculty research mentor). Students enroll in this course in the semester that they intend to submit their Honors thesis. In order to complete this course (and earn Neuroscience Honors), the student must: 1) Form a thesis committee of three faculty, including the mentor; 2) Write a thesis paper describing the methods and results of an independent research study; and 3) Complete an oral defense and adequately address committee requests for revisions to the written thesis document.**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ASNB 502. Fundamentals of Neuroscience 3 Units**Term Typically Offered:** Fall Only**Prerequisite(s):** PSYC 355 or permission of instructor.**Description:** Basics of cellular and systems neuroscience are taught through a combination of lectures and laboratories. Topics include: electrical potentials in the nervous system, synaptic transmission, somatosensory pathways, special senses (vision, hearing, balance, taste, and smell), eye movements, motor systems and higher functions (language, sleep and wakefulness, cognition, emotion and memory).**Note:** Credit may not be earned in both ASNB 502 and ASNB 602.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ASNB 514. Molecular Neuroscience - CUE 3 Units**Term Typically Offered:** Fall Odd Years**Description:** Prerequisites or corequisites: ASNB 502, BIOL 241, BIOL 329, BIOL 415, Instructor Permission The purpose of this course in Molecular Neuroscience is to explore the molecular and cellular basis of nervous system development, function and diseases. The course will provide intellectual tools and skills to evaluate novel hypotheses and mechanisms in neuroscience. Special emphasis of the course will be to provide basic technical knowledge and tools to apply molecular biology concepts in the ongoing research in any area of neuroscience.**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ASNB 517. Seminar on Developmental Neurobiology - CUE 3 Units**Term Typically Offered:** Spring Even Years**Prerequisite(s):** ASNB 502, and BIOL 329 or ASNB 514.**Description:** The purpose of this course is to provide the student with a basic understanding of the processes and mechanisms of neural development. Specific topics include emergence of the neural primordium, patterning and growth of the nervous system, neuronal determination, axonal navigation and targeting, neuron survival and death, synapse formation, synaptic refinement and the formation of specific connections.**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

ASNB 530. Origin of Mammalian Sensory Systems and Comparative Neurobiology - CUE 3 Units**Term Typically Offered:** Fall Even Years**Prerequisite(s):** PSYC 305, or permission of instructor.**Description:** This course examines the phylogenetic and developmental history of the mammalian senses with a focus on the integration of anatomy, neurobiology, and fossil evidence. We will study how our understanding of non-human vertebrates (both model and non-model organisms) can provide important insights into the structure and function of the modern mammalian senses and their brain correlates.**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ASNB 566. Synaptic Organization of the Central Nervous System - CUE 3 Units**Term Typically Offered:** Spring Odd Years**Prerequisite(s):** ASNB 502.**Description:** The purpose of this course is to provide the student with a basic understanding of synaptic circuits and the techniques used to study them. Each week we will focus on a different brain region or circuit. During the first meeting of each week the instructor will provide an overview of the topic which includes both lecture and reading material. During the second meeting of each week, students will meet with a graduate student teaching assistant to review and discuss the course material presented that week.**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

ANTH 111. Applied Mathematics for Understanding Science and Evolution - QR, S 4 Units

Term Typically Offered: Fall Only

Prerequisite(s): Appropriate placement score or equivalent coursework.

Description: Any understanding of human evolution requires knowing how each fact is supported by verifiable data, and mathematics is a primary tool for any scientific investigation of the evolution of human variation. This class will develop and apply mathematical techniques and models used to investigate and describe the distribution of human biological variation.

Note: Cross-listed with MATH 106.

ANTH 201. Introduction to Cultural Anthropology - SB, D2 3 Units

Term Typically Offered: Fall, Spring, Summer

Description: This course introduces cultural anthropology and surveys its fundamental questions, concepts, methods, and data. The overall question it seeks to answer: what does it mean to be human? To answer this question and many related ones involves learning concepts such as culture, cultural relativism, universal-ism, evolution, race, gender, and class. The course explores the way cultural anthropologists develop their research questions and the methods and data they use to answer them.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 202. Biological Anthropology - S 3 Units

Term Typically Offered: Fall, Spring, Summer

Description: This course provides a general introduction to biological anthropology through an examination of humans in the animal kingdom, the human evolutionary past, anthropological genetics, a comparative examination of primate and hominin fossils, and the dynamics of human variation and human adaptation.

Note: Credit is not allowed for both ANTH 202 and ANTH 207.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 203. Archaeology of Human History - D2, SBH 3 Units

Term Typically Offered: Fall, Spring, Summer

Description: Archaeology is about discovery and learning how and why people of the past made things, what people ate, where they settled, how they used the land and sea, how they organized their societies and economies, and the nature of their religious practices and ideologies. This course emphasizes the history of archaeological endeavors, the theories that guide archaeological research and the methods and tools used by archaeologists to study the lifeways of the past.

ANTH 205. Music in World Cultures - SB, D2 3 Units

Term Typically Offered: Fall, Spring, Summer

Description: General introduction to the world of music covering basic elements of music along with the socio-cultural aspects of music and music-making from an ethnomusicological perspective.

Note: Cross-listed with MUH 205.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 206. Principles of Archaeology - B 4 Units

Description: This course introduces students to the science of archaeology. We will cover the practical ways in which various sciences and technologies that contribute to our knowledge of how the world works also make possible our interpretation of the archaeological record. In addition to lecture, students will have the opportunity to actively explore and better understand archaeological methods in a laboratory setting.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 207. Principles of Biological Anthropology - B 4 Units

Description: This course provides a general introduction to biological anthropology through an examination of the place of humans in the animal kingdom, the human evolutionary past, a comparative examination of primate and hominid fossils, and the dynamics of human variation and human adaptation. In addition to lecture, students will have opportunity to actively explore and better understand the methods of biological anthropology in a laboratory setting.

Note: Credit is not allowed for both ANTH 202 and ANTH 207.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 252. People and Their Food-SBD2 - D2, SB Term Typically Offered: Fall Only Description: Everyone eats but we eat such different things. This course examines the reasons why, across the globe, we meet our common nutritional needs in so many different ways. We explore food and foodways as products of soil, politics, and culture. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 310. Race, Culture, Identity Term Typically Offered: Occasionally Offered Description: The course focuses on the concept of race—a key element in the social science and historical literature as well as a primary marker in the organization of American life. The course considers race as a historically constructed and defined concept and considers the way it is constructed in various societies. The course examines the use of racial categories over the last 200 years and their links to gender, political and social trends, ethnicity and nationalism. Note: Cross-listed with PAS 368.	3 Units
ANTH 303. Human Origins Term Typically Offered: Spring Only Description: Study of the forces of evolution that shape both genetic and phenotypic human variability and exploration of the fossil record related to the evolution of modern humans. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	
ANTH 304. Prehistoric Archaeology of Europe - SBH Term Typically Offered: Spring, Fall Odd Years Description: Prehistory of Europe from the earliest occupation around a million years ago to the Iron Age; includes peopling of Europe, Neanderthals' ecology, Upper Paleolithic creative explosion, spread of farming, trade, and rise of complex societies. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 311. Emergence of Human Culture - SBH Term Typically Offered: Fall Only Description: Origins and development of human culture from Paleolithic to 10,000 years ago; early hominid evolution, peopling of the world, Neanderthal behavior and replacement by modern humans; emergence of modern culture. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 307. Darwin Term Typically Offered: Fall Only Description: Darwin's work in its historical and intellectual milieu; his commitment to empirical support for his theory of evolution. The social controversy associated with misunderstanding evolution today. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 312. Rise of Civilization Term Typically Offered: Occasionally Offered Description: Focuses on sedentarization and rise of agriculture; resource intensification and domestication; emergence of inequality, complex societies, and states. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 308. Primates Term Typically Offered: Spring Only Description: Survey of primate behavior, ecology, and culture. Focus on violence and aggression, kin selection, altruism, evolution and sex, the developmental cycle, language, cognition, and male and female social behavior. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 313. Studies in Ethnomusicology - D2, SB Term Typically Offered: Fall, Spring, Summer Description: General introduction to the world of music and field of Ethnomusicology. Students will learn basic elements of music and various socio-cultural aspects of music and music-making from an ethnomusicological perspective. Note: Cross-listed with MUH 313.	3 Units
ANTH 309. Sex, Gender and Culture Term Typically Offered: Fall, Spring, Summer Description: A cross-cultural perspective on the interactions among sex, gender, and culture, including feminist/gender theory, the socially-constructed aspects of biological sex, intersex and gender-non-binary, masculinity studies, sexuality, and heteronormativity, with emphasis on US and non-U.S. cultures. Course work will include independent reading and writing assignments. - ANTH 315. The Anthropology of Europe - SB** 3 Units
Term Typically Offered: Occasionally Offered
Description: This course is an examination of how European cultural, social, political and economic systems vary across space and through time. It focuses attention on ethnography and historical ethnology, and draws on other social science resources, as well. The varying relationships between political, economic and cultural cores and edges are given special emphasis. Overall the course challenges a number of assumptions about what Europe is and has been.
For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)
- ANTH 317. Contemporary Chinese Society - D2, SB** 3 Units
Term Typically Offered: Fall, Spring
Description: It is widely acknowledged that China is a rising power in the global political economy. However, with the coexistence of tradition and modernity, the nature of Chinese culture and society remains heavily debated. This course introduces students to a wide range of topics and issues that constitute the socio-cultural fabric of contemporary mainland Chinese society. These topics include, but are not limited to, family, gender, ethnicity, religion, education, politics, and economics. Our investigation will focus on two broad themes: 1) the unity and diversity of Chinese society, and 2) the continuity and change that took place from late traditional China to the present. The goal of this course includes learning various aspects of Chinese culture and society, examining diverse anthropological approaches to the study of China, and exploring the political dimensions of representation.
Note: Cross-listed with AST 317.

- ANTH 319. Cultures of the Middle East** 3 Units
Term Typically Offered: Fall Only
Description: The term "Middle East" refers to a geopolitical and cultural area. This course examines the anthropological literature on the region to identify, probe, and analyze socio-cultural patterns and processes across a broad region of considerable complexity. The course explores what shared patterns of cultural and social life make this a region and promote cultural integration and what are the factors that produce difference and complexity. Focus is on local-level social and cultural processes contextualized within a regional and global framework.
For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)
- ANTH 320. Indigenous Peoples of North America - D1, SBH** 3 Units
Term Typically Offered: Fall Only
Description: Survey of North American indigenous people before and after European contact with a focus on the impact of colonialism on Indian nations and their relationships with the American state. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)
- ANTH 321. American Indian Women** 3 Units
Term Typically Offered: Spring Only
Description: This course analyses issues effecting contemporary American Indian women living and working in rural and urban communities throughout North America. In reading about lives, achievements, and contributions of American Indian women, often in their own words, we will see how they traveled the road to where they find themselves today and how their origins and traditions helped to shape their lives. The course will look at issues dealing with the roles of American Indian women within their societies, in education, in tribal politics, health issues, and stereotypes that persist in non-Indian societies.
For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)
- ANTH 322. Archaeology of North America - SBH** 3 Units
Term Typically Offered: Spring Only
Description: North America was home to many dynamic prehistoric and historic cultural traditions expressed in the diversity of social, religious, and economic life ways. We will use archaeological and ethnohistorical data in a cross-cultural comparative examination of Native North American cultures from the initial peopling to European contact. More generally, we will explore ways in which the Native North American past has served as a laboratory for the development of anthropological theories of human behavior.
For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)
- ANTH 323. Cultures of Africa - D2, SB** 3 Units
Term Typically Offered: Spring Only
Description: This course provides an introduction to the ethnography of postcolonial cultures in sub-Saharan Africa. We will examine cultural, historical, political, and socio-economic factors that shape life in several countries, specifically exploring the complexity and diversity of everyday life in urban areas. The course will be centered upon a series of ethnographic readings, films, and case studies meant to introduce students to the diversity of social worlds and experiences across this broad region. We will focus on a series of core concepts and topics across the semester, including post-coloniality, development and economics, globalization, migration and mobility, activism and politics, informality, and urban space.
Note: Cross-listed with PAS 383.

ANTH 324. Iberian Anthropology Term Typically Offered: Occasionally Offered Description: Iberia's ambiguous status regarding Europe and North Africa, analyses of cultural, social, political, economic and ecological variation and continuities within Iberia and between the peninsula and other areas. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 329. Zooarchaeology Term Typically Offered: Occasionally Offered Description: Identification of animal remains at archaeological sites, examines approaches using bone data to construct and investigate archaeological questions. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 325. The Anthropology of Latin America - D2, SB Term Typically Offered: Occasionally Offered Description: Exploration of culture and society in South and Central America, Mexico, the Caribbean, and the U.S. An overview featuring in-depth case studies highlighting topical themes. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 330. Urban and Historic Archaeology Term Typically Offered: Occasionally Offered Description: An examination of the history of North America through archaeological remains. Includes historic artifacts, architecture, and settlement patterns as related to cultural history. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 326. African Archaeology Description: African hosts the oldest record of human biological and cultural evolution. This course provides a general survey of the African Archaeological record, covering the time span from 3.3 million years ago to the beginning of complex societies. Archaeological relics and hominin fossil remains from different parts of the continent will be considered in order to demonstrate how early human life-ways have changed over time in terms of cultural innovations, subsistence behavior and social organizations. An overview of major ancient African civilizations and their main achievements will be discussed in the concluding segment. Note: There is no prerequisite to enroll in this course. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 331. Anthropology of Religion Term Typically Offered: Occasionally Offered Description: This course in the anthropology of religion explores religious systems from a comparative and holistic perspective. We will look at how anthropologists approach the topic conceptually using case studies and examples from around the world. The course examines the psychology of religion, myths and symbols, rituals and art, religious language and beliefs, ethics, social behavior, and the effects of globalization and culture change on religious systems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 327. The Human Skeleton Term Typically Offered: Spring Only Description: The scientific and ethical use of human skeletal remains to determine specific information about a deceased individual. Emphasis will be placed on the musculo-skeletal system, bone identification, and bone development. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 332. Ecology, Politics and Culture Term Typically Offered: Fall Only Description: Examines the interaction between natural environments, sociocultural systems and power relations. Uses case studies from around the globe to illustrate this interaction. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 328. Environmental Archaeology Prerequisite(s): Sophomore standing or above. Description: This course addresses climate history and long-term patterns of change in human adaptation throughout the past 130,000 years, a time span that saw important milestones in human evolution. Common sources of data for reconstructing ancient climate and environments (such as botanical, faunal, geological and isotopic approaches) will be considered to demonstrate how archaeologists study past human relationship with the natural environment. Other topics to be discussed include causes and consequences of past glaciations, past human diet, and conditions that fostered the inception of food production. The course concludes with an overview of environmental disasters, global warming and the impacts of colonialism and industrialization on the environment. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 333. Globalizing Inequalities - WR Term Typically Offered: Occasionally Offered Prerequisite(s): ANTH 201, or SOC 201, or SOC 202, or faculty consent. Description: One popular story about globalization holds that human beings have been like boats all rising together on a globalizing tide. The course uses data and perspectives from across the social sciences to develop a more realistic story-one that understands that people are not boats and that tides can alternately lift them up or beat them down, refresh them or drown them depending on the circumstances. Questions about those circumstances structure the course. Another question addressed by the course; how can knowing more about globalization and in/equality help us develop the human career in different possible directions? The readings and other materials vary greatly by period, by geographical focus, and by analytical perspective. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR). Note: Cross-listed with SCHG 333. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

ANTH 337. Nationalism, Violence, and the State Term Typically Offered: Spring Only Description: This course examines the development of the modern nation-state and its connections to violence. The course considers the processes, ideologies, and mechanisms of state-sanctioned violence, interethnic/racial violence, pogroms, massacres and warfare in historical and contemporary contexts. The course also considers the efforts of international agencies in the establishment of courts and the allocation of punishments and formal mechanisms countries have utilized to resolve conflict. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 343. Language and Culture - D1, AH Term Typically Offered: Fall, Spring, Summer Description: An ethnographic perspective to the study of language, investigating how it is used to create and maintain social institutions and rituals, and how it is differentiated across genders and ethnicities. Note: Cross-listed with ENGL 330 and LING 330. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 338. Anthropology of Refugees Term Typically Offered: Spring Only Description: The course addresses forms of forced migration, including refugees, internally displaced persons, and those displaced by development and disasters. The course is organized around four broad themes; defining and conceptualizing refugees and forms of international intervention; anthropological theory of mobilities and displacement; and applied anthropology. The course covers theoretical implications of displacement central to the anthropological concern with transnational movements, mobility, identity, and belonging and the notion of the ethnographic field. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 344. Anthropology of Clothing Term Typically Offered: Fall Only Description: Class will study how fashion and clothing are a means of understanding culture and identity; explores meaning of production and consumption of clothing globally. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 339. The Anthropology of Space and Place Term Typically Offered: Occasionally Offered Description: Does where you are have anything to do with who you are? Course examines whether different spaces such as nation-states, regions, towns, and neighborhoods have anything to do with cultural difference and similarity. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 346. Sustainability: Anthropological Perspectives Description: Decision makers often target growth, mostly measured by economic indicators, as the cure-all solution to a myriad of economic, ecological, and social challenges. However, growth without consideration of the environment or social equity often leads to recurring crises. This course considers environmental, social, and economic challenges that we face from a different angle: How can we meet the needs of the present without compromising the ability of future generations to meet their own needs? The goal of this course is to foster systems thinking and take a holistic approach to explore theoretical and practical issues and solutions related to environmental, social, and economic sustainability. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 342. Museums, Culture and Nationhood Term Typically Offered: Occasionally Offered Description: Examines the historical and cultural dimensions of museums; explores representations of ethnic groups in museum settings and public culture. Note: Cross-listed with PAS 345. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 347. Global Capitalisms Term Typically Offered: Spring Only Description: The course adopts an interdisciplinary approach to explore how capitalism is organized, practiced or resisted. It seeks to understand capitalism as historically situated and culturally-informed practices in different world regions. Note: Cross-listed with AST 347. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
		ANTH 348. State & Empire Description: The argument: that states and empires lie at the heart of the social sciences, of the humanities, and of our everyday lives. The devil lies mainly in the details. Different states and empires serve as examples, with specific foci depending on the instructor's expertise. Stressed: how older empires haunt newer ones. Also emphasized: colonization and empire work as much "at home" as they do "abroad". The course is organized to keep problematical character of states and empires in our sights. It is organized, that is, to suggest that states and empires may often present where we ordinarily do not look for them. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

ANTH 349. Modes of Consciousness Term Typically Offered: Occasionally Offered Description: This course is devoted to examining how consciousness mediates between humans and the wider material world. While all of the concepts central to anthropology and the other social sciences—culture, society, evolution, history, mind, politics, economics—are premised in consciousness, the premise receives attention only sporadically. The attention that has been paid reveals that consciousness is not uniform. It has various modes. Thus the course focuses on these. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 354. Anthropology of Infectious Disease Term Typically Offered: Fall Only Description: Anthropology helps us understand our species across time and space from cultural and biological perspectives, and when investigating how infectious disease affects our species we must use the same perspectives. A bio-cultural approach on past and present infectious disease creates a more comprehensive and holistic scenarios when reconstructing the impact of pathogens on human populations. The course covers four paradigmatic infectious diseases: plague, leprosy, tuberculosis, and cholera. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 351. Medical Anthropology Term Typically Offered: Spring Only Description: The study of health in cultural and environmental context, and cultural diversity in beliefs and behavior relating to health and healing. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 355. Black Death: The Pandemic that Changed Human History Term Typically Offered: Fall Even Years Description: The Black Death of the fourteenth century is, perhaps, one of the most studied and discussed pandemics in human history, but still we are trying to answer different questions such as: Where did it start? How accurate is retrospective diagnosis? How did different societies and countries react against the Black Death? What were the religious and social responses to the Black Death? How did the Black Death change human populations and lifestyles? The interplay and dialogue among disciplines such as history, anthropology, and biology help us to understand how infectious diseases affect our species, and a bio-cultural approach will create a more comprehensive and holistic scenario when reconstructing the impact of epidemics on human populations. Note: Cross-listed with ANTH 555. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 352. Food and Body Politic Term Typically Offered: Fall Only Description: This course takes an interdisciplinary approach to the study of food. The course examines food and food-ways as products of soil, culture and politics. The study of food reveals much about social relations (family, gender and work) as well as national and international health, economic and environmental policy. Students will consider the forces that have shaped the food system and our daily food choices, or lack thereof. In particular, the course traces the evolution of the industrial food system in America and the impact this system has on our health, identity, environment, worker's rights, natural resources, animals, crop diversity and more. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 356. Dental Anthropology Term Typically Offered: Fall, Spring, Summer Prerequisite(s): none Prerequisites or corequisites: none Corequisite: none This course is divided into two modules. Description: In the first module, you will learn about dental anatomy, morphology, histology, growth and development, dental wear and dental pathology, as well as methodological approaches to studying teeth. The second module will be topical, providing cases studies covering anthropological themes and questions investigated through data from teeth, such as trends in human evolution, microevolution (e.g., migration and gene flow), early life stress and life histories, health, disease and nutrition, forensic anthropology, and more. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 353. Evolutionary Anthropology Term Typically Offered: Occasionally Offered Description: An evolutionary anthropologist works to understand human biology and genetics using the framework of evolutionary theory to test explicit hypotheses regarding human variation. This course will review basic evolutionary theory and provide an introduction to the field of evolutionary anthropology. Special emphasis will be placed on the importance of hypothesis testing. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 361. Special Topics in Anthropology Term Typically Offered: Spring Only Description: Intensive study of a particular area of either archaeology or sociocultural anthropology, to be announced in the schedule. Note: May be repeated as topics vary, but no more than two courses will be accepted toward the major. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

ANTH 362. Special Topics in Cultural Anthropology Term Typically Offered: Fall, Spring Description: An examination of one or more specific areas of social-cultural anthropology. Details announced each semester. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1-3 Units	ANTH 378. Lithic Technology Term Typically Offered: Occasionally Offered Prerequisite(s): Sophomore standing or above. Fee: An additional \$25.00 is charged for this course. Description: This course provides an introduction to the study of stone tool technology. Topics to be covered include broad examination of major changes in stone tool technology during the course of human prehistory (~3.3 million-10,000 years ago), analytical approaches commonly employed by archaeologist to interpret the lithic record, and experiential learning through knapping and lab exercises. In addition to the hands-on exercises, the course material is supported by films, and required readings from the textbooks and journal articles. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 363. Special Topics in Biological Anthropology Description: An examination of one or more specific areas of biological anthropology. Details announced each semester. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1-3 Units	ANTH 379. Ceramic Analysis Description: Pottery is abundant in many archaeological sites, and the study of pottery has a long history in archaeology. Analysis and interpretation of ceramics has been used by archaeologists to accomplish varied ends: to establish a time scale, to document interconnections between different areas, sites or groups of people, and to suggest what activities were carried out at particular sites. Archaeologists also use ceramics as a basis to understand the organization of ceramic production itself as an important activity. The varied means that archaeologists use to bridge the gap between the recovery of ceramics and their interpretation is the focus of this course. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 364. Special Topics in Archaeology Term Typically Offered: Fall, Spring Description: An examination of one or more specific areas of archaeology. Details announced each semester. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1-3 Units	ANTH 380. Ice Age People: Colonization of the Americas - SB Term Typically Offered: Fall Only Description: It is widely accepted that the first Americans came into the New World sometime before 12,000 years ago, when the earth was in an Ice Age. Beyond this, little is certain. Anthropologists use artifacts to piece together the story of who the initial colonists were, where they originated, when and how they got here, and how they adopted to their new landscape. The goal of this course is to explore the contributions of archaeology, human genetics, paleoanthropology, linguistics, vertebrate paleontology, and paleogeography in peopling of the Americas research. We will discuss how the evidence provided by these disciplines is used in the search for Ice Age Americans. In other words, how researchers use prehistoric artifacts to build ideas about the prehistory of America. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
ANTH 374. Forensic Anthropology Field School Term Typically Offered: Fall, Spring, Summer Prerequisite(s): ANTH 327 or ANTH 410 or ANTH 512. Description: Students will receive experimental training in survey, excavation, documentation, and analysis of a forensic crime scene. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 381. Geoarchaeology Term Typically Offered: Spring Even Years Description: A firm grasp of geologic principles is essential for interpreting prehistoric archaeological sites, and this course provides students with a basic understanding of geoarchaeology. No prior geologic or archaeological knowledge is required to take this course. The course begins with the basics of sediments, soils, stratigraphy, and dating. This is followed by discussion of different depositional environments and their impacts on the archaeological record. Key topics include site formation processes, landscape reconstruction, and interpretation of climate change. Note: Cross-listed with ANTH 581.	3 Units
ANTH 376. Quantitative Analysis in Anthropology Term Typically Offered: Fall Even Years Description: This course provides an introduction to the use of quantitative analysis methods in anthropological research. Topics will include descriptive statistics, hypothesis testing, and multivariate statistics. The course will focus on choosing the appropriate statistical tests to answer specific research questions, proper interpretation of results, and visual and graphical methods for displaying results. This course is not intended to be an advanced math class, and derivation of statistical tests will not be covered in detail. However, students will be expected to gain an understanding of the logic and assumptions behind each test, when it should be used, and how results should be interpreted. Note: Cross-listed with ANTH 576. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	ANTH 387. Field Methods in Archaeology Term Typically Offered: Occasionally Offered Prerequisite(s): Permission of instructor. Description: A field course in which students participate in site survey and excavation. Requires 35 hours a week in the field and a paper. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2-6 Units

ANTH 384. Anthropology of Death Description: Students will learn how anthropologists (cultural anthropologists, biological anthropologists, and archaeologists) employ theory, methods, and data to understand past and present societies through their treatment of the dead. Through in-class discussions, community-engaged activities, and culminating projects, students will learn how death is fundamentally transformative - how it physically transforms human landscapes, how it inevitability transforms societies, and how its passage transforms populations directly and indirectly affected. Note: Cross-listed with ANTH 584.	3 Units	ANTH 450. Readings and Research Term Typically Offered: Fall, Spring, Summer Prerequisite(s): 9 hours in Anthropology or related areas and department chair consent. Description: Supervised readings and research centered around a specific region or topical field of the student's choice. Note: May be repeated for a maximum of 6 hours.	1-3 Units

ANTH 401. Cooperative Internship in Anthropology Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Permission of the Anthropology department faculty internship coordinator or department chair. Description: An assignment with a public agency or business. A written report or project is required. Note: May be repeated. Note: Three hours may apply to Anthropology major or minor. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.	3 Units	ANTH 451. Independent Study Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Minimum grade point average of 3.0 overall; minimum grade point average of 3.5 in the department, and at least 18 semester hours credit in the department. Engaged Anthropology - CUE Term Typically Offered: Spring Only Prerequisite(s): Junior standing and 15 credits in Anthropology or permission of instructor. Description: In this course, students will explore anthropology as a profession and discipline that engages the public and contemporary issues and examine how majors use the knowledge and skills of an anthropology degree in the professional world. The purpose of this course is to enable students to make connections across sub fields, synthesize their understanding of anthropology, and think critically about its place in our communities and the world. The course will be team-taught and will cover the three sub-fields in the department: Cultural Anthropology, Biological Anthropology, and Archaeology. Course activities will include field trips, engagement with local organizations, and guest lectures. This course will also include a practicum intended to prepare anthropology majors for a successful job search or graduate school application in which students will learn to articulate the knowledge and skills they have acquired during their undergraduate degree. Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.	3 Units
ANTH 410. Skeletal Forensics Term Typically Offered: Spring Only Prerequisite(s): ANTH 327. Description: Details advanced recovery methods, the use of anthroposcopic and metric traits to estimate race, age, sex and stature. Various forms of trauma and postmortem changes to bone are highlighted. Specific aspects of individualization and positive identification are assessed. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	
ANTH 430. Practicum in Anthropology Education Term Typically Offered: Occasionally Offered Prerequisite(s): Permission of instructor required. Description: A practical learning experience in active learning pedagogy and practices in anthropology education. This course includes experiential learning as a peer educator/undergraduate teaching assistant. Note: Must be selected by instructor for anthropology UTA to enroll.	1 Unit	ANTH 499. Senior Honors Thesis Term Typically Offered: Fall, Spring Prerequisite(s): Senior class standing, major in anthropology; admission to Anthropology Department honors program. Description: To be taken only with consent of a member of the departmental faculty who agrees to act as thesis adviser. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

ANTH 507. Space, Place and Culture**3 Units****Term Typically Offered:** Occasionally Offered**Prerequisite(s):** Graduate status, or consent of instructor.**Description:** This course is organized around the question of how culture is spatially distributed. How are specific spaces and places constructed, connected, and interpreted through cultural practices?For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**ANTH 508. History of Anthropology - CUE, WR****3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** Senior status, and 18 hours of Anthropology credits.**Description:** The course provides an integrated introduction to a history of theory and practice in anthropology. Interleaving examples from cultural, archaeological, and biological anthropology, the course delves into understanding anthropological work as the production of knowledge. Encountering elements from the traditional corpus of anthropological literature, as well as contrarian pieces, students will refine their abilities to hold an informed anthropological perspective, even as they reconcile and come to understand inconsistencies in the past practice of anthropology. This course is designed to furnish a strong basis for postbaccalaureate study and applied anthropological practice.**Note:** Anthropology graduate students cannot enroll in this class.**Note:** Approved for the Arts and Sciences upper-level requirement in written communication (WR).**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. Methods in Skeletal Forensics - WR****3 Units****Term Typically Offered:** Occasionally Offered**Prerequisite(s):** ANTH 202 or ANTH 204, and ANTH 327, and ANTH 410.**Description:** This course trains students in the methods for documenting and preparing a skeletal forensics analysis report. Students will analyze a set of skeletal remains of an "unknown" individual or individuals, catalog and enter each element into a database for analysis, analyze the results, and write a report of the unknown individual(s) including species, age, ancestry, stature, sex and any trauma or pathologies present. Students will produce a documented report of the remains that could be entered as evidence and stand scrutiny of a court or coroner's rendering.**Note:** Approved for the Arts and Sciences upper-level requirement in written communication (WR).For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**ANTH 517. Anthropology of China****3 Units****Term Typically Offered:** Fall Only**Prerequisite(s):** Graduate standing or permission of the instructor.**Description:** It is widely acknowledged that China is a rising power in the global political economy. However, with the coexistence of tradition and modernity, the nature of Chinese culture and society remains heavily debated. This course explores a wide range of topics and issues that constitute the socio-cultural fabric of contemporary mainland Chinese society. These topics include, but are not limited to, family, gender, ethnicity, religion, education, politics, and economics. Our investigation will focus on two broad themes: 1) the unity and diversity of Chinese society, and 2) the continuity and change that took place from late traditional China to the present. The goal of this course includes learning various aspects of Chinese culture and society, studying diverse anthropological approaches to the study of China, and examining the political dimensions of representation.**Note:** Cross-listed with AST 517.**Note:** Students may not receive credit for this course and ANTH 317 or AST 317.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 522. Ecology, Politics and Culture**3 Units**

Description: This course examines the relations between ecology, economic system, culture, ideology and power relations. The focus moves back and forth between theoretical synthesis and case studies. The case studies are both ethnographic and historical. A few of the themes treated in detail: the role of religious ritual in regulating certain environments; the mutual influences of ecology and political economy in the making of "the Third World"; the local and global politics of national parks; combined and uneven development. Stress is laid on political ecology as a complex, shifting, analytical framework. Questions of sustainability weave in and out of the proceedings. Also emphasized: the story of ecological analysis over the last seventy years is a story about changing relations between anthropology and other social sciences. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 526. Archaeology as Practice**3 Units**

Prerequisite(s): ANTH 204.

Description: This course focuses on the analytical techniques that archaeologists use to study the past. Students will learn the practice of archaeology emphasizing modern methods of survey, excavation and analysis used to investigate the past. By the end of the course, students will have learned how to construct their own research plan, collect and analyze their data and draw inferences about the past. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 528. Animals and Humans**3 Units**

Description: This course explores the complex and often contradictory ways that humans interact with animals. We cover a range of topics emerging from a multidisciplinary perspective including the origins of hunting and domestication; modern animal economies; cross-cultural attitudes toward animals; symbolic representations of animals in art, literature, religion and folklore; animals as companions; and the status of animals, both wild and domestic, in contemporary society. Students will gain a broad, cross-cultural perspective on the relationship humans have with the rest of the animal kingdom, focused mainly on other mammals. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 529. Zooarchaeology**3 Units**

Prerequisite(s): Graduate student status.

Description: The course will provide basic instruction in the identification of animal remains commonly recovered from archaeological sites. It will follow a taphonomic approach to zooarchaeology with an emphasis on understanding and interpreting the formation of archaeological faunal assemblages. The course examines approaches to using bone data to construct and investigate archaeological questions. Students will engage in hands-on identification and interpretation of animal remains commonly found in archaeological sites.

ANTH 530. Human Impacts on Past Environments**3 Units**

Prerequisite(s): Graduate status, or consent of instructor.

Description: This course is about the archaeological and paleoecological record of past human impacts on Earth. We will explore a number of concepts regarding socio-natural systems including land degradation, perception, resilience and sustainability. The course will provide a background for understanding the ways archaeologists and paleoecologists reconstruct past environments and recognize human impacts. We will examine a number of global case studies and discuss the possible lessons for current and future decision-making in human land-use.

ANTH 534. Food and Farm Movements in the Americas**3 Units**

Description: An overview of social and political activism associated with agriculture and food.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 535. Nutritional Anthropology**3 Units**

Description: This course provides students with a broad overview of topics in nutritional anthropology; an area of study that is highly multidisciplinary. Students will learn to critically think about the impact of culture concerning the current understanding of nutrition in a biocultural context. The course will range over nutritional aspects of human evolution, federal perspectives on nutrition, aspects of nutritional epidemiology, food and ethnicity, food and self, and obesity as culture bound syndrome.

ANTH 540. Health and Civilization**3 Units****Term Typically Offered:** Occasionally Offered**Prerequisite(s):** Graduate status, or consent of instructor.

Description: The central goal of this course is to understand how at multiple bio-cultural levels human populations (past and present) respond to their surroundings and social contexts, and how their responses can affect human health, the environment, and their own adaptation. To achieve this goal, the course will be focused on human lifestyle changes, the emerging of new diseases, and epidemiological transitions developed after the agricultural revolution and after the rise of complex, interdependent, and crowded societies.

ANTH 576. Quantitative Analysis in Anthropology**3 Units****Term Typically Offered:** Fall Even Years

Description: This course provides an introduction to the use of quantitative analysis methods in anthropological research. Topics will include descriptive statistics, hypothesis testing, and multivariate statistics. The course will focus on choosing the appropriate statistical tests to answer specific research questions, proper interpretation of results, and visual and graphical methods for displaying results. This course is not intended to be an advanced math class, and derivation of statistical tests will not be covered in detail. However, students will be expected to gain an understanding of the logic and assumptions behind each test, when it should be used, and how results should be interpreted.

ANTH 578. Lithic Technology**3 Units****Prerequisite(s):** Graduate status or consent of instructor.

Fee: An additional \$25.00 is charged for this course.

Description: This course provides an introduction to the study of stone tool technology. Topics to be covered include broad examination of major changes in stone tool technology during the course of human prehistory (~3.3 million - 10,000 years ago), analytical approaches commonly employed by archaeologists to interpret the lithic record, and experiential learning through knapping and lab exercises. In addition to the hands-on exercises, the course material is supported by films, and readings from the textbooks, and journal articles. Students are required to submit a literature based term paper focusing on ethnographic or archaeological case studies that incorporate lithic datasets.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 579. Ceramic Analysis**3 Units**

Description: Pottery is abundant in many archaeological sites, and the study of pottery has a long history in archaeology. Analysis and interpretation of ceramics has been used by archaeologists to accomplish varied ends: to establish a time scale, to document interconnections between different areas, sites or groups of people, and to suggest what activities were carried out at particular sites. Archaeologists also use ceramics as a basis to understand the organization of ceramic production itself as an important activity. The varied means that archaeologists use to bridge the gap between the recovery of ceramics and their interpretation is the focus of this course.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 581. Geoarchaeology**3 Units****Term Typically Offered:** Spring Even Years

Description: A firm grasp of geologic principles is essential for interpreting prehistoric archaeological sites, and this course provides students with a basic understanding of geoarchaeology. No prior geologic or archaeological knowledge is required to take this course. The course begins with the basics of sediments, soils, stratigraphy, and dating. This is followed by discussion of different depositional environments and their impacts on the archaeological record. Key topics include site formation processes, landscape reconstruction, and interpretation of climate change.

Note: Cross-listed with ANTH 381.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 582. Kentucky Archaeology**3 Units**

Description: This course introduces students to the archaeology of Kentucky with a focus on the precontact record. We begin with Paleoindian hunter-gatherers and end with Euro-American Settlement, Antebellum, Civil War, and Postbellum Records. We review key sites and assemblages and discuss models of cultural change. We situate past populations on the landscape by learning about biotic and geographic variation across the Commonwealth and consider how changes in resource availability impacted humans through time. We also visit archaeological sites and/or research laboratories.

Note: Cross-listed with ANTH 682.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 583. Who Owns the Past?**3 Units**

Prerequisite(s): Instructor approval required.

Description: This course explores the complexity of how the past and cultural heritage are used in political, professional, and everyday contexts, focusing on archaeological case studies from the 19th-21st Centuries. Over the course of the semester, students explore questions like: How is the past defined, and who should own objects and information about it? How are these questions culturally determined, and how do nationalism and issues of representation factor into the discussion? Why should we preserve the past, and how do we do so in meaningful and culturally sensitive ways? Through readings, written assignments, and discussion with peers, students examine these key ethical and epistemological issues in anthropology. Students apply principles learned throughout the course to develop a research project that explores a particular issue in cultural heritage.

Note: Cross-listed with ANTH 683.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ANTH 584. Anthropology of Death**3 Units**

Description: Students will learn how anthropologists (cultural anthropologists, biological anthropologists, and archaeologists) employ theory, methods, and data to understand past and present societies through their treatment of the dead. Through in-class discussions, community-engaged activities, and culminating projects, students will learn how death is fundamentally transformative - how it physically transforms human landscapes, how it inevitability transforms societies, and how its passage transforms populations directly and indirectly affected.

ART 552. Digital Photography**3 Units****Term Typically Offered:** Fall Only**Prerequisite(s):** ART 351 or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Exploration of color photography concepts and digital media utilizing photographic principles and techniques. Formerly Color Photography.**Note:** May be repeated to a maximum of 6 hours.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ART 554. Experimental Photography I**3 Units****Term Typically Offered:** Fall Only**Prerequisite(s):** ART 351 or Faculty Consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** An introduction to historic photographic techniques through the use of hand-crafted pinhole cameras, toy cameras, and view cameras.**Note:** May be repeated to a maximum of 6 hours.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ART 555. Directed Study in Photography**3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** ART 351, BFA Candidacy, or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Experimentation on individual problems in photography.**Note:** May be repeated to a maximum of 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ART 556. Experimental Photography II**3 Units****Term Typically Offered:** Spring Only**Prerequisite(s):** ART 351; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Experimentation with historic and alternative photographic methods of image making.**Note:** May be repeated up to 6 hours.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ART 557. Advanced Photography Seminar**3 Units****Term Typically Offered:** Spring Only**Prerequisite(s):** ART 551 and ART 552, or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Students will work on long-term individual self-designed projects that focus on exhibitions and professional portfolios. The course will emphasize production, research, critique, and revision. This course includes readings on contemporary photographic theory, student-led slide lectures, research presentations, field trips, and writing as an important component of developing advanced photographic work.**Note:** Formerly taught as Advanced Photography.**Note:** May be repeated to a maximum of 6 hours.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ART 559. Computer Applications for Interiors I**3 Units****Term Typically Offered:** Fall Only**Prerequisite(s):** ART 361 or DES 361; BFA Candidacy or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** An introduction to professional applications for graphic communication skills, specifically the technical drawings used in construction. Students will develop a set of construction drawings and schedules for a project of their own design. The course will introduce professional industry-standard software applications and drawing skills, and foster the continuing development of those skills. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with DES 559.

ARTH 523. History of Performance Art**3 Units**

Prerequisite(s): ARTH 270 and ARTH 325; or permission of instructor; or graduate standing.

Description: History of Performance Art is designed as an advanced upper-level seminar that investigates the international, historical developments in Performance Art after World War II. It considers the experimental strategies and ideological aims of visual artists who used their bodies as the primary vehicle of expression, information, communication, and social change. Performance Art has had the dubious distinction of being the most censored art medium, and since the 1960s artists have been continually arrested and fined for their work. This is a highly significant social fact, one that draws attention to Performance Art's particularly disruptive aesthetic codes and materials-emphasizing presentation over representation; intersubjective, human bodies over inanimate objects; and temporarily over spatiality.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ARTH 524. Installation Art**3 Units**

Prerequisite(s): ARTH 270 and ARTH 325; or permission of instructor; or graduate standing.

Description: An advanced exploratory seminar that investigates a contemporary art form as well as a thorny art-historical problem: the term "installation" now functions both as a loose descriptor for a myriad of contemporary artworks (having supplanted terms such as Assemblage and Environment) independent of medium and context, as well as a general and comprehensive art-historical genre, a circumstance that has its own compelling historical development. The course is designed so that students can grapple with a central issue for contemporary art-the definition of a burgeoning critical term for art history.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ARTH 525. Representations of Trauma in the Visual Arts**3 Units**

Term Typically Offered: Occasionally Offered

Prerequisite(s): ARTH 270 and ARTH 325; or permission of instructor.

Description: This seminar examines the changing relationships between trauma and its representation in the twentieth century. Beginning with the Holocaust, the course charts a trajectory from this most profound of collective traumas, to the refinement of clinical definitions of trauma (e.g., PTSD) in the wake of the Vietnam War, to the development of trauma studies in the humanities in the 1990s, to the recent "pictorial turn" within scholarship on trauma. This historical framework will be brought to bear upon the dynamics of how trauma and visuality have been approached by scientists, scholars, and artists.

Note: Cross-listed with WGST 525.

Note: May be used to satisfy the Period/Area 2 - after-1750 requirement.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

Note: May be used to satisfy the Period 2/Area - after-1750 requirement.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ARTH 531. Studies in Asian Art**3 Units**

Prerequisite(s): One 300-level course in Asian Art, or consent of instructor.

Description: Selected topics that examine the development of art and architecture in the context of the social and cultural history of China and Japan.

Note: Cross-listed with AST 531.

Note: May be used to satisfy the Period/Area 3 - Non-Western requirement.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

ARTH 541. Theories & Methods in the Visual Arts - WR**3 Units**

Term Typically Offered: Fall Only

Prerequisite(s): Permission of the instructor.

Description: An introduction to various art historical and interdisciplinary theoretical perspectives and methodological approaches that have shaped the understanding, interpretation, and production of visual art and culture in the nineteenth century to the present. The course will explore these theories and methods as specific fields of inquiry through the study of primary texts, secondary or applied texts, artists' writings and artworks.

Note: This course is required for completion of the BA in Art History.

Anatomy and Physiology Term Typically Offered: Spring Only Prerequisite(s): BIOL 240. Description: The purpose of this course is to cover the basic structure and function of the major systems of the human body. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BE 289. Bioengineering Co-op Education I Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): BE 288. Fee: An additional \$300.00 is charged for this course. Description: First cooperative education work term in an area directly related to the field of specialization of their degree program. Required for Professional School of Engineering students. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	BE 359. Cell and Molecular Biology for Bioengineers Term Typically Offered: Spring Only Prerequisite(s): BIOL 240. Description: This course examines the fundamental principles of cell and molecular biology in humans. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BE 310. Biotransport Phenomena Term Typically Offered: Spring Only Prerequisite(s): ENGR 205, ME 206, and ME 251. Description: Introduction to fundamental concepts of momentum, heat, and mass transport with applications to biological and medical engineering science and design. Properties of biofluids. Conservation equations in integral and differential forms. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 360. Biomechanics Principles Term Typically Offered: Spring Only Prerequisite(s): ENGR 205 and CEE 205. Description: Introduction to the mechanical behavior of biological tissues and systems. Methods for the analysis of rigid body and deformational mechanics applied to biological tissues including bone, muscle, and connective tissues. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BE 322. Circuits and Devices for Bioengineers Term Typically Offered: Summer Only Prerequisite(s): PHYS 299 and ENGR 201; BE Students only. Description: Concepts covered: DC/AC circuit theory. Linear network analysis. Impedance. Resonance. Solid-state devices. Integrated circuits. Op-amps. Electrical safety. RC filters. Sensors. Batteries. Data Acquisition. Software covered: LabVIEW. T-Spice. Multisim. Ultiboard. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 389. Bioengineering Co-op Education II Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): BE 289. Fee: An additional \$300.00 is charged for this course. Description: Second cooperative education work term in an area directly related to the field of specialization of their degree program. Required for Professional School of Engineering students. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit
BE 340. Computational Methodologies in Bioengineering Term Typically Offered: Summer Only Description: The main goal of the course is to introduce students to high-performance computing tools which are crucial to many bioengineering and scientific applications and equip students with basic knowledge of state-of-the-art computing tools available. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 405. Practicum in Bioengineering Education Term Typically Offered: Spring Only Prerequisite(s): BE 310 and BE 360 and consent of instructor. Description: A guided learning experience in inquiry-based instructional techniques and best practices in STEM education that includes field experience as an undergraduate teaching assistant. Permission to enroll required. May be repeated for a maximum of 3 credit hours. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit

BE 420. Biosystems & Signals Term Typically Offered: Spring Only Prerequisite(s): BE 340. Description: This course covers linear systems theory, including convolution, Fourier, Laplace, and Z-transforms. The emphasis is on understanding the underlying mathematics in a practical sense. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 480. Biomedical Device Design Term Typically Offered: Spring Only Prerequisite(s): BE 423 (or concurrent) and BE 450 (or concurrent). Description: Medical device design for surgery, patient care and patient monitoring. Emphasizes design criteria and process, human factors, patient care, bench-top testing, safety, FDA regulation, market readiness and legal liability. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BE 423. Bioengineering Measurements Laboratory Term Typically Offered: Spring Only Prerequisite(s): BE 322. Description: Laboratory to illustrate basic principles taught in Circuits and Devices for Bioengineers. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2 Units	BE 489. Bioengineering Co-op Education III Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): BE 389. Fee: An additional \$300.00 is charged for this course. Description: Third cooperative education work term in an area directly related to the field of specialization of their degree program. Required for Professional School of Engineering students. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.	1 Unit
BE 430. Biosystems Controls Term Typically Offered: Fall Only Prerequisite(s): BE 322, BE 420. Description: Classical approach to analyze and design linear and nonlinear control systems, with emphasis on nonlinearity of physiological control systems, e.g., neuromusculoskeletal, cardiovascular, thermal and mass transfer systems of the body. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	
BE 450. Biomaterials & Biocompatibility Term Typically Offered: Summer Only Prerequisite(s): CHEM 341, ME 251 and BE 360. Description: Introduces biomaterials and the clinical relevance of biomaterial performance. The course will cover polymer synthesis, characterization, mechanical testing, surface modification and biocompatibility issues, e.g. protein adsorption, immune response, and sterilization. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 491. Capstone A Term Typically Offered: Fall Only Prerequisite(s): BE 423 and BE 450; Senior standing in Bio-engineering. Corequisite(s): BE 497. Description: Applies methods of engineering economic analysis, ethics, and FDA regulation processes. Methods to identify, articulate and resolve ethical dilemmas intrinsic to bioengineering. Practical "hands-on" experiences in the application of economic concepts and FDA regulations. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BE 453. Introduction to Molecular Bioengineering Term Typically Offered: Fall Only Prerequisite(s): CHEM 341 and BE 359. Description: Demonstrate how molecules are used as building blocks to engineer surfaces and materials with specific attributes/function. Introduces biomimetic design principles for biomedical materials and devices to control performance/function of materials. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 497. Capstone B - CUE Term Typically Offered: Fall Only Prerequisite(s): BE 354 and Senior standing in bio-engineering. Corequisite(s): BE 491. Description: Team-oriented design of a biomedical/biological mechanism, system or process satisfying a set of open-ended requirements. Written reports and oral presentations are required. Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status., CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.	3 Units
BE 460. Biomechanics of Tissues and Organs Term Typically Offered: Fall Only Prerequisite(s): BE 360 and BE 354. Description: Provide students with introductory materials for various interdisciplinary fields in biomechanics. The topics include orthopaedic biomechanics, musculoskeletal biomechanics and cardiovascular biomechanics. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	

BE 500. Special Topics in Bioengineering Term Typically Offered: Fall, Spring, Summer Description: This course will be devoted to topics that usually are not treated in detail in the general curriculum. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 542. Medical Image Computing Term Typically Offered: Fall Only Prerequisite(s): BE 340 or graduate/professional standing. Description: Fundamentals of 2-D and 3-D image computing, application of image computing algorithms to medical images, enhancement and restoration of 2-D and 3-D medical data, and fundamentals of machine vision and medical data visualization. Students will learn image restoration, computer vision and visualization techniques with applications to medical data through examples and reading papers. Students are expected to work on a team project and write technical reports. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BE 522. Biomedical Acoustics Term Typically Offered: Spring Only Prerequisite(s): BE 420. Description: An introduction to the fundamental principles of physical acoustics with an emphasis on biomedical applications. Major concepts covered include acoustic wave physics, transducers, and ultrasound imaging. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 543. Computer Tools for Medical Image Analysis Term Typically Offered: Summer Only Prerequisite(s): BE 340 or graduate/professional standing. Description: This course covers: 1) Essential computer software that can be used for handling all types of medical data, 2) advanced computer software that is used for medical image analysis, such as segmentation, registration, motion correction, etc., and 3) development of comprehensive computer-aided diagnosis systems based on these ready-to-go software packages. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BE 524. LabVIEW for Bioengineers Term Typically Offered: Fall Only Prerequisite(s): BE 340 or equivalent. Description: This course will introduce students to an intermediate level of LabVIEW (Laboratory Virtual Instrument Engineering Workbench) available from National Instruments (Austin, TX). LabVIEW is the worldwide industry standard graphical programming environment for developing data acquisition, instrument control, and industrial automation software. Students will explore core programming fundamentals common to all programming languages by using LabVIEW software to develop independent programs and data acquisition solutions using a combination of LabVIEW, data acquisition hardware, and standard test instrumentation hardware. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 544. Artificial Intelligence Techniques in Digital Pathology Term Typically Offered: Spring Only Prerequisite(s): BE 542 & skills in programming languages R and Python; or consent of instructor. Description: This course provides both theoretical and practical information about computer vision and AI techniques required to process and analyze microscopic images as a part of the evolving transition to digital pathology. This evolution will enable the use of AI models in pathology to aid pathologists and healthcare professionals in the management and the diagnosis of different diseases. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BE 530. Machine Learning in Python Term Typically Offered: Fall, Spring Prerequisite(s): BE 340 or graduate/professional standing. Description: This course covers programming concepts in Python, machine learning concepts, and application of machine learning into biomedical and other problems using Python. Students will learn about the most applicable Python libraries that deal with different machine learning tools. Students are expected to work on a team project and write technical reports. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 552. Introduction to Tissue Engineering Term Typically Offered: Spring Only Prerequisite(s): CHEM 341, BE 354, BE 359, and BE 450. Description: Design, development and clinical application of tissue engineered components, including blood vessels, bone, cartilage, pancreas, liver and skin, for use in the human body. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BE 540. Machine Learning in Medicine Term Typically Offered: Spring Only Prerequisite(s): BE 420. Description: Topics: 1) fundamentals of medical data, 2) application of machine learning models & algorithms to medicine, 3) learning from data & classification of disorders, and 4) overview of health data, collection with sensors, body area networks, brain image data and other publicly available medical applications data. Students will learn about machine learning applications to real world medical data through examples and reading papers. Students are expected to work on a team project and write technical reports. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BE 553. Nanoscale Bioengineering: Application and Methodology of Nanobiomaterials in Bioengineering Prerequisite(s): BE 450 or BE 453 or permission of department chair. Description: An introduction to the fundamental principles of nanoengineering with a focus on 1) synthetic methodologies of tailored nanobiomaterials (physical, chemical and electrochemical); 2) nanobiomaterial characterization using advanced analytical, microscopic and spectroscopic techniques; and 3) therapeutic and diagnostic applications. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

BE 581. Advanced Computer-Aided Design and Manufacturing for Bioengineers 3 Units**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** BE 340 or by permission of Department Chair.**Description:** An introduction to the engineering design and manufacturing processes for bioengineering applications with an emphasis on the use of modern computer-based analysis, design and presentation tools as well as manufacturing techniques such as casting, machining, forming and assembly for polymer and metal-based materials.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BE 593. Independent Study in Bioengineering** 1-4 Units**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** Faculty consent.**Description:** A theoretical or experimental investigation of a problem area related to Bioengineering.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

Biology (BIOL)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (https://csprd.louisville.edu/psd/ps_class/EMPLOYEE/PSFT_CS/c/COMMUNITY_ACCESS.CLASS_SEARCH.x/?state=62dab551a0d600a5e8237359c50704e59007&duo_code=sjUx20STj21540Fw0371XRIHmFg9eV)

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (<https://louisville.edu/bursar/tuitionfee/university-fees/>).

BIOL 102. Biology: Current Issues and Applications - S 3 Units**Term Typically Offered:** Fall, Spring, Summer**Description:** Selected topics from the biological sciences that focus on high-profile issues in biological sciences and their socio-scientific applications.**Note:** May fulfill general education natural science requirement but does not count toward biology major or minor.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 104. Laboratory for Biology: Current Issues and Applications - SL** 1 Unit**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** Completion of or concurrent enrollment in BIOL 102.**Fee:** An additional \$15.00 is charged for this course.**Description:** Hands-on laboratory experience for students not majoring in the sciences. Labs are designed to develop skills in scientific methodology, observation and critical thinking.**Note:** Does not count toward biology major or minor.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 203. Scientific Information Literacy and Communication - OC** 3 Units**Term Typically Offered:** Spring Only**Description:** To improve oral communication skills that transfer across disciplines; to fulfill a general education oral communication requirement with a course that has science-intensive content; to improve student skills in critically assessing scientific claims; and to introduce students early in their programs to work of potential research mentors.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 240. Unity of Life - S** 3 Units**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** Students must meet one of the following to enroll: ACT score of 24+ on science, math, or composite scores; SAT math score of 540+; or AP score of 3 or higher; or high school GPA of 3.5 or above (on a 4 point scale); completion with a passing grade or enrollment in BIOL 102 (or department approved equivalent) in prior semester; or completion with a passing grade or enrollment in BIOL 242.**Description:** Basic biological principles; macromolecules, biology of cells, metabolism, genetics, and evolution.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 241. Experimental Biology I: Molecules and Cells - SL** 1 Unit**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** Successful completion of or concurrent enrollment in BIOL 240.**Fee:** An additional \$40.00 is charged for this course.**Description:** This is a laboratory course that complements BIOL 240 Unity of Life. In this class, you will learn the basic principles of scientific inquiry and practice techniques biologists use to study cells and molecules. This will include learning about experimental design, hypothesis testing, and statistics, as well as using microscopes, chromatography, and genomic tools.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BIOL 242. Diversity of Life - S Term Typically Offered: Fall, Spring, Summer Prerequisite(s): ACT Science Reasoning score of a 24 or higher; or SAT Math score of 24 or higher; Accuplacer QRAS score of 250 or higher; or completion with a passing grade or enrollment in BIOL 102 (or department approved equivalent) in prior semester; or completion with a passing grade or enrollment in BIOL 240 in prior semester. Description: Taxonomy and classification, form and function of monerans, fungi, protists, plants and animals; survey of ecology. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 260. Human Anatomy & Physiology I Term Typically Offered: Fall, Spring, Summer Prerequisite(s): BIOL 102 or BIOL 240 or equivalent with a grade of C or better; and completion of CHEM 101 or CHEM 105 or CHEM 201 with a grade of C or better. Description: A general introduction to structure and function of the human body. Basic concepts related to anatomical terminology, cells, tissues, and integumentary, the skeletal, muscular, nervous, and endocrine systems are covered. Interrelationships of organ systems are also emphasized. Note: This course is intended for students majoring in nursing or dental hygiene. Note: Does not count toward a biology major or minor.	3 Units
BIOL 243. Experimental Biology II: Organismal Biology - SL Term Typically Offered: Fall, Spring, Summer Prerequisite(s): BIOL 241; and concurrent enrollment in, or previous completion of, BIOL 242. Fee: An additional \$40.00 is charged for this course. Description: A comprehensive laboratory in biology involving experiments covering phylogeny, diversity, systems, and ecology. An emphasis is placed on critical analysis of scientific data through application of the scientific method and experimental design. This is a laboratory course that complements the BIOL 242 Diversity of Life lecture course. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	
BIOL 257. Introduction to Microbiology - S Term Typically Offered: Fall, Spring, Summer Prerequisite(s): BIOL 102 or BIOL 240, or equivalents; and CHEM 105 or CHEM 201 (CHEM 101 accepted for Dental Hygiene students only). Description: Survey of microorganisms including structure-function relationships, growth and its control, metabolism and genetics. Diversity will be discussed with emphasis on infectious diseases, epidemiology, and basic immunology. Note: Does not count towards biology major or minor.	3 Units	BIOL 261. Human Anatomy & Physiology II Term Typically Offered: Fall, Spring, Summer Prerequisite(s): BIOL 260 with a grade of C or better. Description: A general introduction to structure and function of the human body. Basic concepts related to anatomical terminology, cells, tissues, and integumentary, the skeletal, muscular, nervous, and endocrine systems are covered. Interrelationships of organ systems are also emphasized. Note: Does not count toward biology major or minor.	3 Units

BIOL 258. Introduction to Microbiology Laboratory - SL Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Completion of or concurrent enrollment in BIOL 257. Fee: An additional \$25.00 is charged for this course. Description: The introductory microbiology laboratory teaches students basic microbiological techniques that are necessary to study and safely handle microorganisms and their viruses. Because this course relies on participation, attendance will be included in the evaluation. Note: Does not count toward biology major or minor.	1 Unit	BIOL 262. Human Anatomy & Physiology Lab Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Completion of BIOL 260 with a grade of C or better and concurrent enrollment in BIOL 261. Fee: An additional \$25.00 is charged for this course. Description: A study and correlation between the anatomy and physiology of selected organ systems. Note: Does not count towards biology major or minor.	1 Unit

		BIOL 263. Environmental Biology - B Term Typically Offered: Fall, Spring, Summer Fee: An additional \$15.00 is charged for this course. Description: A study of the biological principles of environmental effects on living organisms; emphasis on ecological relationships of humans, including resource exploitation, pollution, environmental degradation, and human behavior. Includes laboratory and field components. Note: Does not count toward biology major or minor. Note: Students who have already received credit for BIOL 363 may not receive credit for this course.	4 Units

BIOL 264. Human Anatomy and Physiology I Laboratory 1 Unit Term Typically Offered: Fall, Spring, Summer Corequisite(s): BIOL 260 In this lab you will learn to identify human tissues and organs, with an emphasis on integumentary, skeletal, muscular, nervous, and endocrine systems. Fee: An additional \$68.00 is charged for this course. Description: You will study the physiological functions of some of these structures through experimentation on each other. Along the way you will be introduced to collection and presentation of scientific data. We will emphasize the connection between structure and function, usually in the healthy individual but with some exploration of abnormalities found in disease states. Note: Does not count for the Biology major or minor For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	BIOL 308. Vertebrate Zoology 3 Units Term Typically Offered: Fall Only Prerequisite(s): BIOL 240, BIOL 241, BIOL 242, and BIOL 243. Description: Explores the anatomy, ecology, and behavior of vertebrates from an evolutionary perspective. Laboratory work centers on anatomy and includes species identification, data collection, analysis, and presentation activities. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOL 265. Human Anatomy and Physiology II Laboratory 1 Unit Term Typically Offered: Fall, Spring, Summer Prerequisite(s): BIOL 260 with a C or better and BIOL 264 with C or better. Fee: An additional \$68.00 is charged for this course. Description: Prerequisites or corequisites: BIOL 261. In this lab you will learn to identify human tissues and organs, with an emphasis on the cardiovascular, respiratory, digestive, urinary, and reproductive systems. You will study the physiological functions of some of these structures through experimentation on each other. Along the way you will be introduced to collection and presentation of scientific data. We will emphasize the connection between structure and function, usually in the healthy individual but with some exploration of abnormalities found in disease states. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	BIOL 310. Animal Behavior 3 Units Term Typically Offered: Fall Only Prerequisite(s): BIOL 240, BIOL 241, BIOL 242 and BIOL 243. Description: Survey of the field of animal behavior. Topics include communication, learning, mate choice, fighting and aggression, and mating systems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOL 300. Plant Biology - WR 3 Units Term Typically Offered: Fall Only Prerequisite(s): BIOL 240 and BIOL 242. Description: This course examines the biology of plants and other organisms with cell walls (including bacteria, fungi, protists, and algae). These distantly related organisms include primary producers that energize the biosphere, decomposers that recycle nutrients and economic species that provide most of humanity's food, fiber and medicine. As part of the course content, students compose an original manuscript based on in-class experiments. This manuscript includes a literature review. Students submit this manuscript as a draft, receive comments, and then revise their final version based on those comments. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	BIOL 321. Introduction to Health Professions Skills Laboratory 1 Unit Term Typically Offered: Fall, Spring Prerequisite(s): BIOL 102 or BIOL 240 or equivalent, and CHEM 101 or CHEM 105 or CHEM 201 or equivalent. Fee: An additional \$50.00 is charged for this course. Description: Prerequisites or corequisites: PHPH 250. This introductory laboratory course teaches students basic clinical skills and techniques that are necessary to work safely in a variety of clinical settings. This class will provide an introduction and background familiarity with various things you will need to know to be successful in the BIOL 322 and 323 internship courses. Because this course introduces you to a wide variety of clinical settings and skills, you will not be an expert in any one skill upon leaving this course. Rather, you will gain experience with multiple skills appropriate to the healthcare workforce. Because this course relies on participation, attendance will be included in the evaluation. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOL 304. Plant Taxonomy & Ecology - WR 3 Units Term Typically Offered: Occasionally Offered Prerequisite(s): BIOL 240, BIOL 241, BIOL 242, BIOL 243. Description: Introduction to the principles and methods of identifying, naming, and classifying plants. Focus on ecologically significant plants of North America and Kentucky, and discussion of the importance of specific species in maintaining ecosystem structure and function. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR). For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	BIOL 322. Healthcare Workforce Internship I 3 Units Term Typically Offered: Fall, Spring, Summer Prerequisite(s): PHP 250 and BIOL 321 OR instructor permission This internship class will provide you with professional experiences that can be critical to obtaining employment in your field. Description: You will discover how what you've learned in the classroom can be applied in a more practical setting, you can make contacts that will be useful for references in the future, and you will be able to examine your career plans and determine whether they need adjustment or are confirmed by your experiences. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 323. Healthcare Workforce Internship II Term Typically Offered: Fall, Spring, Summer Prerequisite(s): BIOL 322 and instructor permission Your internship in Clinical Lab Skills II will build on the skills and professional experiences that you gained in Clinical Lab Skills I. Description: You will be discovering more about how the knowledge you've learned in the classroom can be applied in a more practical setting, you will examine and hone your career goals, and you can make contacts that will be useful for references in the future. Because developing your career plans is an important part of the Clinical Lab Skills courses, you have two distinct options for this course: If your chosen site for the Clinical Lab Skills I course confirmed your interest in that particular area of health care and you would prefer to gain further experience in that area, you can continue working in that field in this course. However, if your experiences confirmed your interest in working in health care but you work prefer to explore a different field, you can work at a different site and in a different field in this course. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 350. Biostatistics Term Typically Offered: Fall, Spring Prerequisite(s): MATH 180 or MATH 205. Description: A survey course of statistical procedures commonly used in the life sciences. It is taught at an introductory level and will focus on the application of statistical procedures to data. Note: This lecture course is supplemented with a separate recitation section. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BIOL 329. Cellular and Molecular Biology Term Typically Offered: Fall, Spring, Summer Prerequisite(s): BIOL 240, BIOL 242, and CHEM 201. Description: Processes at the molecular and cellular levels integrated with the science of biology and biodiversity. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 359. Microbial Genetics and Pathogenesis - WR Term Typically Offered: Spring Only Prerequisite(s): BIOL 330 and BIOL 457 recommended. Description: A literature-based introduction to current microbial genetics and pathogenesis. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR). For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BIOL 330. Genetics and Molecular Biology Term Typically Offered: Fall, Spring Prerequisite(s): BIOL 329. Description: Genetics presented from a Mendelian to a molecular point of view. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 363. Principles of Ecology Term Typically Offered: Fall, Spring Prerequisite(s): BIOL 240, BIOL 241, BIOL 242, and BIOL 243. Description: A majors' core course providing an overview of the basic principles and concepts of Ecology and an understanding of how those principles and concepts can aid in identifying and seeking solutions for human environmental problems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BIOL 331. Genetics and Molecular Biology: Laboratory Term Typically Offered: Fall, Spring Prerequisite(s): BIOL 330 (or concurrent). Fee: An additional \$25.00 is charged for this course. Description: The laboratory portion of BIOL 330 with exercises in genetics, cellular, and molecular biology. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2 Units	BIOL 372. Evolutionary Ecology of Disease Term Typically Offered: Fall Only Prerequisite(s): BIOL 240, BIOL 242, or consent of instructor. Description: An overview of genetic, parasitic, and environmental causes of disease; topics include evolution of virulence and antibiotic resistance, emerging diseases, and options for controlling disease. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BIOL 347. Comparative Vertebrate Anatomy Term Typically Offered: Spring Only Prerequisite(s): BIOL 240, BIOL 242. Fee: An additional \$40.00 is charged for this course. Description: Phylogeny and comparative morphology of classes of vertebrates; structure and organ systems of lamprey, shark, and cat. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	4 Units	BIOL 376. Parasitology Term Typically Offered: Spring Only Prerequisite(s): BIOL 240, BIOL 241, BIOL 242 and BIOL 243. Description: A study of selected protozoan and helminth parasites with emphasis on host-parasite dynamics, methods of identification, life cycles, transmission, pathology, and treatment. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

BIOL 382. Entomology Term Typically Offered: Fall Odd Years Prerequisite(s): BIOL 363. Fee: An additional \$25.00 is charged for this course. Description: Examination of the morphology, physiology, behavior, evolution and ecology of the major groups of insects. A collection of common insect families is required. The laboratory will include observations on live and preserved animals and possible field trips. Students will learn to: 1) use terms and concepts that describe the diversity of insects, 2) compare and contrast major insect groups with respect to structure and function, and 3) collect and prepare museum-quality specimens for scientific study. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 392. Microbes and Core Concepts in Ecology and Evolution - WR 3 Units Prerequisite(s): BIOL 357, BIOL 363, or BIOL 409. Description: Core concepts in ecology and evolution using microbes as primary examples. Students will read primary scientific literature and write scientific reviews of the literature in order to enhance their understanding of these concepts. Note: Approved for the Arts and Sciences upper-level requirement for written communication (WR). For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOL 388. Research Opportunities in Biology Term Typically Offered: Fall, Spring Prerequisite(s): Permission of instructor and completion of BIOL 240 and BIOL 242 with a minimum grade of B. Description: A 1-credit seminar course to introduce sophomores to undergraduate research opportunities at UofL with the purpose of finding a laboratory in which to do an honors thesis project by junior year. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	BIOL 395. Pharmacology and Toxicology 3 Units Term Typically Offered: Fall Only Prerequisite(s): BIOL 330 This course will cover introduction to pharmacology including pharmacokinetics and dose calculations as well as major pathways of action of key pharmaceuticals used to treat depression and mood disorders, cardiovascular system drugs, and diabetes. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOL 389. Undergraduate Seminar Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring Description: Undergraduate seminar in varied aspects of biology; subject to be announced in the schedule of courses. Note: No more than 2 hours of BIOL 389 may be counted toward the major in biology. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	BIOL 396. Preview to Dentistry -WR - WR 3 Units Term Typically Offered: Spring Only Prerequisite(s): BIOL 329 and BIOL 330 or equivalent, and consent of instructor. Description: This course is designed for pre-dental students and students considering dentistry as a career. The purpose of the course is to expose pre-dental students to the art, science, and practice of dentistry. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOL 390. Special Topics Term Typically Offered: Fall, Spring Prerequisite(s): Biology core or faculty consent. Description: Special topics in biology. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 400. Histology 4 Units Term Typically Offered: Fall Only Prerequisite(s): BIOL 329 or consent of instructor. Fee: An additional \$25.00 is charged for this course. Description: The microscopic anatomy and function of vertebrate tissues and organs. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOL 391. Special Topics in Biology - WR Term Typically Offered: Occasionally Offered Description: Topics to be indicated in the Schedule of Courses. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR). Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1-4 Units	BIOL 401. Advanced Ecology 3 Units Term Typically Offered: Occasionally Offered Prerequisite(s): BIOL 363. Description: Major concepts in evolutionary ecology. Theoretical and experimental studies of adaptation, population growth and regulation, competition, predation, diversity, life histories, and ecosystems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 402. Advanced Ecology Lab**2 Units****Term Typically Offered:** Occasionally Offered**Prerequisite(s):** BIOL 401 (or concurrently).**Fee:** An additional \$40.00 is charged for this course.**Description:** Field and laboratory experiments to investigate ecological principles. Discussion of research and practice of basic biostatistics and experimental design.**Course Attribute(s):** CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.

BIOL 435. Chemical Ecology - WR**3 Units****Term Typically Offered:** Spring Only**Prerequisite(s):** BIOL 240, BIOL 242, and CHEM 201.**Description:** This course will explore the remarkable world of chemical ecology. Where ecological outcomes between or among individuals are influenced or determined directly or indirectly by chemicals produced by individuals. A key focus will be the chemical ecology of plants. Though we will also explore chemical ecology in animals as well. Considerable ecological information is derived from chemicals produced by organisms both to other members of the same species or to a different species, and affect both natural and sexual selection. We will use an interactive discussion/seminar-style to interrogate the primary literature for current knowledge of how chemical cues influence a diverse array of ecological interactions. From the African savannas to galling insects in our own backyard. Students will have flexibility to choose their own research topics to pursue focused critical thinking and hypothesis generation. Discussions will span a range of disciplines including genetics, molecular biology, biochemistry, natural products, ecology, and evolution. As such, this course is intended for students who have some prior knowledge of ecology and/or biochemistry.

BIOL 443. Developmental Biology - CUE Term Typically Offered: Spring Only Prerequisite(s): BIOL 329 and BIOL 330. Description: Developmental biology approached from a biochemical, cellular, and anatomical perspective with emphasis on vertebrate systems. Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 465. Principles of Physiology Term Typically Offered: Spring Only Prerequisite(s): BIOL 329 or consent of instructor. Description: A general study of the functions of organ systems in vertebrates. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BIOL 450. Cancer Biology Term Typically Offered: Fall Only Prerequisite(s): BIOL 330 with C or better This course examines the development of cancer at the cellular and molecular levels. Description: Topics covered include tumor suppressors, oncogenes, cell cycle regulation, apoptosis, telomerase, angiogenesis, and metastasis. Cancer prevention, screening, diagnosis, and treatment will also be introduced. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 480. Introduction to Immunology - WR Term Typically Offered: Occasionally Offered Prerequisite(s): BIOL 240, BIOL 242, BIOL 329 and BIOL 330; CHEM 201 and CHEM 202 or their equivalent. Description: Lectures will present the basic principles of immunology, with an emphasis on reading and understanding primary literature. Topics include cells and organs of the immune system, the innate and adaptive response, effector molecules, and diseases of the immune system. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR). For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BIOL 457. Microbiology Term Typically Offered: Fall, Spring Prerequisite(s): BIOL 329 and BIOL 330. Description: A comprehensive introduction to the wide world of bacteria, viruses, and archaea and how they evolved to be so different from plants and animals. This course will delve into the basic architecture of microbial cells and their processes and discuss how microbes impact human health and disease. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 485. Microbial Physiology - CUE, WR Term Typically Offered: Fall Only Prerequisite(s): BIOL 357 or BIOL 540; or permission of the instructor. Description: An explanation of microbial cell biology and the processes, reactions, and energetics that support microbial life in a variety of circumstances. Includes discussions of how to modify those metabolic properties to meet new demands and conditions. A general understanding of the fundamental concepts of organic chemistry is strongly recommended. Note: Approved for the Arts and Sciences upper-level requirement in communications (WR). Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status. BIOL 458. Microbiology Laboratory Term Typically Offered: Fall, Spring Prerequisite(s): BIOL 329 and BIOL 330. Fee: An additional \$25.00 is charged for this course. Description: This lab will teach students how to work with bacteria, including human pathogens. Students will learn how to classify and identify bacteria using lab techniques and will learn about the diversity of microbes in their environment, including those found in food, on common surfaces, and natural environments. Students will also explore the For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	BIOL 490. Biology Internship - CUE, WR Term Typically Offered: Fall, Spring Prerequisite(s): Junior standing, 2.5 GPA, and consent of instructor. Description: Practical work experience in biological fields. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR). Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status., CBL - This course includes Community-Based Learning (CBL). BIOL 460. Advanced Human Anatomy Term Typically Offered: Fall Only Prerequisite(s): BIOL 240, BIOL 241, BIOL 242, BIOL 243, and BIOL 329. Description: FOR BIOLOGY MAJORS ONLY. An advanced study of the anatomical structure of the human body. Body structure will be studied by organ systems and will involve a balance between gross anatomical study and histology. Structure-function relationships will be emphasized. Knowledge will be applied to clinical scenarios. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units		

BIOL 501. Independent Study 1-3 Units

Prerequisite(s): Faculty consent, minimum cumulative GPA of 3.0, and completion of biology core.

Description: Independent study in a selected subject area with a student-selected faculty member.

Note: No more than 6 hours of Undergraduate Research (BIOL 404, BIOL 405 or BIOL 406 WR) or Independent Study (BIOL 501, BIOL 502 or BIOL 504 WR) may be used to meet the minimum in Biology for the BA or BS.

Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BIOL 502. Independent Study 1-3 Units

Prerequisite(s): Faculty consent, minimum cumulative GPA of 3.0, and completion of biology core.

Description: Independent study in a selected subject area with a student-selected faculty member.

Note: No more than 6 hours of Undergraduate Research (BIOL 404, BIOL 405 or BIOL 406 WR) or Independent Study (BIOL 501, BIOL 502 or BIOL 504 WR) may be used to meet the minimum in Biology for the BA or BS.

Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.

BIOL 510. Behavioral Ecology 3 Units

Term Typically Offered: Occasionally Offered

Prerequisite(s): BIOL 363.

Description: Evolution of behavioral adaptations for survival and reproduction; topics will include foraging, aggression, mate choice, mating strategies, and sociality.

Note: Credit may not be earned for both BIOL 510 and BIOL 610.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BIOL 511. Behavioral Endocrinology - CUE, WR 3 Units

Term Typically Offered: Occasionally Offered

Prerequisite(s): BIOL 465.

Description: Interactions of hormones, brain, behavior.

Note: Credit may not be earned in both BIOL 511 and BIOL 611.

Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).

Note: Cross-listed with BIOL 611.

Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BIOL 512. Endocrinology 3 Units

Prerequisite(s): BIOL 465.

Description: Chemical regulation in animals.

Note: Credit may not be earned in both BIOL 512 and BIOL 612.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BIOL 514. Ornithology 3 Units

Prerequisite(s): BIOL 242 and BIOL 244, or consent of instructor.

Fee: An additional \$40.00 is charged for this course.

Description: Evolution, morphology, diversity, ecology, and behavior of birds. Lab stresses field identification of birds.

Note: Credit may not be earned in both BIOL 514 and BIOL 614.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BIOL 515. Environmental Physiology 3 Units

Term Typically Offered: Occasionally Offered

Prerequisite(s): BIOL 240, BIOL 242 and BIOL 244 (or equivalent); or permission of department.

Description: Study of the physiological, morphological, behavioral and biochemical responses by eukaryotic organisms (primarily animals) to major physical and chemical factors of their environment.

Note: Credit may not be earned in both BIOL 515 and BIOL 615.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BIOL 519. Ichthyology Prerequisite(s): BIOL 363. Fee: An additional \$40.00 is charged for this course. Description: Introduction to anatomy, physiology, ecology, distribution, economic importance, and classification of major groups and representative local species of fish. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 542. Gene Structure and Function - WR Prerequisite(s): BIOL 330 or equivalent, or consent of instructor. Description: Advanced topics in genetics of prokaryotes and eukaryotes, including chromosome structure and function, and gene regulation. Note: Approved for the Arts & Sciences upper-level requirement in written communication (WR). Note: Credit may not be earned for both BIOL 542 and BIOL 642. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BIOL 522. Aquatic Ecology Prerequisite(s): BIOL 363. Description: Ecological processes in aquatic environments with primary emphasis on lakes and reservoirs. Note: Credit may not be earned in both BIOL 522 and BIOL 622. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	4 Units	BIOL 548. Experimental Design and Analysis - CUE, WR Prerequisite(s): BIOL 350 or BIOL 651. Description: Move principles of sound experimental design, analysis and presentation from recognition to active vocabulary. Students completing the course can serve as statistical consultants for moderately complex statistical designs. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR). Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BIOL 540. Metabolic Biochemistry Term Typically Offered: Occasionally Offered Prerequisite(s): BIOL 329 and CHEM 342. Description: An advanced study of metabolic pathways including synthesis of macromolecules (proteins, nucleic acids, lipids, carbohydrates), mechanisms of metabolic control and utilization of metabolic intermediates. Note: Credit may not be earned in both BIOL 540 and BIOL 640. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 552. Evolutionary Medicine Term Typically Offered: Occasionally Offered Prerequisite(s): BIOL 240, BIOL 242, BIOL 372, or BIOL 409, or equivalents. Description: In-depth analyses at the interface of evolutionary biology and the health sciences using readings from the primary literature. Format involves lectures, discussion, and a library-based research project. Note: Credit may not be earned in both BIOL 552 and BIOL 652. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
BIOL 541. Medicinal Plant Biochemistry - WR, CUE Term Typically Offered: Occasionally Offered Prerequisite(s): BIOL 540, CHEM 445, CHEM 545, or BIOC 545. Fee: An additional \$40.00 is charged for this course. Description: A detailed study of biosynthesis and bioactivity of specialized plant metabolites (secondary metabolites). Topics will include aspects of general plant metabolism as well as specialized metabolism pathways (alkaloids, terpenes and phenolics) and will include a survey of approaches as they relate to discovery of bioactive plant metabolites and a review of known plant metabolites used to treat human diseases/disorders. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR). Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	BIOL 553. Chronic Disease Biology Term Typically Offered: Occasionally Offered Prerequisite(s): BIOL 329 and BIOL 372. Description: The course will cover the biological bases of chronic disease, with an emphasis on the mechanisms of disease causation and the evolution of these mechanisms. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
		BIOL 555. Microbial Ecology Prerequisite(s): BIOL 357, or BIOL 485, or consent of instructor. Description: Interrelationships between microorganisms and their environments. Note: Credit may not be earned in both BIOL 555 and BIOL 655. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

BIOL 560. Ecology of Urban and Suburban Landscapes 3 Units**Term Typically Offered:** Spring Odd Years**Prerequisite(s):** BIOL 363 or GEOS 365.**Description:** Effects of cities and suburban sprawl on air and water chemistry, microclimate, fragmented landscapes, and responses of biotic and human communities to these conditions that degrade or promote urban resilience, adaptation and sustainability.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 562. Ecosystems Ecology 3 Units****Term Typically Offered:** Spring Even Years**Prerequisite(s):** BIOL 363; an advanced ecology course recommended.**Description:** The transformations of matter and energy that link plant, animal and geochemical cycles. Implications for resource management also discussed.**Note:** Credit may not be earned in both BIOL 562 and BIOL 662.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 563. Population and Community Ecology 3 Units****Term Typically Offered:** Spring Only**Prerequisite(s):** BIOL 363.**Description:** Introduction to population dynamics and species interactions in aquatic and terrestrial ecosystems. Review of underlying ecological theory and its applications for conserving biodiversity.**Note:** Credit may not be earned in both BIOL 563 and BIOL 663.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 567. Conservation Biology 3 Units****Term Typically Offered:** Spring Only**Prerequisite(s):** BIOL 363 or permission of instructor.**Description:** This course provides an overview of theory and practice of conservation. Topics include biodiversity, habitat loss, the effects of habitat changes on populations, and the design and establishment of reserves. Among other things, students will learn: 1) key terms and concepts related to biodiversity, 2) significant threats to biodiversity and efforts to mitigate them, and 3) practical and socioeconomic elements of conservation biology.**Note:** Credit may not be earned for both BIOL 567 and BIOL 667.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 569. Evolution 3 Units****Prerequisite(s):** BIOL 363.**Description:** Offers a comprehensive overview of evolution and provides students with a review of issues that make up this critical discipline.**Note:** Credit may not be earned in both BIOL 569 and BIOL 669.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 571. Selected Topics 3 Units****Term Typically Offered:** Occasionally Offered**Description:** Contents to be indicated in schedule of courses.**Course Attribute(s):** CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 572. Selected Topics-Laboratory 1-4 Units****Description:** Contents to be indicated in schedule of courses.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 591. Biology for Teachers I 3 Units****Term Typically Offered:** Occasionally Offered**Prerequisite(s):** Experience in teaching biology or biological principles in elementary, middle or secondary school.**Description:** Teaching pre-college biology with emphasis on curriculum content, laboratory procedures, and process skills.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 593. Experimental Cell Biology for Teachers 3 Units****Prerequisite(s):** BIOL 240, BIOL 242, BIOL 244, BIOL 329, BIOL 330, and BIOL 331 or equivalent; or consent of instructor.**Description:** Lecture and lab activities focused on inquiry-based investigations at the cellular level suitable for secondary school classroom.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BIOL 594. Experimental Botany for Teachers 3 Units****Prerequisite(s):** BIOL 240, BIOL 242, BIOL 244, BIOL 329, BIOL 330, BIOL 331 or equivalent, or consent of instructor.**Description:** This course is designed for pre-service and classroom teachers of the life sciences from elementary through high school. To increase teachers' abilities to teach sciences, especially botany, using inquiry-oriented strategies.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

Business (BUS)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (https://csprd.louisville.edu/ps/ps_class/EMPLOYEE/PSFT_CS/c/COMMUNITY_ACCESS.CLASS_SEARCH./x/?state=62dab551a0d600a5e8237359c50704e59007&duo_code=sjUx20STj21bIWVEU)

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (<https://louisville.edu/bursar/tuitionfee/university-fees/>).

BUS 201. Career Development 1 Unit

Term Typically Offered: Fall, Spring, Summer

Prerequisite(s): Admission to College of Business, Sophomore standing.

Fee: An additional \$10.00 is charged for this course.

Description: Introduces business students to career development, including the importance of career planning.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BUS 301. Business Communication 3 Units

Term Typically Offered: Fall, Spring, Summer

Prerequisite(s): Completion of Written Communication and Oral Communication General Education requirements.

Fee: An additional \$30.00 is charged for this course.

Description: Students will learn to tailor messages to specific receivers in order to meet business goals. They will develop their ability to be professional, clear, concise, evidence-driven, and persuasive in communication interactions.

Note: Restricted to students admitted to the College of Business.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BUS 310. Business Analytics 3 Units

Term Typically Offered: Fall, Spring

Prerequisite(s): ACCT 201 and ACCT 202, BSTA 201, CIS 205, FIN 301 or FIN 302, MGMT 301.

Description: Restricted to BBA students and Management Minors not majoring in the College of Business. Contemporary businesses depend on analytics to grow, sustain, and adapt to the challenges of their marketplace. This course introduces students to common analytic concepts in order to better position them to understand, utilize, and disseminate data and other forms of business evidence. The course focuses on real-world examples and applications to illustrate how business analytics informs decision-making while introducing students to basic statistical and visualization tools commonly used in the workplace.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BUS 311. Personal Influence in Business 3 Units

Term Typically Offered: Spring Only

Fee: An additional \$30.00 is charged for this course.

Description: Persuasion is imperative to any business. This course analyzes recent theories of influence and applies those theories to situations relevant to your career. The focus is to investigate how persuasion works most effectively in examples and scenarios so that you may implement them in real-life situations you encounter in the marketplace.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BUS 397. Co-op in Business I 1-3 Units

Grading Basis: Pass/Fail

Term Typically Offered: Fall, Spring, Summer

Prerequisite(s): Student must be in good academic standing in the College of Business; BBA majors only.

Description: Prerequisites or corequisites: CIS 305 and BUS 201 A new workplace experience in an approved position which offers a progression of learning at a level appropriate for practical application of classroom theory and tools.

Note: Applications to the co-op program and completion of orientation processes should be completed prior to employment.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BUS 398. Co-op in Business II 1-3 Units

Grading Basis: Pass/Fail

Term Typically Offered: Fall, Spring, Summer

Prerequisite(s): Student must be in good academic standing in the College of Business; BBA majors only.

Description: Prerequisites or corequisites: CIS 305 and BUS 201 A new workplace experience in an approved position which offers a progression of learning at a level appropriate for practical application of classroom theory and tools.

Note: Applications to the co-op program and completion of orientation processes should be completed prior to employment.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BUS 399. Co-op in Business 3 Units

Grading Basis: Pass/Fail

Term Typically Offered: Fall, Spring, Summer

Prerequisite(s): Students must be in good academic standing in the College of Business; BBA majors only.

Description: Prerequisites or corequisites: CIS 305 and BUS 201 A new workplace experience in an approved position which offers a progression of learning at a level appropriate for practical application of classroom theory and tools. Application to the co-op program and completion of orientation processes should be accomplished prior to employment.

Note: Restricted to College of Business BBA majors.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BUS 401. Executive Communication 3 Units

Term Typically Offered: Spring Only

Prerequisite(s): COMM 111 or COMM 112 ENGL 101 or ENGL 102 BUS 301.

Fee: An additional \$45.00 is charged for this course.

Description: High-quality communication is imperative to the success of business leaders. This course provides theory and training in communication areas pivotal to the success of executives, namely listening skills, narrative-building, inspiration, apology, and interpretation.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

BUS 431. Honors Seminar in Business**Prerequisite(s):** Permission of business honors coordinator.**Fee:** An additional \$45.00 is charged for this course.**Description:** Interdisciplinary honors seminar. Topics vary. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BUS 441. Honors Seminar in Business****Term Typically Offered:** Spring Only**Prerequisite(s):** Permission of business honors coordinator.**Fee:** An additional \$30.00 is charged for this course.**Description:** Interdisciplinary honors seminar. Topics vary. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BUS 450. Business Applications****Prerequisite(s):** MGMT 301, MKT 301, FIN 301, and CIS 300.**Fee:** An additional \$30.00 is charged for this course.**Description:** Using an online simulation, students will make decisions using the various aspects of business (marketing, finance, production, etc.) to run a manufacturing business. The focus is on applying the business concepts learned in the business core classes. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BUS 490. Special Topics in Business****Term Typically Offered:** Fall Only**Prerequisite(s):** Junior standing or instructor permission .**Fee:** An additional \$60.00 is charged for this course.**Description:** A variety of topics in business will be studied. Course content will vary but the content will not duplicate current offerings. A student may take this for credit more than once as long as the same topics were not covered in the previous course.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**BUS 499. Independent Study in Business****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** Approval of Associate Dean for Undergraduate Programs.**Fee:** An additional \$30.00 is charged for this course.**Description:** Allows students to select a business subject for study that is not currently offered as part of the curriculum.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**3 Units Course Fees**Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. CHE 205. Introduction to Chemical Engineering**3 Units****Term Typically Offered:** Summer Only**Prerequisite(s):** ENGR 101, CHEM 201.**Corequisite(s):** CHE 230.**Description:** Overview of chemical engineering practice and basic principles; problem-solving techniques; open-ended problems and hands-on projects to introduce design concepts.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHE 211. Chemical Engineering Thermodynamics I**3 Units****Term Typically Offered:** Fall Only**Prerequisite(s):** ENGR 102 and CHEM 202.**Description:** Development of first law, PVT behavior of pure fluids and heat effects, development of second law, thermodynamic properties of pure fluids, applications of first and second laws to realistic chemical engineering problems, conversion of heat and work-basic cycles.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHE 230. Computer Applications in Chemical Engineering**2 Units****Term Typically Offered:** Summer Only**Prerequisite(s):** ENGR 101, CHEM 201.**Corequisite(s):** CHE 205.**Description:** Introduction to computer software relevant to solving ChE problems, development of computer solutions to selected problems involving thermodynamics, fluid dynamics, heat and mass transfer, and reactor design.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHE 253. Materials Science**3 Units****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** CHEM 201.**Description:** The properties of materials as reflected by the atomic and electronic structure of their constituent elements. Mechanical, thermal, electrical, magnetic, optical, and chemical characteristics of metallic, ceramic, polymeric, and composite solids.

CHE 305. Material and Energy Balances Term Typically Offered: Fall Only Prerequisite(s): ENGR 102 and CHE 205. Description: Stoichiometry, material balances, energy balances, combined material and energy balances for non-flow and flow systems. Problem solving and introduction of computer methods in chemical engineering. Career orientation. Open-ended problems introduce design concepts. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	4 Units	CHE 401. Safety, Health and Environment Term Typically Offered: Summer Only Prerequisite(s): CHE 305. Description: A survey of the common regulations that Chemical Engineers deal with in the process industries, e.g., OSHA, RCRA, TSCA, etc. Overview of safety, health and environmental issues that Chemical Engineers in the process industries must consider. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit
CHE 312. Chemical Engineering Thermodynamics II Term Typically Offered: Summer Only Prerequisite(s): CHE 211. Description: Fluid mixtures and mixed phase systems, basic vapor-liquid equilibrium (VLE), followed by theory and application of solution thermodynamics, chemical-reaction equilibrium; extension of phase equilibria to include liquid-liquid (LL), vapor-liquid-liquid (VLL), solid-liquid (SL), and solid-vapor (SV) systems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 405. Practicum in Chemical Engineering Education Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CHE 253, CHE 305, and consent of the instructor. Description: A guided learning experience in inquiry-based instructional techniques and best practices in STEM education that includes field experience as an undergraduate teaching assistant. Permission to enroll is required. Note: May be repeated for a maximum of 3 credit hours. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit
CHE 331. Principles of Fluid Dynamics Term Typically Offered: Summer Only Prerequisite(s): CHE 305 Principles of momentum transfer; Newtonian and non-Newtonian behavior; friction factors and pressure drops in laminar and turbulent flow; design of piping systems and fluid metering devices; fluid moving machinery-types, characteristics and selection of pumps and compressors. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 430. Computer Applications in Chemical Engineering Term Typically Offered: Spring Only Prerequisite(s): ENGR 205, CHE 312, and CHE 331. Description: Computer solutions of selected problems involving thermodynamics, fluid dynamics, heat transfer, and reactor design. May include introduction to process simulators such as ASPEN PLUS, ChemCAD etc. Problems include modeling and design of piping networks, reactors, separation processes, etc. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHE 351. Physical Chemistry Term Typically Offered: Spring Only Prerequisite(s): CHE 312. Description: Correlation of molecular, physical and chemical phenomena to properties of matter and to common engineering situations. Topics include statistical thermodynamics, kinetics and surface chemistry, photochemistry and electrochemical systems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 433. Principles of Heat and Mass Transfer Term Typically Offered: Spring Only Prerequisite(s): ENGR 205, CHE 312, and CHE 331. Description: Fundamental mechanisms of heat transfer through conduction, convection and radiation and their correlation to the principles of mass transfer with applications to the design of heat exchange equipment as well as continuous and stage-wise mass transfer operations. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHE 389. Chemical Engineering Cooperative Education II Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): ENGR 205, CHE 289, CHE 312, and CHE 331. Fee: An additional \$300.00 is charged for this course. Description: Full-time technical work experience related to the student's academic program. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CHE 436. Separation Operations Term Typically Offered: Fall Only Prerequisite(s): CHE 433. Description: A study of mechanical and chemical separation operations based on the principles of momentum transfer and simultaneous heat and mass transfer. Both traditional and newer separation methods included. Component design is emphasized. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	4 Units

CHE 441. Kinetics and Chemical Reactors Term Typically Offered: Spring Only Prerequisite(s): CHE 312 and CHE 331. Description: Basic kinetics for batch reactors, including data analysis by integral and differential methods. Design of tubular and tank reactors for homogeneous reaction systems, including non-isothermal effects and product selectivity problems. Enzyme kinetics. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 489. Chemical Engineering Cooperative Education III Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CHE 389 and CHE 433. Fee: An additional \$300.00 is charged for this course. Description: Full-time technical work experience related to the student's academic program. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit
CHE 461. Elements of Process Control Term Typically Offered: Spring Only Prerequisite(s): ENGR 205 and CHE 436. Description: Linear control theory and its application to the solution of process control problems. Design of control schemes. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 493. Undergraduate Research in Chemical Engineering Term Typically Offered: Occasionally Offered Prerequisite(s): Approval of a faculty sponsor. Description: Students will perform independent and guided research under the direction of a faculty member. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1-6 Units
CHE 471. The Strategy of Design Term Typically Offered: Fall Only Prerequisite(s): CHE 401, CHE 433 and CHE 441. Description: The techniques and strategies of chemical process design. Technical factors, including synthesis paths, process synthesis, utilities, controls, instrumentation, safety, health and environmental issues, etc. and economic factors such as measures of profitability, time value of money, etc. are considered in developing flowsheets for a chemical process. A case-study approach is used. Computer techniques involving spreadsheets and simulators are used where applicable. Rewriting and editing of a series of written assignments is expected. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 494. Current Topics in Chemical Engineering Prerequisite(s): Permission of instructor; varies depending on the topic. Description: Current topics and recent developments in the field of Chemical Engineering will be presented on an as-needed basis. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHE 485. Unit Operations Laboratory I Term Typically Offered: Fall Only Prerequisite(s): CHE 433. Description: Selected experiments covering the areas of fluid mechanics, momentum and heat transfer. Written technical communications covering experiments will be emphasized. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2 Units	CHE 502. Biochemical Engineering Term Typically Offered: Occasionally Offered Prerequisite(s): CHE 433 (or concurrent) and CHE 441 (or concurrent). Description: Engineering principles related to operations involving biological processes, e.g., fermentation. Basic microbiology and biochemistry; biochemical reaction mechanisms, kinetics, rate processes, and separation techniques. Applications to foods, pharmaceuticals, and waste treatment, including system design. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHE 486. Unit Operations Laboratory II Term Typically Offered: Spring Only Prerequisite(s): CHE 436 and CHE 441. Description: Selected mass transfer experiments covering such areas as filtration, drying, distillation, evaporation, absorption, membrane separations, kinetics, fermentation, environmental concerns, etc. Written and oral technical communications covering the experiments will be emphasized. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2 Units	CHE 503. Fundamentals of Engineering Examination Review Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): 4th-year standing. Description: Review of topics covered on eight-hour NCEES Fundamentals of Engineering examination. Not to be counted towards meeting the requirements for a degree. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2 Units

CHE 509. Environmental Processes and Systems Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 309 or CHE 401. Description: This course examines scientific and engineering aspects of environmental problems, stressing important issues, existing technical solutions and new solutions. The course presents engineering approaches to natural systems and describes techniques to treat/eliminate environmental problems. Note: Cross-listed with CEE 509. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 535. Pollution Prevention Term Typically Offered: Fall, Spring, Summer Prerequisite(s): 90 or more credit hours. Description: Multimedia pollution prevention and waste minimization of hazardous and non-hazardous wastes and emissions: toxics use reduction; source reduction; reuse, reclamation and recycling; product life-cycle analysis; economic evaluation; assessments; planning and management. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHE 520. Modeling and Transport Phenomena Term Typically Offered: Spring Only Prerequisite(s): CHE 433 and CHE 441. Description: An introduction to the interrelationship of momentum, heat and mass transport focusing on the development of the equations of change through the use of shell balances and their relation to earlier courses in fluids, heat and mass transfer. Some focus will be placed on this using material in the modeling of basic chemical engineering systems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 550. Kinetics of Polymer Reactions Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CHE 441 and CHEM 341. Description: Kinetic expressions are developed for several polymer reaction mechanisms including chain, step, ionic and emulsion reactions; copolymerization; polymer reaction engineering; molecular weight distributions; structural considerations; design considerations. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHE 532. Advanced Material Science Term Typically Offered: Fall, Spring, Summer Prerequisite(s): 90 or more credit hours. Description: Advanced study of materials science. Topics may include the electronic and atomic structure of materials; properties characterized by electron motion; properties associated with atomic motion; applications and synthesis of fundamentals to several real problems; science of thin films; or other topics selected by the instructor. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 551. Polymer Science Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CHEM 341. Description: Introduction to polymer science and engineering. Polymer synthesis, kinetics, structure, and properties; commercial polymers; polymer processing; equipment design. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHE 533. Chemical Engineering Safety and Health Term Typically Offered: Fall, Spring, Summer Prerequisite(s): 90 or more credit hours. Description: Overview of regulations and industrial practices, emphasizing chemical hazards, including: industrial hygiene, toxicology, controls and hazards analysis. Safety considerations in process design. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 562. Process Control Laboratory Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CHE 461. Description: A laboratory course demonstrating computer simulation and the characteristics of sensing and control devices and their interactions when incorporated into process control systems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit
CHE 534. Industrial Waste Management Term Typically Offered: Fall, Spring, Summer Prerequisite(s): 90 or more credit hours. Description: A survey of regulations, generation, control and management of industrial wastes and environmental hazards: airborne, aqueous, solids and hazardous wastes. Course includes guest speakers, site visits and a term project. Design of waste treatment facilities. Note: Cross-listed with CEE 534. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHE 572. Plant Process and Project Design - CUE Term Typically Offered: Spring Only Prerequisite(s): CHE 471. Description: The design and economic evaluation of a chemical plant, from process definition and flow sheet construction to a cash position diagram and measures of profitability. Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status., CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

CHE 574. Techniques of Research**3 Units****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** 90 or more credit hours.**Description:** The design, analysis, and interpretation of experimental results to obtain the desired information within reasonable constraints of time and expense. Testing predictions and making reliable decisions utilizing graphical, numerical, and statistical techniques.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CHE 581. Chemical Vapor Deposition and Processing****3 Units****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** CHE 253, CHE 441 and CHE 436 or the consent of the instructor.**Description:** Theoretical and experimental concepts involved with chemical vapor desposition and processing of advanced and nanomaterials.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CHE 593. Independent Study in Chemical Engineering****1-6 Units****Term Typically Offered:** Fall, Spring, Summer**Description:** Independent research conducted with the approval and supervision of a faculty member.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CHE 594. Special Topics in Chemical Engineering****3 Units****Term Typically Offered:** Fall, Spring, Summer**Description:** An examination of one or more specific areas of Chemical Engineering. Details announced each semester.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CHE 595. Master of Engineering Seminar in Chemical Engineering****1 Unit****Grading Basis:** Pass/Fail**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** Fifth-year standing.**Description:** Presentation and/or discussion of topics of current interest. This course is available to students enrolled in the professional school, division of higher studies or the Graduate School.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

Chemistry (CHEM)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (https://csprd.louisville.edu/psp/ps_class/EMPLOYEE/PSFT_CS/c/COMMUNITY_ACCESS.CLASS_SEARCH.x/?state=62dab551a0d600a5e8237359c50704e59007&duo_code=sjUx20STj21bIWVEuQ3Z1YRjHmfxpqoV).

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (<https://louisville.edu/bursar/tuitionfee/university-fees/>).

CHEM 100. Elements of General Chemistry**3 Units****Prerequisite(s):** Completion of general education requirement in mathematics recommended.**Description:** The basic concepts of general and inorganic chemistry including an introduction to the periodic table, atomic and molecular structure, and chemical reactions and equilibria. This course is recommended as preparation for CHEM 201.**Note:** May not be counted toward major in Chemistry.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CHEM 101. Chemistry and Contemporary Society - S****3 Units****Term Typically Offered:** Fall, Spring, Summer**Description:** A one-semester introduction to inorganic, organic, and biochemistry for non-majors. The course is designed to provide a general background for an elementary understanding of chemistry and societal issues related to chemistry. May also be taken by the less-prepared student as preparation for CHEM 201.**Note:** Not counted toward major in Chemistry.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CHEM 103. Introductory Chemistry Laboratory - SL****1 Unit****Term Typically Offered:** Fall, Spring**Prerequisite(s):** Concurrent enrollment in or completion of CHEM 101 or CHEM 105.**Fee:** An additional \$70.00 is charged for this course.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CHEM 105. Chemistry for Health Professionals - S****4 Units****Term Typically Offered:** Fall, Spring, Summer**Description:** An introductory survey of both general and organic chemistry with an emphasis on the relationship of chemistry to life processes, health, and nutrition.**Note:** Not counted toward major in chemistry.**Note:** Does not fulfill general education lab requirement.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 201. General Chemistry I - S Term Typically Offered: Fall, Spring, Summer Prerequisite(s): 1) For students with 15 or fewer hours earned at UofL or another university: an Accuplacer AAF score of 250 or higher, a math ACT score of 26 (SAT Math of 610) or higher, or an ACT composite of 27 (SAT 1260) or higher; or 2) For students with 12 or more credit hours earned at UofL or another university: an overall GPA equivalent to a C+(2.30) or higher, and either a minimum grade of C (not C-) in MATH 180 or higher, or a minimum grade of C (not C-) in CHEM 101 or CHEM 105. Description: An introduction to the basic concepts and principles of modern chemistry. Special emphasis on chemical periodicity, stoichiometry, equilibrium, thermodynamics, kinetics, atomic and molecular structure, and descriptive chemistry of the elements. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHEM 210. Introduction to Chemical Analysis IV Term Typically Offered: Fall, Spring Prerequisite(s): Completion of or concurrent enrollment in CHEM 202 and completion of CHEM 209. Fee: An additional \$45.00 is charged for this course. Description: Continuation of CHEM 209; intended especially for Chemistry majors; introduction to instrumental methods of chemical analysis. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit
CHEM 202. General Chemistry II - S Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CHEM 201. Description: A continuation of the basic concepts and principles of modern chemistry. Topics include equilibria, thermodynamics, kinetics, electrochemistry, nuclear chemistry and/or descriptive chemistry of the elements. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHEM 320. Chemical Information Resources Prerequisite(s): CHEM 341. Description: The use of printed material and computer based literature search techniques focused on finding specific information on a designated topic. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit
CHEM 207. Introduction to Chemical Analysis I - SL Term Typically Offered: Fall, Spring, Summer Prerequisite(s): 1) For students with 15 or fewer hours earned at UofL or another university: an Accuplacer AAF score of 250 or higher, a math ACT score of 26 (SAT Math of 610) or higher, or an ACT composite of 27 (SAT 1260) or higher; or 2) For students with 12 or more credit hours earned at UofL or another university: an overall GPA equivalent to a C+(2.30) or higher, and either a minimum grade of C (not C-) in MATH 180 or higher, or a minimum grade of C (not C-) in CHEM 101 or CHEM 105. Fee: An additional \$45.00 is charged for this course. Description: An introduction to the Chemistry laboratory with an emphasis on qualitative analysis. Students are expected to have completed or be enrolled in CHEM 201. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CHEM 341. Organic Chemistry I Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Completion of CHEM 202. Description: Basic principles of organic chemistry: structure and geometry of molecules and consequential physical, chemical, and spectroscopic properties; chemical reactions, mechanisms, and synthetic applications; industrial and biological examples. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHEM 208. Introduction to Chemical Analysis II - SL Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Completion of or concurrent enrollment in CHEM 201 and completion of CHEM 207. Fee: An additional \$45.00 is charged for this course. Description: CHEM 208 is a continuation of CHEM 207. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CHEM 342. Organic Chemistry II Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Completion of CHEM 341. Description: Continuation of the basic principles of organic chemistry; structure and geometry of molecules and consequential physical, chemical, and spectroscopic properties; chemical reactions, mechanism, and synthetic applications; functional group chemistry and biomolecules. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHEM 209. Introduction to Chemical Analysis III Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CHEM 208 and successful completion of or concurrent registration in CHEM 202. Fee: An additional \$45.00 is charged for this course. Description: Continuation of CHEM 208. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CHEM 343. Organic Chemistry Laboratory I Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Completion of CHEM 209 and concurrent enrollment in or completion of CHEM 341. Fee: An additional \$80.00 is charged for this course. Description: Techniques of modern organic chemistry: syntheses, mechanistic studies, identification of unknowns by chemical and spectroscopic methods, special projects. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2 Units

CHEM 344. Organic Chemistry Laboratory II Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Completion of CHEM 343 and concurrent enrollment in or completion of CHEM 342. Fee: An additional \$80.00 is charged for this course. Description: Techniques of modern organic chemistry: syntheses, mechanistic studies, identification of unknowns by chemical and spectroscopic methods, special projects. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2 Units	CHEM 420. Cooperative Internship in Chemistry - CUE, WR Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Chemistry through 344, department chair consent and junior standing. Description: An individually arranged course combining work experience with related academic work in chemistry. Each student is required to submit a written report along with an employer evaluation at the end of each co-op period. The report will be reviewed and graded by the co-op director. Note: Approved for the Arts and Sciences Upper-Level Requirement in Written Communication (WR). Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.	1-3 Units
CHEM 390. Undergraduate Research - CUE, WR Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CHEM 344, faculty consent and junior standing. Description: Each student is required to submit a written report (2400 words) to the research advisor near the end of the semester. The advisor will critique the report and return it to the student for revision and submission to the advisor and the department chair at the end of the semester. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR). Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.	3 Units	CHEM 425. Instrumental and Statistical Analysis Term Typically Offered: Fall Only Prerequisite(s): CHEM 210 and CHEM 341. Description: Modern instrumental approaches to chemical analysis including atomic and molecular spectroscopy, chromatographic methods, electrochemistry, and statistical analysis of data. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)		CHEM 426. Instrumental and Statistical Analysis Laboratory - WR Prerequisite(s): CHEM 210. Fee: An additional \$70.00 is charged for this course. Description: Prerequisites or corequisites: CHEM 425. A laboratory course that covers modern instrumental approaches and advanced data analysis to chemical analysis. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).	
CHEM 391. Undergraduate Research - CUE Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Faculty consent. Description: Each student is required to submit a written report to the research advisor and the Chemistry Department chair at the end of each research period. Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.	1-3 Units	For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)		CHEM 430. Practicum in Chemistry Education - CUE Term Typically Offered: Fall, Spring Prerequisite(s): CHEM 342 and CHEM 344; majors only; permission to enroll required; minimum 3.0 GPA in chemistry to be eligible. Description: A guided learning experience in inquiry-based instructional methods and best practices in STEM education. This course includes experimental learning as an undergraduate teaching assistant. Note: May be repeated for a maximum of 3 credit hours. Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.	1 Unit
CHEM 392. Undergraduate Research - CUE Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Faculty consent. Description: Each student is required to submit a written report to the research advisor and the Chemistry Department chair at the end of each research period. Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.	1-3 Units	For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)			

CHEM 441. Elements of Physical Chemistry Term Typically Offered: Fall Only Prerequisite(s): CHEM 202; PHYS 222 or PHYS 299; and MATH 205. Description: Survey of Physical Chemistry. Course content includes states of matter, laws of thermodynamics and their applications, chemical and biological kinetics, quantum chemistry, and spectroscopy. Note: Credit may not be earned for this course and CHEM 465 and CHEM 466. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHEM 466. Physical Chemistry II Term Typically Offered: Spring Only Prerequisite(s): CHEM 465. Description: Thermodynamics, statistical thermodynamics, chemical equilibrium and reaction kinetics from a molecular point of view. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHEM 445. Survey of Biochemistry Term Typically Offered: Spring Only Prerequisite(s): CHEM 342. Description: A survey of chemical characteristics of the constituents of living matter; cellular metabolism of proteins, nucleic acids, carbohydrates and lipids. Note: This course will not count as credit for BS major with concentration in biochemistry. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHEM 470. Physical Chemistry Laboratory - WR Term Typically Offered: Spring Only Prerequisite(s): CHEM 210; CHEM 441 or CHEM 465. Fee: An additional \$60.00 is charged for this course. Description: Laboratory experiments and related lecture on properties of gases, thermochemistry, kinetics, electro-chemistry, laser techniques in chemical processes, spectroscopic methods including FTIR, EPR and X-ray crystallography. Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR). Note: Fulfills one WR requirement. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2 Units
CHEM 450. Introduction to Computational Chemistry and Molecular Modeling Term Typically Offered: Occasionally Offered Prerequisite(s): CHEM 342 and MATH 205; PHYS 299 or PHYS 222. Description: A discovery-based approach to common calculations in computational chemistry including how to optimize geometry, locate and characterize transition states, and calculate transition barriers and heats of reaction. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHEM 491. Undergraduate Research - CUE Term Typically Offered: Fall, Summer Prerequisite(s): Faculty consent. Description: Each student is required to submit a written report to the research advisor and the Chemistry Department chair at the end of each research period. Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1-3 Units
CHEM 451. Senior Research Seminar Prerequisite(s): CHEM 591, or CHEM 392 and permission of the research director. Description: Preparation of the Senior Thesis and an oral presentation of it before a group of peers and faculty. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CHEM 492. Undergraduate Research Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Faculty consent. Description: Each student is required to submit a written report to the research advisor and the Chemistry Department chair at the end of each research period. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1-3 Units
CHEM 465. Physical Chemistry I Term Typically Offered: Fall Only Prerequisite(s): CHEM 202; PHYS 222 or PHYS 299; concurrent registration in MATH 301. Description: Introduction to the quantum theory of atoms, molecules and the chemical bond. The use of spectroscopy in the determination of molecular structure and chemical function. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHEM 501. Independent Study Prerequisite(s): Minimum GPA of 3.0 overall; minimum GPA of 3.5 in department and at least 18 semester hours credit in the department. Description: Independent research conducted with the approval and supervision of a faculty member. Note: Credit may not be applied to an advanced degree in Chemistry. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1-3 Units

CHEM 503. Special Topics in Chemistry**1-3 Units**

Description: An examination of one or more specified areas of Chemistry. Details announced each semester.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 515. Inorganic Chemistry**3 Units**

Term Typically Offered: Fall Only

Prerequisite(s): CHEM 342; concurrent enrollment in CHEM 441 or CHEM 465.

Description: Descriptive and theoretical chemistry of the elements.

Note: Credit may not be applied to an advanced degree in Chemistry.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 527. Spectroscopic Identification of Organic Compounds - WR**3 Units**

Term Typically Offered: Fall Only

Prerequisite(s): CHEM 342 and CHEM 344.

Fee: An additional \$60.00 is charged for this course.

Description: An introductory spectroscopy course designed to provide a realistic experience in organic structure determination using the principal methods of spectral characterization. Emphasis is placed on using mass spectrometry, ¹H and ¹³C nuclear magnetic resonance spectroscopy, and infrared spectroscopy to deduce the molecular structures of organic compounds.

Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 528. Contemporary Methods of Organic Synthesis and Analysis - CUE**2 Units**

Term Typically Offered: Spring Only

Prerequisite(s): CHEM 342, CHEM 344, and (CHEM 425 or CHEM 527).

Fee: An additional \$60.00 is charged for this course.

Description: A discovery-based approach to the solution of problems encountered in organic chemical synthesis and analysis.

Note: Credit may not be applied to an advanced degree in Chemistry.

Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 529. Contemporary Methods of Inorganic Synthesis and Analysis - WR**2 Units**

Term Typically Offered: Spring Only

Fee: An additional \$60.00 is charged for this course.

Description: Prerequisites or corequisites: CHEM 515. A discovery-based approach to the solution of problems encountered in inorganic chemical synthesis and analysis.

Note: Credit may not be applied to an advanced degree in Chemistry.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 532. Chemistry Education for Secondary Teachers**4 Units**

Prerequisite(s): CHEM 342 In-depth examination of chemistry content for secondary teachers as aligned with national and state standards.

Description: Inquiry-based laboratory and diverse assessment of core concepts will be developed.

Note: Does not count toward a degree in Chemistry except by departmental permission.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 545. Biochemistry I**3 Units**

Term Typically Offered: Fall Only

Prerequisite(s): CHEM 342.

Description: Chemistry of amino acids, peptides, proteins, carbohydrates, nucleotides and nucleic acids; methods of analysis and laboratory synthesis; enzyme properties, kinetics, ligand binding.

Note: Credit may not be earned in both CHEM 545 and CHEM 645, or in both CHEM 545 and CHEM 445.

Note: Credit may not be applied toward an advanced degree in Chemistry.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 546. Biochemistry Laboratory**2 Units**

Term Typically Offered: Occasionally Offered

Prerequisite(s): CHEM 445 or concurrent enrollment in CHEM 545.

Fee: An additional \$60.00 is charged for this course.

Description: Application of contemporary laboratory methods of biochemistry including uv/vis spectrophotometry, liquid chromatography centrifugation, gel electrophoresis, mass spectrometry, FTIR, and recombinant DNA techniques.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 547. Biochemistry II**3 Units**

Term Typically Offered: Occasionally Offered

Prerequisite(s): CHEM 545.

Description: Cellular metabolism of carbohydrates, lipids, amino acids and biomembrane phenomena; RNA, DNA, and protein synthesis.

Note: Credit may not be earned in both CHEM 547 and CHEM 647, or in both CHEM 547 and CHEM 445.

Note: Credit may not be applied to an advanced degree in chemistry.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 550. Group Theory and its Chemical Applications**3 Units**

Term Typically Offered: Occasionally Offered

Prerequisite(s): CHEM 441 or CHEM 465 Elementary group theory; the use of group theory to treat symmetry; application to atomic structure, molecular structure, spectroscopy, and reaction mechanisms.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 555. Theory and Application of Computational Chemistry 3 Units
Prerequisite(s): CHEM 441 or CHEM 465 or PHYS 300.

Description: Theory and Application of Computational Chemistry will be a combined elective undergraduate and graduate level course. The purpose of the course is to provide students with the necessary knowledge such that they can examine chemical problems computationally and where required, use computational tools to benefit their own research. The course will emphasize practical applications of computers in chemistry, trends that define the appropriate methods for chemical studies, and elucidation of underlying theoretical methods. As the abstract nature of the field is frequently a learning barrier to many students, the course will incorporate a series of workshops to enable students to build their own computer programs and study chemical problems computationally. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 557. Bio-Organic Phenomena 3 Units
Term Typically Offered: Spring Only
Prerequisite(s): CHEM 342 (or equivalent).

Description: Completion of CHEM 445, CHEM 545, or equivalent is strongly recommended. Special topics in the biological chemistry area: e.g., chemical carcinogenesis; diet and cancer, food chemistry and polypeptides; proteins; carbohydrates; enzymes; hormone chemistry. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHEM 591. Chemistry for Teachers I 3 Units
Prerequisite(s): For graduate education majors; must have experience in teaching chemistry principles in elementary, middle, or secondary schools.

Description: Teaching pre-college chemistry with emphasis on curriculum content, laboratory procedures, and process skills. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

Chinese (CHNS)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (https://csprd.louisville.edu/psd/ps_class/EMPLOYEE/PSFT_CS/c/COMMUNITY_ACCESS.CLASS_SEARCH./x/?state=62dab551a0d600a5e8237359c50704e59007&duo_code=sjUx20STj21BwVLEu3214Hjpmxpa6v7)

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (<https://louisville.edu/bursar/tuitionfee/university-fees/>).

CHNS 101. Elementary Chinese I 3 Units
Term Typically Offered: Fall Only

Description: For beginners. Introduction to fundamentals of Mandarin Chinese, including pronunciation, grammar, and some Chinese characters, with emphasis on all four basic language skills - speaking, listening comprehension, reading and writing. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHNS 102. Elementary Chinese II 3 Units
Term Typically Offered: Fall, Spring

Prerequisite(s): CHNS 101 or equivalent.
Description: Continued work on fundamentals of Mandarin Chinese, including pronunciation, grammar, and additional Chinese characters, with emphasis on all four basic language skills - speaking, listening comprehension, reading and writing. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHNS 200. Study Abroad 1-15 Units
Term Typically Offered: Occasionally Offered

Description: Participation in a University of Louisville study abroad program or another program undertaken with prior approval of the Department. Credit is awarded with proof of successful completion. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHNS 201. Intermediate Chinese I 3 Units
Term Typically Offered: Fall Only

Prerequisite(s): CHNS 102 or equivalent.
Description: Designed to strengthen communication skills of listening, speaking, reading and writing. Grammar review, mastery of 500 Chinese characters; insights into China, its language and culture. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHNS 202. Intermediate Chinese II 3 Units
Term Typically Offered: Occasionally Offered

Prerequisite(s): CHNS 201 or equivalent.
Description: Continued work on communicative skills of listening, speaking, reading and writing. Mastery of additional signs; insights into China, its language and culture. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHNS 300. Study Abroad 1-15 Units
Term Typically Offered: Occasionally Offered

Description: Participation in a University of Louisville study abroad program or another program undertaken with prior approval of the department. Credit is awarded with proof of successful completion. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHNS 301. Advanced Intermediate Chinese I Term Typically Offered: Fall Only Prerequisite(s): Completion of CHNS 202 or equivalent. Description: Increase ability to read, write, speak and understand Chinese. Learn new characters and master use of a Chinese-English dictionary. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHNS 455. Advanced Readings in Chinese I Term Typically Offered: Fall Only Prerequisite(s): CHNS 302 or permission of the instructor. Description: Enhances the student's ability to read and understand modern written Chinese by examining authentic literary and non-literary texts. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHNS 302. Advanced Intermediate Chinese II Term Typically Offered: Spring Only Prerequisite(s): Completion of CHNS 301 or equivalent. Description: Emphasis on four language skills continues. Mastery of up to 800 Chinese characters; learn new words from context and character combinations. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHNS 456. Advanced Readings in Chinese II Term Typically Offered: Occasionally Offered Prerequisite(s): CHNS 455 or permission of the instructor. Description: Continuation of CHNS 455. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHNS 311. Independent Study Term Typically Offered: Occasionally Offered Prerequisite(s): CHNS 202 (or equivalent), or permission of instructor. Description: Independent study in Chinese language, literature and culture. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CHNS 551. Special Topics Term Typically Offered: Occasionally Offered Prerequisite(s): CHNS 456 (or equivalent), or permission of the instructor. Description: The course aims at bridging the gap between students advanced skills of spoken Chinese and their understanding of the complexity of advanced written Chinese. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CHNS 313. Special Topics in Chinese Literature, Language, and Culture Term Typically Offered: Occasionally Offered Prerequisite(s): CHNS 102. Description: Study of an aspect of Chinese Literature, culture and /or language. Note: May be repeated once for credit. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	<h2>Chinese Studies (CHST)</h2> <p>Subject-area course lists indicate courses currently active for offering at the University of Louisville. CHNS 321. Chinese Conversation I Term Typically Offered: Fall Only Prerequisite(s): CHNS 202 or equivalent. Description: The course is designed to help students achieve an intermediate level of communication through practicing Chinese while discussing a variety of topics. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	<hr/> CHST 270. Tales of the Chinese Diaspora - D2, AH Term Typically Offered: Fall Odd Years Description: An introduction to Chinese historical, global migrations in modern times, the reciprocal influences between Chinese and non-Chinese cultures, and Chinese ethnicity and identities within the global context. Note: Cross-listed with M L 270 and AST 270. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	
CHNS 322. Chinese Conversation II Term Typically Offered: Occasionally Offered Prerequisite(s): CHNS 321 or equivalent. Description: The course is designed to help students achieve an advanced intermediate level of communication through practicing Chinese while discussing a variety of topics. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units		

CHST 271. Chinese Popular Culture - AH, D2**3 Units****Term Typically Offered:** Fall Only**Description:** This course is an introduction to modern and contemporary Chinese pop culture and its global significance.**Note:** Cross-listed with M L 271.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHST 313. Special Topics**3 Units****Term Typically Offered:** Occasionally Offered**Description:** Topic varies by semester. Conducted in English.**Note:** May be repeated once for credit.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHST 323. Doing Business in China**3 Units****Term Typically Offered:** Occasionally Offered**Description:** Discussion of business traditions, practices, etiquette, and norms in China. Conducted in English.**Note:** Cross-listed with AST 323.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHST 331. Chinese Culture and Tradition**3 Units****Term Typically Offered:** Occasionally Offered**Description:** Discussion of Chinese culture and society from the beginnings to 1900, covering topics of religion and government, education, marriage, family, medicine, invention, art, architecture, and other aspects of social life. Conducted in English.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHST 333. Contemporary China**3 Units****Term Typically Offered:** Occasionally Offered**Description:** Discussion of the China of today, including popular culture, technology, mass media, folk theater, urban consumer culture, and state policy. Conducted in English.**Note:** Cross-listed with AST 333.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHST 335. China Through Film - AH, D2**3 Units****Term Typically Offered:** Fall Only**Description:** Examination of 20th-century China through the critical study of selected examples of film. Conducted in English.**Note:** Cross-listed with AST 335.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHST 341. Ethnicity and Religion in China**3 Units****Term Typically Offered:** Occasionally Offered**Description:** Studies of minority peoples such as Uigurs, Huis, Mongols and Tibetans, including their life style, language, art and religion. Discussion of how Buddhism, Islam, Christianity and other religious ideas spread into China, and their presence today in China. Conducted in English.**Note:** Cross-listed with AST 341.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CHST 351. Chinese Literature in Translation I - D2, AH**3 Units****Term Typically Offered:** Occasionally Offered**Description:** Chinese literature from the beginning to 1911, discussion of principal genres, authors, and works. Conducted in English.**Note:** Cross-listed with AST 351.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CEE 205. Mechanics I: Statics	3 Units	Term Typically Offered: Fall, Spring, Summer Prerequisite(s): ENGR 101 and PHYS 298. Description: Apply fundamental concepts of statics to examine forces, equilibrium, friction, centroids and moments of inertia, to analyze and solve engineering problems. Both vector and scalar methodologies are used. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 254. Mechanics of Solids	3 Units	Term Typically Offered: Fall Only Prerequisite(s): CEE 205. Description: Analysis of deformable engineered members subjected to concentric, flexural, torsion, and combined loading. Examination of statically determinate and indeterminate systems to analyze and design engineering structures. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 255. Mechanics of Materials Laboratory	1 Unit	Term Typically Offered: Fall Only Corequisite(s): CEE 254. Description: A materials testing laboratory in which the properties of materials such as wood and steel are evaluated. Performances of tension, compression, shear, bending, and torsion tests on various specimens. Experimental determination of stresses. CEE majors. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 260. Civil Engineering Field Measurements	2 Units	Term Typically Offered: Fall Only Prerequisite(s): ENGR 110; restricted to CEE majors. Corequisite(s): CEE 261. Description: Focus is on plane surveying, including the use and care of surveying instruments for laying out engineered facilities. Use of proprietary Computer-Aided Engineering software is introduced. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 261. Civil Engineering Field Measurements Laboratory	1 Unit	Term Typically Offered: Fall Only Prerequisite(s): Restricted to Civil Engineering Majors. Corequisite(s): CEE 260. Description: Practical applications of plane surveying techniques, including the use and care of surveying instruments, and laying out engineered facilities are introduced. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 288. Civil and Environmental Engineering Cooperative Education Seminar	0 Units	Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 205, CHEM 201, ENGL 101, ENGR 102, ENGR 110, student must be in Good Standing with GPA of 2.25 or higher. Description: Discussion of the policies and procedures for cooperative education and instruction in self-directed job search techniques, including interviewing skills, resume preparation, and guidelines for the co-op report. This is a prerequisite for each cooperative education term. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 289. Civil and Environmental Engineering Cooperative Education I	1 Unit	Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 288. Fee: An additional \$300.00 is charged for this course. Description: Full-time technical work experience related to the student's academic program. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 309. Introduction to Environmental Engineering	3 Units	Term Typically Offered: Summer Only Prerequisite(s): CHEM 201 and PHYS 298. Description: This course is intended as an introduction to the basic science and engineering principles that are involved in assessment of environmental quality, in understanding environmental processes and in developing solutions to environmental problems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 322. Structural Analysis	3 Units	Term Typically Offered: Summer Only Prerequisite(s): CEE 254. Description: Classical approaches to analysis determinate and indeterminate structures, including trusses, beams, and frames are presented. Different methods are used to determine the internal forces and the deformation of these structural systems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 370. Engineering Hydraulics	3 Units	Term Typically Offered: Spring Only Prerequisite(s): CEE 254 and ME 206. Description: A study of the fundamental principles of hydraulics, including fluid statics, kinematics, and dynamics. Application of basic concepts and principles to fluid flow through pipes, open channels, turbo machines, and flow measurement. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 371. Engineering Hydraulics Lab Term Typically Offered: Spring Only Corequisite(s): CEE 370. Description: A hydraulic experimental laboratory in which the static and dynamic properties of fluids are evaluated. Experimental determination of fluid properties, fluid behavior, and the flow dynamics including flowrates and forces. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CEE 422. Fundamentals of Steel Design Term Typically Offered: Fall Only Prerequisite(s): CEE 322. Description: Introduction to the AISC LRFD steel design specification. Design of steel tension members, beams, columns, beam-columns, and connections. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CEE 389. Civil and Environmental Engineering Cooperative Education II Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 289. Fee: An additional \$300.00 is charged for this course. Description: Full-time technical work experience related to the student's academic program. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CEE 450. Geomechanics Term Typically Offered: Fall Only Prerequisite(s): CEE 370, ENVS 301. Description: Application of mechanical principles to the behavior of soil masses. Soil mineralogy; hydraulic behavior; consolidation theory and settlement analyses; shear strength. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CEE 401. Civil Engineering Professional Practice Term Typically Offered: Fall Only Prerequisite(s): Admission to the CEE Department. Description: Professional practices, issues relating to effective communication skills (written and oral) and engineering ethics are emphasized. The course includes simulations and presentations by legal and engineering practitioners. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2 Units	CEE 451. Geomechanics Laboratory Term Typically Offered: Fall Only Corequisite(s): CEE 450. Description: Laboratory measurement of soil properties including index properties, permeability, compressibility, and shear strength. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit
CEE 405. Practicum in Civil and Environmental Engineering Education Term Typically Offered: Fall, Summer Prerequisite(s): CEE 205, consent of the instructor. Description: A guided learning experience in inquiry-based instructional techniques and best practices in STEM education that includes a field experience as an undergraduate teaching assistant. Permission to enroll required. Note: May be repeated for a maximum of 3 credit hours. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CEE 452. Foundation Engineering Term Typically Offered: Spring Only Prerequisite(s): CEE 450. Description: Character of natural soil deposits. Subsurface exploration and testing. Foundation types, limitations. Bearing capacity and settlement analyses. Design of foundations. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CEE 421. Fundamentals of Concrete Design Term Typically Offered: Spring Only Prerequisite(s): CEE 322. Description: Introduction to concrete design specifications (ACI); the design of structural systems in concrete, slabs, buildings, and frames. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CEE 460. Transportation Systems Engineering Term Typically Offered: Spring Only Prerequisite(s): CEE 260 and first-year professional school standing. Description: A study of the planning, design, implementation, and evaluation of transportation systems across the modes. Issues of legislation, regulation, and funding are also examined. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
		CEE 470. Surface Water Hydrology Term Typically Offered: Fall Only Prerequisite(s): CEE 370. Description: Hydrologic cycle, rainfall, rainfall abstractions including infiltration theory, and runoff. Unit hydrograph theory and its application in runoff computation from watersheds. Statistical applications in hydrology including frequency analysis, flood routing and hydrologic engineering and design. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

CEE 471. Water Supply and Sewerage Term Typically Offered: Spring Only Prerequisite(s): CEE 470. Description: Quantity of water and sewage; collection and distribution of water supplies; quality of water supplies; characteristics of sewage and disposal; principles and design of processes for preliminary, primary and secondary treatment of water supplies and sewage including screening, clarification and filtration; and stormwater management. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CEE 520. Design of Structural Systems Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 421, CEE 422, and CEE 452. Description: Introduction to the design of structural systems. Model building codes. Material, structural system and foundation system selection. Design of connections. Economic, detailing constructability and erection issues. Preparation of engineering drawings. Review of shop drawing. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CEE 480. Civil & Environmental Engineering Capstone Design - CUE Term Typically Offered: Spring Only Prerequisite(s): CEE 422 and CEE 460. Corequisite(s): CEE 421, CEE 452, and CEE 471. Description: An introduction to integrated civil engineering design, incorporating aspects of geotechnical, structural, transportation, and water resources engineering into a more comprehensive design project. Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status., CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CEE 522. Fundamentals of Prestressed Concrete Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 322 and CEE 421. Description: Introduction to pre-tensioned and post-tensioned prestressed concrete. Design of precast concrete slabs, buildings, and bridges in accordance with ACI specifications and the Prestressed Concrete Institute (PCI) recommended practices. Application of computer programs for member analysis and design. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CEE 489. Civil Engineering Cooperative Education III Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 288 and CEE 389. Fee: An additional \$300.00 is charged for this course. Description: Full-time technical work experience related to the student's academic program. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CEE 523. Timber Design Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 254 or consent of instructor. Description: Concepts of Structural Timber design will be taught. The properties of wood materials will be reviewed and the procedures for the design of typical timber components will be presented. In addition to course assignments, and tests, required of all students, students taking this course for graduate credit will be required to complete a group design of a simple building. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CEE 503. Fundamentals of Engineering Exam Review Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): 4th-year standing. Description: Review of topics covered on eight-hour NCEES Fundamentals of Engineering examination. Not to be counted towards meeting the requirements for a degree. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	2 Units	CEE 524. Bridge Design Term Typically Offered: Summer Only Description: This class offers detailed coverage of engineering basics for the design of short- and medium-span bridges. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
		CEE 530. Construction Materials Term Typically Offered: Spring Only Prerequisite(s): CEE 254 and CEE 255. Description: Properties of construction materials such as cement, concrete, asphalt, and structural elastomers. Design of Portland cement concrete and asphaltic concrete mixes. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
		CEE 532. Experimental Stress Analysis Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 530. Description: Fundamentals of experimental stress analysis, brittle coating, photoelastic coating, and electrical strain gage techniques, strain measurements under static and dynamic loading. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

CEE 540. Construction Management Term Typically Offered: Fall Only Description: This course discusses construction management including estimating, bidding, time/cost management, provisions, surety bonds, ownership, and project scheduling. Other topics, such as temporary erosion control and plan & print reading will also be covered. Note: This section is restricted to students with a major in the department. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CEE 562. Geometric Design of Highways Term Typically Offered: Occasionally Offered Prerequisite(s): CEE 460. Description: The concepts of geometric design for rural and urban highways, utilizing proprietary design software are introduced and applied. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CEE 541. Construction Equipment and Practice Term Typically Offered: Spring Only Description: This course will provide an overview of construction planning and practices rather than construction management. The emphasis will be on the Construction Depth content of Civil Engineering. The topics covered in the course will be guided by the anticipated content of fundamental construction engineering practice and will follow the various chapters of the required textbook. Note: This section is restricted to students with a major in the department. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CEE 563. GPS Theory and Application Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 460. Description: This course is designed to give the student an overview of the use of Global Positioning Systems in surveying and engineering applications. Elements of coordinate systems, map projections, GPS principles of operation, mapping, boundary, and construction surveys will be covered. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CEE 552. Earth Pressures and Retaining Structures Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 450. Description: Earth pressure calculation: theory and practice. Design techniques for retaining walls, reinforced earth and soil nailing. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CEE 565. GIS Applications to Transportation Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 460. Description: Introduces an overview and application of current methods of implementing GIS solutions to highway data analysis and planning studies. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CEE 553. Advanced Foundation Design Description: This course covers site investigation and subsurface exploration with the purpose of foundation design. Then, the course covers the analysis and design of single piles and group piles considering pile capacity and pile head displacement. At the end, the course covers pile driving analysis to test the integrity of the concrete. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CEE 570. Applied Hydraulics Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 572. Description: Application of basic principles of hydraulic engineering to analysis of flow in floodways, through bridge openings, culverts, and spillways. Analysis of stable channel design is also considered. Commonly used computer programs are utilized to design structures in floodways. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CEE 560. Traffic Engineering Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 460. Description: Examines characteristics of the vehicle, the driver, and the traffic stream. Highway and intersection capacity, theory of traffic flow, parking, traffic safety. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CEE 571. Applied Hydrology Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CEE 470. Description: Introduction to hydrologic systems; modeling runoff from watersheds using lumped and distributed methods; stormwater management and design; hydrologic and hydraulic routing including kinematic wave routing; computer rainfall-runoff simulation models. A hydrologic design project will be assigned to all students; special assignments dealing with hydrologic processes will be assigned to MS degree students. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

CEE 572. Open Channel Hydraulics**3 Units****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** CEE 370.

Description: Application of basic principles of hydraulics to open channel flow. Theory and analysis of critical, uniform and gradually varied flow and computer analysis. Select topics in rapidly varied and unsteady flow. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CEE 573. Groundwater Hydrology**3 Units****Term Typically Offered:** Occasionally Offered**Prerequisite(s):** CEE 450 and CEE 470.

Description: Fundamental concepts of fluid flow and soil properties; theory of groundwater movement; mechanics of well flow; groundwater contaminant transport.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CEE 590. Current Topics in Civil Engineering**1-4 Units****Term Typically Offered:** Occasionally Offered**Prerequisite(s):** Consent of instructor.

Description: An examination of one or more topics in Civil Engineering. Details announced each semester.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

Commercial Law (CLAW)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (https://csprd.louisville.edu/ps/ps_class/EMPLOYEE/PSFT_CS/c/COMMUNITY_ACCESS.CLASS_SEARCH./x/?state=62dab551a0d600a5e8237359c50704e59007&duo_code=sjUx20STj21bIWVEU03Z1YRiHmfxxpgoV)

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (<https://louisville.edu/bursar/tuitionfee/university-fees/>).

CLAW 301. Legal Environment of Business**3 Units****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** Admission to the College of Business.**Fee:** An additional \$30.00 is charged for this course.

Description: An introduction to the American legal and judicial system, with particular emphasis on the relationship of the law to business activities. A study of the developments of the law and the operation of the judicial system. Emphasis will be placed on the impact that government regulations and certain areas of the Uniform Commercial Code have on business.

COMM 111. Introduction to Public Speaking - OC**3 Units****Term Typically Offered:** Fall, Spring, Summer

Description: Training in fundamental processes and attributes of effective public speaking.

Note: Credit may not be received for this course and COMM 112.**Note:** Does not count toward communication major.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

COMM 112. Business and Professional Speaking - OC Term Typically Offered: Fall, Spring, Summer Description: Develops theoretical and applied material concerning communication practices appropriate to business and professional settings. Note: Credit may not be received for this course and COMM 111. Note: Does not count toward Communication major. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	COMM 208. Principles in Client and Agency Dynamics Term Typically Offered: Occasionally Offered Description: This course will provide students with an understanding of strategic communication business functions and relationships between agencies and clients. This knowledge gained in this course is essential to work in the Birds Nest. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
COMM 115. Interpersonal Skills - OC Term Typically Offered: Fall, Spring, Summer Description: Training in basic processes and skills of face-to-face interaction. Emphasis on developing language, nonverbal, and conflict management skills. Note: Does not count toward Communication major. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	COMM 215. Communication, Identity, and Power - D1, AH Description: This course explores ways that communication upholds unequitable social arrangements or hides distributions of power. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
COMM 125. Group Presentations - OC Term Typically Offered: Occasionally Offered Description: This class teaches students oral communication skills in group settings, such as developing and giving team reports, participating in panel discussions, designing and creating symposia, researching and presenting workshops, and engaging in forums. This class fulfills the Oral Communication (OC) requirement for the Cardinal Core. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	COMM 222. American Media History - SB, D1 Term Typically Offered: Occasionally Offered Description: This course is designed to highlight the people and the technological, economic, political, and social trends involved in our rapidly changing media environment. We will look specifically at how media of information, persuasion, and entertainment have evolved from the mechanical devices that the colonists used, to steam-powered and then electrical media of the nineteenth and twentieth centuries, and finally to today's ubiquitous digital media. CMDS 464. Normal Speech and Language Development**4 Units****Term Typically Offered:** Fall Only

Description: Reviews normal development of language and speech across the lifespan including syntax, semantics, morphology, pragmatics, and phonology. An overview of dialectical, cultural, and bilingual aspects are discussed as well as basic language sampling and analysis procedures.

Note: Cross-listed with CMDS 564.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CMDS 470. Clinical Observation in Speech Pathology and Audiology**1 Unit****Grading Basis:** Pass/Fail**Term Typically Offered:** Fall Only

Prerequisite(s): Restricted to graduate students only.

Description: Observations in speech pathology and audiology. Additional observations may be assigned to introduce students to the variety of practicum opportunities available in the program.

Note: Cross-listed with CMDS 570.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CMDS 471. Functional Neuroanatomy**3 Units****Term Typically Offered:** Fall Only

Description: An overview of general neuroanatomy and neuroanatomical principles applied to communication and communicative disorders including hearing, speech, language, cognition, swallowing, and emotion.

Note: Cross-listed with CMDS 571.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CMDS 474. Multicultural Issues in Communicative Disorders**3 Units****Term Typically Offered:** Fall Only

Description: This course provides students with an overview of the impact of culture and cultural variation on language and communication. Students will: develop a foundational understanding of cultural-linguistic diversity; apply such principles to clinical processes; and improve their overall cultural competence in communication sciences/disorders.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CMDS 563. Clinical Phonetics**3 Units****Term Typically Offered:** Spring Only

Prerequisite(s): Must be at least a Junior or Senior undergraduate student to register.

Description: The International Phonetic Alphabet and other symbol systems are utilized in transcription of speech sounds. A description of speech sounds in terms of acoustics and physiologic dimensions. Special emphasis on speech disorders and dialects.

Note: Cross-listed with CMDS 463.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CMDS 564. Normal Speech and Language Development**4 Units****Term Typically Offered:** Fall Only

Description: Reviews normal development of language and speech across the lifespan including syntax, semantics, morphology, pragmatics, and phonology. An overview of dialectical, cultural, and bilingual aspects are discussed as well as basic language sampling and analysis procedures.

Note: Cross-listed with CMDS 464.

CMD5 570. Clinical Observation in Speech Pathology and Audiology**1 Unit****Grading Basis:** Pass/Fail**Prerequisite(s):** Restricted to graduate students only.**Description:** Observations in speech pathology and audiology. Additional observations may be assigned to introduce students to the variety of practicum opportunities available in the program.**Note:** Cross-listed with CMD5 470.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CMD5 571. Functional Neuroanatomy**3 Units****Term Typically Offered:** Fall Only**Description:** An overview of general neuroanatomy and neuroanatomical principles applied to communication and communicative disorders including hearing, speech, language, cognition, swallowing, and emotion.**Note:** Cross-listed with CMD5 471.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CMD5 572. Anatomy and Physiology for Communication Sciences**4 Units****Prerequisite(s):** Restricted to graduate students only.**Fee:** An additional \$50.00 is charged for this course.**Description:** Structure and function of speech, auditory/vestibular mechanisms. Includes neuroanatomy and neurophysiology of communication. Emphasis on clinical applications. Dissection of human cadaver material.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CMD5 574. Multicultural Issues in Communicative Disorders**3 Units****Term Typically Offered:** Fall Only**Description:** An overview of the research arena as applied to communication disorders. Techniques and applications of literature review, research design, statistical methods, and effective writing will be covered.

Computer Science and Engineering (CSE)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (https://csprd.louisville.edu/ps/ps_class/EMPLOYEE/PSFT_CS/c/COMMUNITY_ACCESS.CLASS_SEARCH./x/?state=62dab551a0d600a5e8237359c50704e59007&duo_code=sjUx20STj21bWVss637HmJj/htmxpco9)

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (<https://louisville.edu/bursar/tuitionfee/university-fees/>).

CSE 101. Bachelor of Arts in Computer Science Campus Culture Experience**1 Unit****Term Typically Offered:** Fall, Spring**Prerequisite(s):** Admission to the BACS program.**Description:** This is a one hour required campus culture course that takes place in the first semester the student is enrolled in the Bachelor of Arts in Computer Science program.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CSE 110. Mathematical Foundations for Computer Science**3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** Math 180 or equivalent.**Description:** The course covers mathematical and statistical concepts necessary for design and analysis of computer algorithms as well as developing system performance models, but visiting selected topics from number theory, vectors and matrices, combinatorics, probability, and statistics.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CSE 120. Introduction to Programming with Python**3 Units****Term Typically Offered:** Fall, Spring, Summer**Description:** This course presents a hands-on approach to learning Python programming. It will contain topics including basic syntax, algorithms and program development, functions, arrays and vectors, lists and dictionaries, strings, files, object-oriented programming, and practical problem solutions and applications.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CSE 130. Introduction to C and C++ Programming Languages**3 Units****Term Typically Offered:** Fall, Spring, Summer**Description:** This course presents computer programs design and implementation using the ANSI C language and C++. It will cover topics pertaining to program life-cycles, modularity, operators, expressions, flow control, functions, scope, recursion and iteration, pointers, memory allocation and management, structures and data files access. It includes an introduction to Object-Oriented design principles, designing and instantiating classes and developing class methods. It covers functions, arrays, I/O file streams and data files. It includes laboratory exercises on the writing and compiling of computer programs in C, C++.

CSE 220. Object Oriented Program Design with Java Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CSE 130. Description: Introduction to Object Oriented Program design principal concepts and program development using Java programming language. It includes laboratory exercises on the design and implementation of computer applications in Java. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CSE 298. Internship Education Seminar (BACS) Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring Prerequisite(s): CSE 120, and CSE 130. Description: This is a zero credit hour required career development course that takes place before the first internship work term. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	0 Units
CSE 235. Computer Systems and Organization Term Typically Offered: Fall, Spring Prerequisite(s): CSE 110, CSE 130. Description: This course provides an introduction to the fundamental concepts of computer systems by exploring how computer systems execute programs and manipulate data, working from the C programming language down to the microprocessor. Topics covered include a tour of computer systems and hardware, advanced C programming techniques necessary to implement computer systems, data representation and manipulation techniques, and machine-level representations of programs in assembly language. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CSE 299. Internship I Grading Basis: Pass/Fail Term Typically Offered: Summer Only Prerequisite(s): CSE 298, CSE 302, and CSE 335. Fee: An additional \$300.00 is charged for this course. Description: Full-time technical work experience related to the student's Bachelor of Arts in Computer Science (BACS) program. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit
CSE 288. Computer Science and Engineering Cooperative Education Seminar Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CHEM 201, ENGL 101, ENGR 102, ENGR 110, PHYS 298, student must be in Good Standing with GPA of 2.25 or higher; CSE 220, CSE 302. Corequisite(s): CSE 220, CSE 302. Description: Discussion of the policies and procedures for cooperative education and instruction in self-directed job search techniques, including interviewing skills, resume preparation, and guidelines for the co-op report. This is a prerequisite for each cooperative education term. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	0 Units	CSE 302. Data Structures Term Typically Offered: Fall, Spring Prerequisite(s): CSE 130. Description: Study of information representations and relationship between the form of representation and processing techniques. Transformations between storage media. Referencing of information as related to the structure of its representation and implications for the design of the referencing language. Engineering applications and associated designs are used to illustrate different structures. Note: Enrollment restricted to CSE students only. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CSE 289. Computer Science and Engineering Cooperative Education I Grading Basis: Pass/Fail Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CSE 288. Fee: An additional \$300.00 is charged for this course. Description: Full-time technical work experience related to the student's academic program. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CSE 310. Discrete Structures Term Typically Offered: Fall, Spring, Summer Description: Engineering applications using computer structures including algebraic computational structures, finite state machines, relational structures, propositional logic, trees, graphs, groups, machine equivalence, introduction to formal grammar. Applications of these structures to engineering problems including fluid flow, communication systems, artificial intelligence, digital logic, and algorithm evaluation. A written report is required. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

CSE 311. Ethics, Social, and Legal Aspects on the Electronic Frontier**3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** Third-year standing.

Description: Examination of the legal, social and ethical issues associated with electronic information dissemination and manipulation with a focus on computer systems and networks. Topics include current issues and controversies that put the needs and desires of one group against those of other groups, including business, governmental and social interests. Students will be required to complete papers on the topics discussed and participate in class discussions. Technical writing and oral presentations are required.

CSE 335. Introduction to Database**3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** CSE 302 or concurrently.

Description: This course is intended as an introduction to database management and programming for Computer Science students, both majors in the BS and BA degrees and minors. It covers the basics of SQL for database creation and querying, including procedural extensions and language binding for database access through applications, and an introduction to database design.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CSE 350. Introduction to Software Engineering**3 Units****Term Typically Offered:** Fall, Summer**Prerequisite(s):** CSE 220 and CSE 302.

Description: Software engineering is an engineered discipline in which the aims is the production of software products, delivered on time and within a set budget, that satisfy the clients needs. It covers all aspects of software production ranging from the early stage of product concept to design and implementation to post-delivery maintenance. This course introduces the major concepts, techniques, and tools of software engineering so that students can prepare for their future IT and software careers. Moreover, through group curated projects, students can obtain hands-on experiences on entire phases and work-flow of the software process.

CSE 389. Computer Science and Engineering Cooperative Education II**1 Unit****Grading Basis:** Pass/Fail**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** CSE 289.**Fee:** An additional \$300.00 is charged for this course.

Description: Full-time technical work experience related to the student's academic program.

Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CSE 390. Special Topics in Undergraduate Computer Science and Engineering**3 Units****Term Typically Offered:** Occasionally Offered**Prerequisite(s):** Consent of instructor.

Description: Devoted to undergraduate topics which usually are not treated in detail in the general courses.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CSE 393. Independent Study in Computer Science and Engineering**1-6 Units****Term Typically Offered:** Fall, Spring, Summer

Description: For class offerings for a specific term, refer to the Schedule of Classes.

BACS Capstone Design - CUE****3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** Senior Standing.**Description:** Prerequisites or corequisites: CSE 350, CSE 420. This course requires solving a real-world design problem in computer science. It uses software design methods and tools learned in previous coursework emphasizing teamwork, written and oral communication.**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status., CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 503. Survey of Computer Science and Engineering****3 Units****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** CSE 130.**Description:** Introduction to foundations of computer science and engineering for non-majors. Emphasis on C++ programming language, data structures and algorithms, and operating systems fundamentals. This course cannot be taken for credit by students with a degree in computer scienceFor class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 504. Automata Theory****3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** CSE 310.**Description:** Finite state machines and their application to engineering problems including modeling the behavior of discrete systems. Topics include theory of computing, formal language theory, and applications of cellular automata. Engineering models of digital computer hardware are covered and related to software design.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 506. Modeling and Analysis of Engineering Systems****3 Units****Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** ENGR 330.**Description:** Representation of engineering systems, Fourier analysis, z-transforms, frequency response, state-space analysis, stability, an introduction to the basic theory of filter design, and demonstrated concepts to CAS.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 510. Computer Design****3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** ECE 210.**Corequisite(s):** ECE 511.**Description:** Review of logic design and elementary computer organization. Design of the central processing unit, memory, control, and input-output portions of a computer. The VHDL hardware design language will be used.**Note:** Cross-listed with ECE 510.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 516. Fundamentals of Computer Communications and Networks****3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** ECE 360 or IE 360, and CSE 412.**Description:** Data communications: The exchange of data between devices is covered. The key aspects of transmission interfacing, link control, and multiplexing are examined. Data communication networking: Examines the internal mechanisms by which communication networks provide a data transfer service for attached devices.**Note:** Cross-listed with ECE 518.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 522. Performance Evaluation of Computer Systems****3 Units****Term Typically Offered:** Fall Only**Prerequisite(s):** IE 360 and CSE 420.**Description:** A study of approaches to the evaluation of computer systems. Measurement techniques and evaluation techniques are treated in detail with attention to existing commercial hardware and software monitors and simulators.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CSE 525. Microcomputer Design Term Typically Offered: Fall, Spring Prerequisite(s): ECE 412 or CSE 412 or consent of instructor. Description: Design and construction of microcomputers with microprocessors and digital integrated circuits. Breadboarding, hardware design, and software design are emphasized. The class is separated into groups, and each group designs, breadboards, and tests a complete microcomputer system, including interfaces to peripheral devices. Note: Cross-listed with ECE 516.	4 Units	CSE 536. Data Management and Analysis Term Typically Offered: Fall Only Description: The goal of the course is to teach, to the students who are not Computer Science majors, the basic skills needed to organize, assess and analyze data sets. The course discusses a variety of tools (file systems, database systems, and the R environment) as well as a series of basic tasks, from generating metadata to basic filtering, organizing and enrichment of data sets. This course contributes to develop analysis, modeling and problem-solving skills. Note: This course is intended for non-CSE majors.	3 Units

CSE 528. Game Design and Programming Term Typically Offered: Spring Only Prerequisite(s): CSE 302. Description: This course will provide an overview of Multimedia and Game programming, and teach basic computer game design techniques using state-of-the-art game engines. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CSE 538. Graph Database and Graph Analytics Term Typically Offered: Summer Only Prerequisite(s): CSE 302. Description: Our world is connected. Data representing real-world problems for analysis, however, usually are discrete and do not explicitly include connected information (relationship or link) in their data models. Graph analytics is the study and analysis of data that can be transformed into a graph representation consisting of nodes (to represent real-world entities) and edges (to represent relationships between entities). Graph analytics is built on the mathematics of graph theory, with augmentation of properties attached to nodes and edges. And graph database systems will be used to build a repository of connected graph data and query the data with a non-procedural graph query language, or an API based on a procedural programming language. CSE 530. Design of Compilers Term Typically Offered: Summer Only Prerequisite(s): CSE 420. Description: Engineering descriptions of algorithmic language. Study of syntax, semantics, ambiguities, procedures, replication, iterations, and recursion in the language. Engineering design of a compiler. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CSE 539. Advanced industrial Software for Home Appliances (part A1) Term Typically Offered: Fall, Spring Prerequisite(s): The student must be participating in the GE Appliance Edison program or employees at GE Appliances enrolled in the CSE program. Description: This course provides graduate students working in the major home appliance industry with an advanced understanding of industrial software engineering and their application to technologies associated with the design, development, and production of major household appliances such as refrigerators, washers, dryers, cooking products and dishwashers. This course serves as one of the curricular elements for the GE Appliance Edison students and is limited to students participating in this program or employees at GE Appliances enrolled in the CSE program. CSE 532. Python and Data Analytics Term Typically Offered: Spring Only Prerequisite(s): (CSE 120 or CSE 130) and Junior standing or higher. Description: Python is an interpreted, high-level programming language useful for rapid application development. It supports many modules and packages suitable for tasks ranging from scientific research to business software development. In recent years Python has become a fundamental tool for numerical and data analysis, as well as machine learning. This course has a dual focus of providing users with advanced Python programming skills, as well as experience processing and analyzing data with Python and its libraries. It addresses a variety of topics in a Python programming context, including file management, working with data structures, algorithms and program development, object-oriented programs, and practical problem solutions and applications. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CSE 540. Object Oriented Information Technology Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Graduate standing. Description: Survey of design and development of object oriented software. Software architectures, development environments, graphical user interfaces, and networks of distributed objects. Software design project required. Note: CSE students cannot receive credit for CSE 440 and 540.	3 Units
CSE 535. Database Systems Term Typically Offered: Fall, Spring Prerequisite(s): CSE 302 or equivalent. Description: Course covers basics of database design, SQL, query processing, and optimization, transactions. The emphasis will be placed on Engineering design and implementation of relational systems. A written project is required. CSE 542. Computer Control and Real Time Programming Term Typically Offered: Fall, Spring, Summer Prerequisite(s): ECE 412 or CSE 412. Description: Programmable Logic Controllers, Human Machine interfaces, SCADA, state machines, sensors, and actuators. Study of industrial algorithms, open/closed loop real-time control, and schematics. Note: Previously cross-listed with ECE 517.	3 Units	CSE 551. Data Visualization for Data Science Term Typically Offered: Spring Even Years Prerequisite(s): CSE 302, CSE 532 This course is all about data visualization, the art and science of turning data into readable graphics. Description: The course aims to introduce key design principles and techniques for interactively visualizing data. The major goals of this course are to understand how visual representations can help in the analysis and understanding of complex data, how to design effective visualizations, and how to create your own interactive visualizations with modern analytics languages. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CSE 545. Artificial Intelligence Term Typically Offered: Fall Only Prerequisite(s): CSE 302 and CSE 310. Description: This course introduces the use of predicate calculus logic, heuristic search, and knowledge representations for solving engineering and computer science problems. The course includes coverage of rule-based expert systems, intelligent agents, and machine learning. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CSE 563. Experimental Design in Engineering Term Typically Offered: Spring, Summer Prerequisite(s): IE 360 OR IE 560. Description: Design of engineering experiments and projects using theory of least squares, analysis of variance, randomized blocks, factorial experiments, nested designs, split plot designs and logistic regression techniques. Covers a combination of analysis by hand and using Minitab statistical software. Students may not obtain credit for both IE 563 and ME 611; or for IE 563 and EM 661. Note: Cross-listed with IE 563. CSE 546. Introduction to Machine Learning Term Typically Offered: Fall Only Prerequisite(s): CSE 532, or IE 360 or equivalent. Description: This course provides a broad introduction to machine learning. This course will cover topics in data pre-processing, regression, classification, clustering, neural networks, ensemble methods, and deep learning. We will learn the fundamental concepts behind several machine learning algorithms without going deeply into the mathematics. We will focus on gaining practical experience applying machine learning to a range of real-world problems. Introduction to Cryptography Term Typically Offered: Fall Only Prerequisite(s): CSE 310 and IE 360. Description: This course gives a historical introduction to cryptology and the science of secret codes. The first part covers substitution ciphers, transposition codes, Vigenere cipher and more complex polyalphabetic substitutions including those created by rotor machines. The second part describes bit block cipher schemes such as Data Encryption Standard (DES). Public key encryption is the subject of the final part including RSA, Knapsack codes, and Diffie-Hellman key exchange. CSE 547. Deep Learning Algorithms and Methods Term Typically Offered: Spring Only Prerequisite(s): CSE 532, or IE 360 or equivalent. Description: Deep Learning is an area of Artificial Intelligence and Machine Learning techniques. Its ability to represent objects without the need of extensive feature engineering or pre-defining rules makes it one of the most powerful and flexible frameworks to learn from data. This course covers basic concepts and applications of Deep Learning Techniques. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CSE 565. Software Security Term Typically Offered: Spring Only Prerequisite(s): CSE 220, CSE 564. Description: This class offers a comprehensive view into software security practices. Students will learn how to develop software with security in mind, learn how to perform static code analysis, fuzz testing, and vulnerability assessments. It will analyze concepts of malware including viruses, adware, rootkits, and others. Students will gain a deep understanding of how software architectures and platforms as a whole must be developed to enhance security in design and development. The relationships to other aspects of cybersecurity in the software development lifecycle will be analyzed. Students will need a basic understanding of cryptography as well as some assembly and high-level (C, Java, Python) language proficiency. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CSE 550. Software Engineering Term Typically Offered: Fall, Spring Prerequisite(s): CSE 420. Description: Engineering methods applied to the life-cycle issues in the team-oriented development of large software systems including issues of software processes, metrics, testing and quality. Documentation of the project and an oral presentation are required. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units		

CSE 566. Information Security**Term Typically Offered:** Summer Only**Prerequisite(s):** CSE 420.**Description:** Technical, legal and policy issues associated with information security. Authentication, trusted computer systems, information encryption, biometrics, computer forensics, and privacy issues. Written and verbal reports are required.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 568. Computer Forensics****Term Typically Offered:** Summer Only**Prerequisite(s):** CSE 311 and CSE 420.**Description:** Course examines legal, legal, administrative, technical and scientific issues in computer forensics, network forensics, information security and trusted systems. Course requires class participation, lab work, team projects, writing and oral presentations.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 570. Mobile Device Programming****Term Typically Offered:** Spring Only**Prerequisite(s):** CSE 220 or equivalent and CSE 335 or equivalent.**Description:** This course covers the basic concepts in designing and implementing applications running on Apple's iOS and Google's Android operating systems. Students may not receive credit for both CSE 470 and CSE 570.**Note:** Formerly CSE 470.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 590. Special Topics in Computer Science and Engineering** 1-6 Units**Term Typically Offered:** Spring Only**Description:** Devoted to topics which usually are not treated in detail in the general courses.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 593. Independent Study in Computer Science and Engineering**

1-6 Units

Term Typically Offered: Fall, Spring, Summer**Description:** Opportunity for the student, under the supervision of a sponsoring faculty member, to pursue individualized study related to research or practice that is not included in regular courses in the curriculum.**Note:** Chair Approval is required.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CSE 596. CSE Capstone Design - CUE**

3 Units

Term Typically Offered: Fall, Spring**Prerequisite(s):** Senior Standing, CSE 350, CSE 525 (or concurrently).**Description:** This course requires solving a real-world design problem in computer science and engineering. It uses hardware and software design methods and tools learned in previous coursework emphasizing teamwork, written and oral communication.**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status., CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

Computer Information Systems (CIS)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (https://csprd.louisville.edu/psps/ps_class/EMPLOYEE/PSFT_CS/c/COMMUNITY_ACCESS.CLASS_SEARCH./x/?state=62dab551a0d600a5e8237359c50704e59007&duo_code=sjUx20STj21bIWVE)

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (<https://louisville.edu/bursar/tuitionfee/university-fees/>).

CIS 150. Fundamentals of Information Systems

3 Units

Term Typically Offered: Fall, Spring**Fee:** An additional \$30.00 is charged for this course.**Description:** This course provides an overview of contemporary information systems, and how they are used in organizations. It presents an introduction to the discipline of CIS and how information systems can be used to create competitive advantage. Topics include application/web development, including the system development life cycle, information security, business process management, and emerging technologies. Students will develop basic web sites including the use of HTML, CSS, and Javascript.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 199. Software Development I**3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** CIS 150 (or concurrent).**Fee:** An additional \$30.00 is charged for this course.

Description: This course introduces object-oriented concepts such as the use of classes, methods, encapsulation, and inheritance. The course concentrates on using object-oriented programming to solve simple problems involving input and output. Computer lab sessions are used to reinforce programming concepts. Extensive programming assignments are required.

Note: Restricted to College of Business BSBA majors.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 200. Software Development II**3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** CIS 199.**Fee:** An additional \$30.00 is charged for this course.

Description: This course emphasizes object-oriented software development. Students study the object model and apply it to systems development problems. Topics include polymorphism, inheritance, and object interaction. Event-driven programming of graphical user interfaces is introduced. Application areas may include data structures, searching, sorting, and databases. Extensive programming assignments are required.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 201. Introduction to Web Programming**6 Units****Prerequisite(s):** CIS 100 or CIS 250 (grade of C or better); MATH 107 (grade of C or better).**Fee:** An additional \$60.00 is charged for this course.

Description: This course provides an introduction to Web technologies and effective Web site design, implementation, and maintenance. The architecture of the Web, the use of the Web for sharing data, and models for using the Web to conduct business are explored. Students learn the fundamentals of web site design using languages such as HTML, JavaScript, and XML. Students become proficient in developing web sites for their own use. Additionally, this course introduces object-oriented programming using Java. Students learn the fundamentals of the object model, including the use of classes and encapsulation. The course concentrates on algorithmic development, with emphasis on sound techniques for designing, coding, debugging and documenting programs. Computer lab sessions are used to reinforce programming concepts. Extensive programming assignments are required.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 202. Software Development III**3 Units****Prerequisite(s):** CIS 200 (grade of C or better) or CIS 201 (grade of C or better).**Fee:** An additional \$30.00 is charged for this course.

Description: This course is a continuation of CIS 200. It emphasizes object-oriented development using a strongly typed language. Students study the object model and apply its use to systems development problems. Topics include polymorphism, inheritance, and object interaction. Event-driven programming of graphic user interfaces is introduced. Application areas may include data structures, searching, sorting and databases. Extensive programming assignments are required.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 205. Information Systems in Organizations**3 Units****Term Typically Offered:** Fall, Spring, Summer

Prerequisite(s): Admitted to a College of Business Program This course helps students develop a working understanding of the differences between information systems and information technology, and how to apply those concepts to facilitate business processes successfully.

Fee: An additional \$30.00 is charged for this course.

Description: Broad information systems literacy is a goal since all business majors must take this course. This course does not include computer lab sessions.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 211. Operating Systems**3 Units****Prerequisite(s):** CIS 200 (grade of C or better) or CIS 201 (grade of C or better).**Fee:** An additional \$30.00 is charged for this course.

Description: The course surveys basic computer architecture and operating system concepts. The student learns how the computer is built and organized, and how the operating systems function to manage available resources. The course provides experience with different operating systems such as Windows XP, UNIX/Linux, and MS-DOS. Topics covered include: data representations in the computer and base conversions; the CPU and memory; instruction types; I/O facilities; computer peripherals; operating system internals; file management; programming tools; and an introduction to client/server and web-based computing and applications.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 215. Introduction to Computer Information Systems 2 Units**Term Typically Offered:** Occasionally Offered**Prerequisite(s):** CIS 199 (grade of C or better) or CIS 201 (grade of C or better).**Fee:** An additional \$20.00 is charged for this course.

Description: This course provides an overview of computer information systems and how they are used in business. It emphasizes fundamental knowledge areas and skills expected of an information systems professional. Topics include the evolution of computing equipment, a survey of types of information systems used in business, and a discussion of professional responsibilities. Students learn team building, project planning, team coordination, and project reporting techniques. Career opportunities, co-op placement, and CIS program requirements are discussed.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 250. Introduction to Data and Information Management 3 Units**Term Typically Offered:** Fall, Spring, Summer**Fee:** An additional \$30.00 is charged for this course.

Description: This course provides an introduction to the role of computers and other information technologies in business. Sessions in the classroom will cover the basic concepts of computer use with special attention to current technological innovation in social and business environments. Topics include technology and organizational change, telecommunications, privacy in the information age, and business security on the internet. Sessions in the computer lab will emphasize business problem solving using critical thinking techniques and commonly used analytical tools.

Note: A \$30 lab fee is charged for this course.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 300. Computer Information Systems 3 Units**Term Typically Offered:** Occasionally Offered**Prerequisite(s):** CIS 100 or CIS 250.**Fee:** An additional \$30.00 is charged for this course.

Description: The study of computer information systems as they support business processes. Topics include the role of data, data manipulation, database management, information management and decision making, systems analysis and design, historical vs. current methodology in data communications, hardware and software in telecommunications, an overview of automated information systems, policies and procedures needed to protect an information system, and advanced use of spreadsheet and database software.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 305. Data Analysis for Decision-Making 3 Units**Term Typically Offered:** Fall, Spring, Summer**Fee:** An additional \$30.00 is charged for this course.

Description: This project-based course provides students with an opportunity to explore data analysis using spreadsheet and database techniques, including incorporating contemporary decision-making tools in modern spreadsheet software. This course emphasizes the roles of business analysis and knowledge workers through projects and discussions and teaches students how creative use of strong analytical skills can lead to career advancement in any business domain. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 310. Database Design 3 Units**Term Typically Offered:** Fall, Spring**Prerequisite(s):** CIS 199 or CIS 443.**Fee:** An additional \$30.00 is charged for this course.

Description: This course will provide a solid and practical foundation for the design and implementation of database systems. Emphasis will be on relational database models, with significant coverage of basic relational database concepts, normalization, E-R modeling, locking, SQL, and distributed databases. Additional topics include web database, database security, access control policies and procedures, risk management, and ethical aspects of information handling. Course software includes current database tools such as SQL server.

Note: Course is restricted to approved COB BSBA majors and COB Data Analytics minors.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 320. Systems Analysis and Design 3 Units**Term Typically Offered:** Fall, Spring**Prerequisite(s):** CIS 199, CIS 305 (or equivalent), and CIS 310 (or concurrent).**Fee:** An additional \$30.00 is charged for this course.

Description: Introduces the fundamentals of object-oriented analysis and design, including experience with a CASE tool. Topics include requirements determination, feasibility analysis, modeling with Unified Modeling Language (UML) and data dictionary construction, data modeling and normalization, user interface requirements specification, and information security procedures. Development of problem and design specifications for an information systems project is required. Develops team skills, written and oral communication skills.

Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 350. Infrastructure Technologies
3 Units
Term Typically Offered: Fall, Spring

Prerequisite(s): CIS 199.

Fee: An additional \$30.00 is charged for this course.

Description: This course provides an introduction to IT infrastructure issues and covers topics related to computer and systems architecture and communication networks, with an overall focus on the services and capabilities that IT infrastructure solutions enable in an organizational context. It gives students the knowledge and skills that they need for communicating effectively with professionals whose special focus is on hardware and systems software technology and for designing processes and solutions that require in-depth understanding of the IT infrastructure capabilities and limitations. It also prepares students for interaction with external vendors of IT infrastructure components and solutions.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 360. Business Data Communications
3 Units
Term Typically Offered: Occasionally Offered

Prerequisite(s): CIS 111 or CIS 202; CIS 115 or CIS 215; CIS 211; MATH 205.

Fee: An additional \$30.00 is charged for this course.

Description: This course explores the fundamental concepts of business data communications and networking. Preliminary discussion will trace the evolution of telecommunications, its regulation over the years, laws governing telecommunications, and the role of regulatory bodies. Primary focus will be on data communications technologies and infrastructure used shared data among business organizations. Students study common network technologies and learn how to apply them to business situations. Topics include data transmission, terminal-host communication, TCP/IP, OSI model, Local Area Network (LAN) technologies, network standards, Wide Area Network (WAN), wireless communication, network management, communication security, security tools, privacy and ethics, and laws governing data communications.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 371. Excel Programming with VBA
1.5 Units
Prerequisite(s): CIS 100 or CIS 250; CIS 300; restricted to non-CIS Business students.

Description: Practical information systems development experience using Microsoft Excel and Visual Basic for Applications (VBA). Students will learn to use Excel and VBA as a programming environment for creating information systems solutions. Topics might include an introduction to VBA, its main components and objects, and their properties, methods, and events. Through hands-on work, students will learn to develop solutions, debug, handle errors, and create custom reports.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 380. Software for Business I
1-3 Units
Prerequisite(s): CIS 300; restricted to Accounting and Finance majors.

Fee: An additional \$30.00 is charged for this course.

Description: Experience with contemporary software products used in business. Students will acquire hands-on experience using the software in analyzing business problems or in creating information systems useful in business. Software products will vary as technology evolves, and will address topics of current interest such as project management, data storage and use, decision support, and web authoring.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 381. Software for Business II
1-3 Units
Prerequisite(s): CIS 300; restricted to Accounting and Finance majors.

Description: A continuation of CIS 380 for students seeking additional experience with contemporary software products.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 390. Special Topics
1-3 Units
Term Typically Offered: Occasionally Offered

Prerequisite(s): CIS 199.

Fee: An additional \$30.00 is charged for this course.

Description: Practical information systems development experience using contemporary PC programming tools and environments. Topics will vary as technology evolves, and will include topics of current interest such as network administration, Rapid Application Development, and World Wide Web development.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 391. Windows Network Administration
1.5 Units
Grading Basis: Pass/Fail

Prerequisite(s): CIS 111 or CIS 202; CIS 115 or CIS 215; CIS 211; restricted to CIS students.

Description: Practical network administration experience using Microsoft's client/server operating system. Students will learn to perform fundamental network administration and installation tasks. Topics might include account policies, network resources, permission for files and folders, printer environments, partitions, network transport protocols, and network services. Through hands-on work, students will learn to install and configure the operating system, create user and group accounts, monitor and manage network resources, and install and configure network services.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 392. VB NET Programming**1.5 Units****Term Typically Offered:** Occasionally Offered**Prerequisite(s):** CIS 111 or CIS 202; CIS 115 or CIS 215; CIS 211; restricted to CIS students.**Fee:** An additional \$15.00 is charged for this course.**Description:** Practical information systems development experience using Microsoft VB NET. Students will develop logical problem solving skills and methods for translating a problem description into appropriate logic structures and coding statements. Topics might include programming constructs, variables, arrays, procedures, commonly used VB controls, menus, and database access. Through hands-on-work, students will develop proficiency with programming logic, event-driven programming, objects and their use, and Windows application development.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CIS 396. Zero-Credit Internship-Computer Information Systems****0 Units****Grading Basis:** Pass/Fail**Term Typically Offered:** Occasionally Offered**Prerequisite(s):** BUS 201; CIS 199 and CIS 305; good academic standing and validation from the Ulmer Career Center; must be a CIS major.**Fee:** An additional \$45.00 is charged for this course.**Description:** A new workplace experience in an approved Computer Information Systems position which offers a progression of learning in a level appropriate opportunity for practical application of classroom theory and tools. This program is available to students who have received the maximum number of co-op credit hours for their major. Application to the zero-credit internship program and completion of orientation processes should be accomplished prior to employment.**Note:** This course is restricted and requires permission from the Ulmer Career Management Center.**Course Attribute(s):** CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CIS 397. Co-op in Computer Information Systems I****3 Units****Grading Basis:** Pass/Fail**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** BUS 201; CIS 199 and CIS 305; good academic standing and validation from the Ulmer Career Center; must be a CIS major.**Description:** A new workplace experience in an approved CIS position that offers the student an opportunity for practical application of classroom theory and tools. Can be taken with CIS 398 for a total of six (6) hours of co-op credit, students may register for CIS 397 and CIS 398 in one or two semesters. CIS majors only.**Note:** Application to the co-op program and completion of the orientation process should be completed prior to employment.**Course Attribute(s):** CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**CIS 398. Co-op in Computer Information Systems II****1-3 Units****Grading Basis:** Pass/Fail**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** CIS 397 (or concurrent); university GPA of 2.50; validation through the College of Business Co-op Office.**Description:** A new or continued workplace experience in an approved CIS position which offers new learning and/or additional responsibilities that continue the student's progression of learning and opportunity for practical application of classroom concepts and tools.**Note:** Usually taken concurrently with CIS 397 for a total of six hours of co-op credit for a six month, full-time work place experience; students may register for CIS 397 and CIS 398 in one or two semesters.**Course Attribute(s):** CBL - This course includes Community-Based Learning (CBL). CIS 411. Web Application Development Term Typically Offered: Fall, Spring Prerequisite(s): CIS 200, CIS 310, and CIS 350. Fee: An additional \$30.00 is charged for this course. Description: This course introduces dynamic web applications and how they are developed. Students will understand the role of client-side and server-side technologies, and use web forms, various server controls and session objects to develop multipage web applications. Students will gain system development experience with current web development tools and platforms. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CIS 430. User Interface Design Prerequisite(s): CIS 320. Description: This course provides a conceptual basis and practical guidelines for the design and development of graphical user interfaces. The course introduces Human-Computer interaction and human factor concepts. Design emphasis is placed on effective information presentation and usability concerns. Development of prototype user interfaces using contemporary GUI software, such as Visual Basic or Web development tools is required. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CIS 415. Careers in Information Systems Grading Basis: Pass/Fail Term Typically Offered: Occasionally Offered Prerequisite(s): CIS 310; CIS 215 or CIS 315; CIS 320; CIS 360. Fee: An additional \$10.00 is charged for this course. Description: Provides an assessment of the student's development as an information systems professional. The emphasis of the course is on completion and presentation of the student's information systems portfolio. Career development activities include: resume preparation and review, career planning, professional information systems organizations and networking, and lifelong learning opportunities. Taught on pass-fail basis. Note: Students are encouraged to enroll in this course during their last semester of CIS coursework. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	1 Unit	CIS 440. Object-Oriented Methods Prerequisite(s): CIS 310; CIS 215 or CIS 315; CIS 320; CIS 360. Description: Information System analysis, design, and implementation using the object-oriented paradigm. Topics include inheritance, encapsulation, and polymorphism, and their use in design and implementing effective object-oriented systems. Exposure to an object-oriented CASE tool and programming with object-oriented language, such as C++, are expected. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CIS 420. CIS Development Project Term Typically Offered: Fall, Spring Prerequisite(s): CIS 310, CIS 320 and CIS 350. Fee: An additional \$30.00 is charged for this course. Description: A continuation of CIS 320, this course focuses on the detailed design and implementation phases of the system development life cycle, including user acceptance testing, test planning, design reviews, and change procedures. Specifications created in CIS 320 are used to implement, test, and install a working version of an information system. System deployment emphasizes a web-based architecture. A prototyping approach is taken to develop and test the system in an iterative manner. Students are grouped into project teams, and each team member accepts task assignments necessary to deliver the information system prototype. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CIS 443. Analytics Programming Term Typically Offered: Fall, Spring Prerequisite(s): One of the following: BSTA 301, BSTA 201, CSE 110, IE 360, MATH 109, PSYC 301, SOC 301, PHST 302, POLS 390 or equivalent. Fee: An additional \$30.00 is charged for this course. Description: Open to all UofL students. This course introduces general programming concepts and techniques to a data analytics audience with no prior programming experience. Students will learn programming techniques that support business analytics with hands-on programming including accessing data, creating informative data graphics, writing functions, debugging, and organizing code. Examples are drawn from the problems and programming patterns often encountered in data analysis. It will use a popular analytics programming language such as Python. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
		CIS 444. Data Analytics Term Typically Offered: Fall, Spring Prerequisite(s): One of the following: BSTA 301, BSTA 201, CSE 110, IE 360, MATH 109, PSYC 301, SOC 301, PHST 302, POLS 390 or equivalent; open to all UofL students. Fee: An additional \$30.00 is charged for this course. Description: This course reviews and builds on the fundamental statistical concepts and techniques covered in the undergraduate Business Statistics course. Students will learn to model data and use analytical skills to solve real business problems. Topics include exploratory data analysis, estimation, statistical inference about populations, hypothesis testing, ANOVA, linear and multiple regression, and logistic regression. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units

CIS 445. Machine Learning
3 Units
Term Typically Offered: Spring Only

Prerequisite(s): CIS 310 or CSE 335; CIS 443 and CIS 444; Open to all UofL students.

Fee: An additional \$30.00 is charged for this course.

Description: This course introduces basic machine learning concepts, techniques and its application to business problems. Topics include data preparation, feature selection, predictive modeling, classification, clustering, evaluation, validation, supervised & unsupervised, reinforcement, deep learning and scalability. The emphasis will be on the application of machine learning techniques to problems in a business context. While there will be discussion about use of machine learning tool and common techniques, the math behind those techniques is not the focus of this course. Machine learning techniques about both structured and unstructured data (such as natural text) are discussed. Heavy use of a machine learning software (e.g., SAS, SPSS) is expected. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 446. Business Analytics
3 Units
Prerequisite(s): CIS 444.

Fee: An additional \$30.00 is charged for this course.

Description: This course provides a hands-on learning experience using advanced statistical tools (e.g., SAS and SPSS) that can be leveraged to work with structured data and generate business knowledge. This course covers sophisticated techniques, such as predictive modeling, time-series analysis, and growth modeling. After taking this course, students are expected to be able to: (1) solve common analytical business problems; (2) think systematically about if and how data can help make better-informed decisions; (3) and use business analytical tools. For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 447. Advanced Business Analytics
3 Units
Prerequisite(s): CIS 445 and CIS 446.

Fee: An additional \$30.00 is charged for this course.

Description: This course teaches students how to use state of the art analytical tools (e.g., Hadoop, SAS Enterprise Miner) to handle data that comes in a variety of forms and sizes in more complex, less structured business situations. Students will participate in extensive hands-on work solving realistic business problems. This course guides students with handling optimization models, Monte Carlo simulations, and decision analysis.

CIS 450. Special Topics in Data Analytics
3 Units
Term Typically Offered: Fall Only

Prerequisite(s): CIS 310 or CSE 335; CIS 443 and CIS 444; Open to all UofL students.

Description: Explore current topics of interest in data science such as data visualization, blockchain, and cloud computing.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 455. Computer Ethics, Social Issues and the Law
3 Units
Prerequisite(s): CIS 150 and CIS 300.

Description: Provides an introductory examination of the ethical, social, and legal aspects of computing. Topics include responsibilities for computer professionals, intellectual property, privacy, social interaction in electronic forums, policy and other current issues. Case studies, in-class discussion, and position papers are used extensively.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 460. Advanced Networking
3 Units
Prerequisite(s): CIS 360.

Description: This course will cover material relating to network primarily, with several hands-on lab sessions using Cisco and other routers. The principal topics to be covered are: TCP/IP architecture, OSI 7-layer model, IP addressing, Subnet masking, study of protocols such as RIP, BGP, IGRP, IS-IS, X.25, ATM, ARP, OSPF, and networks such as DEC-net and AppleTalk. We will also discuss concepts involving hub, bridge, switch, router, cabling, Voice over IP, Telnet, FTP, Frame Relay, Virtual LAN, network security, security policies and procedures, and risk analysis.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 465. Advanced Cobol
3 Units
Prerequisite(s): CIS 310; CIS 215 or CIS 315; CIS 320; CIS 360.

Description: Analysis, design and implementation of advanced business information systems using the COBOL programming language. The course focuses on the COBOL 85 standard and covers aspects of the previous COBOL 74 standard so that students have the abilities needed to maintain and modify older "legacy" systems. Topics covered include: array processing and multilevel tables; advanced file sorting, merging, and searching; indexed and interactive file processing; subroutines; ALL statement; COPY statement; VSAM file concepts; and CICS and SQL concepts. The IBM COBOL compiler is used on a system running under the VM/CMS operating system.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 475. Enterprise Internet Computing
3 Units
Prerequisite(s): CIS 310; CIS 215 or CIS 315; CIS 320; CIS 360.

Description: Provides a framework to understand and evaluate current and emerging Internet-based technologies. The focus of the course is on understanding, designing, and implementing enterprise-level Internet systems. These secure, robust, scalable, and integrated solutions will be implemented using current web services architecture, such as J2EE. Case studies and projects provide hands-on exposure to these technologies and their applications.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

CIS 480. Introduction to Network Security Term Typically Offered: Fall Only Prerequisite(s): CIS 350 or CSE 420; CIS 481. Fee: An additional \$30.00 is charged for this course. Description: Basic concepts of networking, operations security, protocol features for security, transmission security, packet filtering, TCP wrappers, firewalls, computer viruses, physical protection, legal protection, liability issues, significance of National Security Directive 42, implications of Computer Security Act, CERT recommendations, assessment of threats and vulnerabilities of systems, security countermeasures, contingency planning, disaster recovery, risk management, and auditing and monitoring, policies and procedures dealing with storage and disposition of sensitive data. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CIS 483. Introduction to Database Security Term Typically Offered: Spring Only Prerequisite(s): CIS 310 or CSE 335; CIS 481. Fee: An additional \$30.00 is charged for this course. Description: Basic data protection methods such as discretionary and mandatory access controls, secure database design, data integrity, secure architectures, secure transaction processing, information flow controls, and auditing, copyright and database protection, privacy issues (including employee records and HIPAA). Security models for relational and object-oriented databases, security of databases in a distributed environment, survey of commercial systems, and research prototypes. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CIS 481. Introduction to Information Security Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CIS 350 or CSE 420. Fee: An additional \$30.00 is charged for this course. Description: Basic notions of confidentiality, integrity, availability, authentication models, protection models, security kernels, audit, intrusion detection, operational security issues, physical security issues, security system life cycle management, personnel security, policy formation and enforcement, trust modeling, risks and vulnerabilities assessment, basic issues of law and privacy, trade secrets, employee covenants, copyright, database protection, software and hardware validation, verification and certification. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CIS 484. Computer Forensics Term Typically Offered: Fall, Spring Prerequisite(s): CIS 350 or CSE 420; CIS 481. Fee: An additional \$30.00 is charged for this course. Description: Basic computer forensics concepts involving evidence collection, preservation, and presentation in court. Technology tools to analyze files, implications on privacy, ethics, policies, risk management and legal aspects will be covered. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
CIS 482. Introduction to Cryptography Term Typically Offered: Occasionally Offered Prerequisite(s): CIS 300; MATH 180 or MATH 205 or EAC 101. Fee: An additional \$30.00 is charged for this course. Description: Basic concepts of cryptology, historical ciphers, modern symmetric ciphers such as DES, public key cryptography (RSA, elliptic curve cryptosystems), efficient hardware and software implementations of cryptographic primitives, copyright protection (including the Digital Millennium Copyright Act), requirements for implementation of cryptographic modules, data integrity and authentication, digital signature schemes, key exchange and key management, standard protocols for secure mail, electronic payments, security aspects of mobile communications, key escrow schemes, Smart cards, and social implications of new technologies. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units	CIS 490. Special Topics in Computer Information Systems Term Typically Offered: Fall Only Prerequisite(s): One of the following: BSTA 301, BSTA 201, MATH 109, PSYC 301, SOC 301, CJ 326, MGMT 201 or equivalent. Fee: An additional \$30.00 is charged for this course. Description: Explores contemporary topics of current interest in information systems, such as emerging telecommunications technologies, decision support, end-user computing, and distributed database management. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)	3 Units
		CIS 499. Independent Study Computer Information Systems Term Typically Offered: Fall, Spring, Summer Prerequisite(s): CIS 310, CIS 320, and CIS 350. Fee: An additional \$30.00 is charged for this course. Description: Written proposal must be sponsored by at least one faculty member and approved by the Department Chair. Design (DES)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (https://csprd.louisville.edu/ps/ps_class/EMPLOYEE/PSFT_CS/c/COMMUNITY_ACCESS.CLASS_SEARCH.x/?state=62dab551a0d600a5e8237359c50704e59007&duo_code=sjUx20STj21bWV5uQ3Z1YpI1m6p0p0)

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (<https://louisville.edu/bursar/tuitionfee/university-fees/>).

DES 204. Foundation Interior Design 3 Units**Term Typically Offered:** Fall Only**Prerequisite(s):** ART 105, ART 106, or ART 107; or faculty consent.**Corequisite(s):** DES 361 or ART 361.**Description:** An introduction to the discourse of design and the process of design through methods of representation and making. This course is required for students who intend to apply for the BFA program in Interior Design and must be taken concurrently with DES 361 or ART 361.

DES 205. Foundation Graphic Design 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** ART 105, ART 106, or ART 107; or faculty consent.**Fee:** An additional \$25.00 is charged for this course.**Description:** Fundamental methods of solving visual communication problems found in the design arts with an emphasis on clarity and immediacy of the solution for a general audience. This course is required for students who intend to apply for the BFA program in Graphic Design.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 301. History of Graphic Design 3 Units**Term Typically Offered:** Fall Only**Prerequisite(s):** BFA Graphic Design Candidacy or faculty consent.**Description:** Seminar course covering the development of graphic design from 1800 to present. Topics include key movements, technologies, ethics, and general issues relating to design theory and criticism. Formerly taught as History and Issues of Graphic Design. This course is a requirement for the completion of the BFA in Graphic Design.**Note:** Cross-listed with ARTH 301.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 347. Historic Interiors for Interior Design 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** BFA Interior Design Candidacy or faculty consent.**Description:** The study of building interiors in relation to design, culture, history, furniture and decorative elements. This course is a requirement for completion of the BFA in Interior Design. May be used to satisfy an ARTH elective for the BA in Art History.**Note:** Cross-listed with ARTH 347.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 361. Introduction to Interior Design 3 Units**Term Typically Offered:** Fall Only**Corequisite(s):** DES 204.**Fee:** An additional \$35.00 is charged for this course.**Description:** An introduction to interior design through understanding of architectural drawings and conceptual development. This will be achieved through architectural drafting and conceptual sketches. This course is a requirement for completion of the BFA in Interior Design. This course must be taken concurrently with DES 204. Formerly taught as Introduction to Interior Architecture.**Note:** Cross-listed with ART 361.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 362. Color Theory and Human Factors in Interior Design 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** ART 361 or DES 361, BFA Candidacy, or faculty consent.**Corequisite(s):** ART 561 or DES 561.**Fee:** An additional \$35.00 is charged for this course.**Description:** A visual design theory course that explores the use of color theory and human factors/ergonomics information necessary for analyzing and designing the interior environment. This course is required to be taken in the same semester as ART / DES 561 Interior Design Studio I. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 362.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 371. Introduction to Graphic Design 3 Units**Term Typically Offered:** Fall, Spring**Fee:** An additional \$35.00 is charged for this course.**Description:** Beginner-level studio introducing methods of solving visual communication problems with an emphasis on conceptual development and the practical application of design fundamentals. This course does not fulfill a requirement for the BFA in Graphic Design. This course fulfills a 300-level studio art elective for the BA or BFA in Art, track in Studio Art or track in Art History, or Minor in Art.**Note:** Cross-listed with ART 371.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 373. Introduction to Visualization 3 Units**Term Typically Offered:** Fall Only**Prerequisite(s):** ART 105, ART 106, ART 107, and ART 205; BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$35.00 is charged for this course.**Description:** Beginner-level studio introducing methods of solving visual communication problems with an emphasis on conceptual development and the practical application of design fundamentals.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 501. Advanced History of Graphic Design 3 Units**Term Typically Offered:** Fall Only**Prerequisite(s):** BFA Graphic Design Candidacy or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Seminar course covering the development of graphic design from 1800 to present. Topics include key movements, technologies, ethics, and general issues relating to design theory and criticism. Cross-listed with ARTH 501.**Note:** Formerly taught as Advanced History and Issues of Graphic Design.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 510. Information Visualization 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Intermediate-level studio to create and refine visual forms with emphasis on presenting numerical data and relational information in visually engaging ways with accuracy and integrity for a general audience. Formerly taught as Design for Visualizing Data and Information. Cross-listed with ART 510.**Note:** This course is a requirement for completion of the BFA in Graphic Design.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 559. Computer Applications for Interiors I 3 Units**Term Typically Offered:** Fall Only**Prerequisite(s):** ART 361 or DES 361; BFA Candidacy or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** An introduction to professional applications for graphic communication skills, specifically the technical drawings used in construction. Students will develop a set of construction drawings and schedules for a project of their own design. The course will introduce professional industry-standard software applications and drawing skills, and foster the continuing development of those skills. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 559.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 561. Interior Design Studio I 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** ART 361 or DES 361 and BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Introduction to small scale interior design projects emphasizing process and techniques in relation to special populations. Formerly taught as Interior Architecture Studio I. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with DES 561.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 562. Interior Design Studio II 3 Units**Term Typically Offered:** Fall Only**Prerequisite(s):** ART 561 or DES 561 and BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Study of three-dimensional space through model making. Formerly taught as Interior Architecture Studio II. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 562.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 563. Interior Design Studio III 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** ART 562 or DES 562 and BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Design of projects involving such areas as historic preservation, hospitality, and retail sales. Formerly taught as Interior Architecture Studio III. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 563.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 564. Interior Design Studio IV**3 Units****Term Typically Offered:** Fall Only**Prerequisite(s):** ART 563 or DES 563 and BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Large scale office design involving programming, space planning and specifying materials. Practice for NCIDQ exam. Formerly taught as Architecture Studio IV. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 564.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 565. Directed Projects in Interior Design**3 Units****Term Typically Offered:** Spring Only**Prerequisite(s):** Senior standing; BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Development of advanced research and project design. Formerly taught as Directed Projects in Interior Architecture. May be repeated to a maximum of 6 hours. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 565.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 566. Interiors Construction**3 Units****Term Typically Offered:** Fall Odd Years**Prerequisite(s):** ART 361 or DES 361 and BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** A study of interiors construction components and materials. A review of building codes, specifications and terminology. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 566.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 567. Interior Finishes**3 Units****Term Typically Offered:** Spring Only**Prerequisite(s):** ART 361 or DES 361 and BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** A study of interior materials, such as wall coverings and floor coverings and their fabrication, and marketing and installation procedures. Formerly taught as Textiles and Finishes for Interior Design. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 567.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 568. Building Systems**3 Units****Term Typically Offered:** Fall Even Years**Prerequisite(s):** ART 361 or DES 361 and BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** An investigation of building systems including - HVAC, plumbing, electrical, lighting and acoustics and other systems. Formerly taught as Environmental Systems. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 568.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 569. Computer Applications for Interiors II**3 Units****Term Typically Offered:** Spring Only**Prerequisite(s):** ART 559 or DES 559 and BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Intensive use of industry-standard software applications in the exploration, documentation, and presentation of design projects. Course will take students from 2-D drafting to 3-D modeling, rendering, and animation. Formerly Computer Applications in Interior Design. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 569.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 570. Design for Public Issues I**3 Units****Term Typically Offered:** Fall Only**Prerequisite(s):** Senior standing and BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Advanced studio to understand dimensions of a public issue and propose system-level interventions in a collaborative, human-centered design process, with emphasis on problem identification. Formerly taught as Design for Public Issues. Cross-listed with ART 570.**Note:** This course is a requirement for completion of the BFA in Graphic Design.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 571. Typography I**3 Units****Term Typically Offered:** Fall Only**Prerequisite(s):** BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Studio course on typography, covering the anatomy of type, typefaces, and the function of typography in visual communication, with an emphasis on practical skills related to print and digital forms. Cross-listed with ART 571.**Note:** This course is a requirement for completion of the BFA in Graphic Design.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 572. Typography II 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** ART 571 or DES 571 and BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** An intermediate studio focused on the study and use of type to solve visual communication problems with advanced skills of typography in organizing, arranging, and presenting information in complex forms. Cross-listed with ART 572.**Note:** This course is a requirement for completion of the BFA in Graphic Design.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 573. Typography III 3 Units**Term Typically Offered:** Fall Only**Prerequisite(s):** ART 572 or DES 572 and BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Advanced studio on the development of a cohesive visual and verbal system through a systematic combination of typography, color, image style and layout across a variety of forms. Formerly taught as Identity Systems. Cross-listed with ART 573.**Note:** This course is a requirement for completion of the BFA in Graphic Design.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 575. Packaging Design 3 Units**Term Typically Offered:** Occasionally Offered**Prerequisite(s):** BFA Graphic Design Candidacy; or faculty consent.**Description:** Problems in designing for packaging structures. Formerly taught as Packaging. This course satisfies an elective for completion of the BFA in Graphic Design.**Note:** Cross-listed with ART 575.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 576. Interaction Design I 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Studio course on the conceptualization and development of human experiences in digital environments; covering the process from research to delivery with an emphasis on stakeholder engagement. This course is a requirement for completion of the BFA in Graphic Design. Cross-listed with ART 576.**Note:** Formerly taught as Web Site Design.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 577. Interaction Design II 3 Units**Term Typically Offered:** Fall Only**Prerequisite(s):** ART 576 or DES 576 and BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Intermediate-level studio covering special problems of digital environments including interface issues, design systems, and consistency across interactions; with discussions about implementation and delivery. This course satisfies an elective for completion of the BFA in Graphic Design. Cross-listed with ART 577.**Note:** Formerly taught as Design for Interaction.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 578. Interaction Design III 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** ART 577 or DES 577 and BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Advanced studio focused on understanding and addressing the challenges of service continuity across multiple interaction points.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 580. Design for Public Issues II 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Advanced studio to understand dimensions of a public issue and propose system-level interventions in a collaborative, human-centered design process, with emphasis on program development. This course satisfies an elective for completion of the BFA in Graphic Design.**Note:** Cross-listed with ART 580.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 582. Human Experience In Design 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Studio course introducing theoretical frameworks about cultural, societal, physical, emotional, and cognitive factors to inform designers as they make decisions impacting the human experience.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 583. Design Research Methods 3 Units**Term Typically Offered:** Fall Only**Prerequisite(s):** BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Intermediate-level studio introducing the practice of human-centered design, with emphasis on conducting original research, developing frameworks, and presenting complex ideas to motivate change.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

DES 584. Design Futures 3 Units**Term Typically Offered:** Spring Only**Prerequisite(s):** BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Advanced studio utilizing a human-centered design process to arrive at an integrative set of design principles, recommendations, and concepts that break down a complex societal problem.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**DES 588. Internship in Design 3 Units****Grading Basis:** Pass/Fail**Term Typically Offered:** Fall, Spring, Summer**Prerequisite(s):** BFA Graphic Design Candidacy or faculty consent.**Description:** Internships in graphic design are paid, hands-on work experience to implement the skills learned during the course of graphic design program study. Internships are by special arrangement. This work/learning arrangement must be overseen by a graphic design faculty member and by a designated employee of an organization. Registering for ART/ART 588 is contingent upon the student identifying a graphic design faculty member who will sponsor and oversee their work. May not be used to fulfill minimum requirements for the BFA in Graphic Design. May be repeated to a maximum of 6 hours.**Note:** Cross-listed with ART 588.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**DES 590. Special Topics in Design 0.5-3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** BFA Graphic Design Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** A variety of topics relevant to contemporary design practice, outside the scope of the established departmental curriculum, will be studied in a unique workshop format that combines lectures, studio activities, and micro-credentials - often arranged with invited guests.**Note:** May be repeated with different subtitles to a maximum of 12 hours.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**DES 594. Directed Projects in Design 3 Units****Term Typically Offered:** Fall, Spring**Prerequisite(s):** BFA Graphic Design Candidacy or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Advanced studio for a personal interest project that demonstrates capacity to synthesize visual and written components into a compelling communication program with a variety of forms.**Note:** Cross-listed with ART 594.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**DES 596. Professional Development in Interior Design - CUE 3 Units****Term Typically Offered:** Spring Only**Prerequisite(s):** ART 564 or DES 564 and BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** The professional aspects of interior design, with emphasis on the fundamental knowledge and technical skills required for practice in the interior design profession and the role, purpose, and study of professional development. Students will develop, prepare, and edit a resume and a portfolio of work for presentation within the interior design profession. This course is a requirement for completion of the BFA in Interior Design.**Note:** Cross-listed with ART 596.**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)**DES 598. Professional Development in Graphic Design - CUE 3 Units****Term Typically Offered:** Spring Only**Prerequisite(s):** Senior standing and BFA Candidacy; or faculty consent.**Fee:** An additional \$50.00 is charged for this course.**Description:** Advanced studio dedicated to the development of professional quality portfolio and resume representing undergraduate experience; plus, the organization and production of the senior design portfolio day. Cross-listed with ART 598.**Note:** Formerly taught as Portfolio Development in Graphic Design - CUE.**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs.
