121

# **BIOLOGY (BS)**

This program was approved for students entering the university in the Summer 2025-Spring 2026 catalog year. For more information about catalog year, go to Catalog Year Information (https://catalog.louisville.edu/undergraduate/university-wide-unit-specific-policies/catalog-year/).

#### **Bachelor of Science in Biology**

Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s/) Departmental Website: Biology (http://www.louisville.edu/a-s/biology/) Academic Plan Codes: See Track Requirements tab.

## **Program Information**

There are two undergraduate degree programs offered in the Biology Department, a Bachelor of Arts (BA) in Biology and a Bachelor of Science (BS) in Biology.

Bachelor of Science degrees are designed so that students get a particularly strong background in their area of interest in biology—biomedical, cell/molecular/developmental, or evolution/ecology—but still have some flexibility to take courses of interest. Compared to the BA degree, the BS degree requires more science, both in biology and in another field (physics or geosciences), a specific calculus course, and one less course in a foreign language. Each of the tracks in the BS degree also requires courses specific to the field of interest. BS degrees are valuable for students wanting to find employment in a biological field without further formal education, for students who hope to become teachers.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, email the department.

## **Degree Summary**

	Program/Major Re	equirements <sup>1</sup>	22
	Supporting Course	es <sup>1</sup>	25

Track Requirements 38-40

Minimum Total Hours

Some courses required in this degree program may satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

#### **Accelerated BS/MS in Biology**

This program is available to only University of Louisville undergraduate students. Students who are considering pursuing a non-thesis master's degree (MS) in Biology can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the Soaring Scholar BS/MS program take graduate courses (up to 9 credit hours) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree. An additional 24 credit hours of graduate coursework will constitute the minimum number of credit hours for obtaining the non-thesis masters. A minimum of 17 credit hours in the MS program must be in courses at the 600 level. With approval from the Director of Graduate Studies, successful applicants will identify up to 9 credit hours at the 500-600 level to count toward both the undergraduate and graduate degrees. These credits will count as elective credits toward the undergraduate degree.

Undergraduate students interested in participating in an accelerated dual bachelor's/master's degree offered through the university's Soaring Scholar Program (https://graduate.louisville.edu/academics/programs/soaring/) must first meet with their Academic Advisor and be accepted into the program. Once accepted, students will receive an official admission letter outlining program policies and details. They will then work with their department and academic advisor to register for classes each semester, ensuring they meet the milestones and academic progress requirements of the Soaring Scholar program. A Soaring Scholar student is considered an undergraduate student until their bachelor's degree is conferred. In their final undergraduate semester, they are expected to apply for admission to their respective master's program.

# Early Start Program (with the College of Education and Human Development)

The Master of Arts in Teaching program in conjunction with the undergraduate programs in Chemistry, Biology, and Mathematics offers a comprehensive and professionally-focused program leading to an additional degree of MAT Middle or Secondary Education. This early start program enables superior students to receive two degrees within five years. A total of 148 credits are required for the dual degrees: 121 credits of coursework devoted toward the baccalaureate degree and 36 credits toward the MAT, with nine hours double-counted. This program will be available for students who are entering their junior year. They may take graduate level courses in the College of Education and Human Development (CEHD) in their 4th year of study.

The current qualifications for the joint degree program have been agreed upon by discipline faculty from the Colleges of Arts and

Sciences and Education and Human Development. The criteria vary by discipline. Students enrolling in the accelerated program will be nonthesis students and must adhere to all policies pertaining to Graduate Students. All interested students must submit an application to the College of Education and Human Development (CEHD) MAT program and meet the admission criteria.

# **Departmental Admission Requirements**

Admission to the Bachelor of Science in Biology requires the following:

- · Completion of BIOL 240, BIOL 241, BIOL 242, and BIOL 243 with a grade of C or better.
- · Completion of MATH 111 with a grade of C or better OR placement into a mathematics course above the level of MATH 111 on the basis of either the University of Louisville mathematics placement examination or ACT/SAT score.
- · A minimum overall grade point average (GPA) of 2.0.

The Change Major Request form can be found under the Academic Progress tile on ULink.

#### Accelerated BS/MS in Biology

Students applying to the accelerated Soaring Scholar program must:

- 1. Have completed the equivalent of all the "core" majors courses in Biology with grades of B or higher;
- 2. Have a grade point average of 3.35 or higher; and
- 3. Apply for admission before the end of their junior year or completion of 90 credit hours toward their degree.

## **General Education Requirements**

Code	Title	Hours
	n Requirements (https://catalog.louisville.edu/ eneral-education-requirements/) *	31
_	rses are required by the program and can satisfy neral Education Requirement:	
BIOL 240	Unity of Life - S (https://catalog.louisville.edu/undergraduate/general-education-requirements/	)
or BIOL 242	Diversity of Life - S (https://catalog.louisville.edu undergraduate/general-education-requirements/	
BIOL 241	Experimental Biology I: Molecules and Cells - SL (https://catalog.louisville.edu/undergraduate/general-education-requirements/)	
or BIOL 243	Experimental Biology II: Organismal Biology - SL (https://catalog.louisville.edu/undergraduate/geeducation-requirements/)	eneral-
MATH 205	Calculus I - QR (https://catalog.louisville.edu/undergraduate/general-education-requirements/	)
CHEM 201	General Chemistry I - S (https:// catalog.louisville.edu/undergraduate/general- education-requirements/)	

\*All degrees require the completion of the University-wide General Education Program (link provided above). To complete the degree in the minimum number of hours listed on the Overview tab, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. If additional hours taken within the program also satisfy General Education requirements, students may need to take additional electives to satisfy the minimum hours required for the degree.

BIOL 359	Microbial Genetics and Pathogenesis - WR (https://catalog.louisville.edu/undergraduate/general-education-requirements/)	

- Fulfills the requirement for one of two required Gen Ed courses. However, only one Gen Ed course from each program will be counted towards your degree.
- Students with high school language experience or multilingual backgrounds should consult the Classical and Modern Languages department for information on partially or completely satisfying the language requirements through testing.
- This is a good time to think about performing undergraduate research.

  Look at faculty websites here and at the HSC, then email faculty whose research you find interesting. See if they have openings.
- Biology WR courses that fit well in this track include: BIOL 359, BIOL 415, BIOL 416, BIOL 480, BIOL 485, BIOL 511, BIOL 541, and BIOL 542 but note that only some of these are offered in a given semester. BIOL 406 (undergraduate research) would be appropriate if you plan to do an honors project, and is also a good source of writing credit. You MUST have mentor approval.

## **Track in Ecology**

The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

#### **Degree Audit Report**

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

#### Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

#### To create these reports:

- 1. Log into your ULink account.
- 2. Click on the Academic Progress tile.
- 3. Select the appropriate report.
  - a. To run a Degree Audit report, click on "View my Degree Audit."
  - b. To create a What-if report, click on "What-if Advisement Report."
  - c. To run a Flight Planner report, click on "Use My Flight Planner."

Click here to run a Degree Audit report, create a What-if report, or run a Flight Planner report. (https://ulink.louisville.edu)
